

CONTENTS

Introduction

I. Volatile compounds applied to the characterisation of vegetable oils and fats.....	9
I.1. Current major problems of the analysis of fatty plant oils.....	9
I.2. Fatty plant oils in the European Pharmacopoeia.....	10
I.3. Adulteration of fatty plant oils	10
I.4 Solid Phase Microextraction (SPME).....	11
I.5. Own SPME-GC-MS-method	15
I.6. Own Results	16
I.7. Vistas.....	21
II. Volatile compounds applied to the reduction of the bacterial count of ambient air.....	21
II.1. Own testing method.....	22
II.2. Own Results	25
II.3. Vistas.....	30
III. REFERENCES	31

Chapter 1

Characterisation of volatile compounds and triacylglycerol profiles of nut oils using SPME-GC- and MALDI-TOF- mass spectrometry	41
---	----

Chapter 2

Volatile compounds of shea butter samples made under different production conditions in western, central and eastern Africa.	69
--	----

Chapter 3

Volatile compounds and triacylglycerol composition of original Indian fatty plant oils	89
--	----

Chapter 4

Characterization of various grape seed oils by volatile compounds, triacylglycerol composition, total phenols and antioxidant capacity	117
--	-----

Chapter 5

Detection of Adulteration of Poppy Seed Oil with Sunflower Oil Based on Volatiles and Triacylglycerol Composition	141
---	-----

Chapter 6	
Analysis of volatile compounds and triacylglycerol composition of fatty seed oil gained from flax and false flax	157
Chapter 7	
Volatile compounds of original African black and white shea butter from Tchad and Cameroon	181
Chapter 8	
Analysis of Volatile Compounds and Triglycerides of seed oils gained from different poppy varieties (<i>Papaver somniferum</i> , L.)	195
Chapter 9	
Volatile compound analysis of SMPE headspace and extract samples from roasted Italian chestnuts (<i>Castanea sativa</i> Mill.) using GC-MS	213
Chapter 10	
Novel analytical techniques for the characterization, quality control and authenticity assessment of fatty plant oils	223
Chapter 11	
Antimicrobial effect of vapours of terpineol, (R)-(-)-linalool, carvacrol, (S)-(-)-perillaldehyde and 1,8-cineole on airborne microbes using a room diffuser	237
Chapter 12	
Effects of scents on airborne microbes, part I: thymol, eugenol, <i>trans</i> -cinnamaldehyde and linalool	247
Chapter 13	
Antimicrobial effect of vapours of geraniol, (R)-(-)-linalool, terpineol, γ -terpinene and 1,8-cineole on airborne microbes using an airwasher	261
Chapter 14	
Antimicrobial effect of <i>volatile compounds</i> on airborne microbes using an airwasher	267
