

CONTENTS

Activators and Inhibitors in Adrenocortical Steroidogenesis R. Neher	1
The Effect of Calcium, Calcium Ionophore and Calcium Channel Blocking Agent on Leydig Cell Function T. Lin, G. C. C. Chen, E. P. Murolo, J. Osterman, H. R. Nankin	53
Drug Effects on Normal and Abnormal Prostates R. Ghanadian and C. M. Puah	63
GnRH-Receptor-Effector-Response Coupling in the Pituitary Gonadotrope: A Ca^{2+} Mediated System P. M. Conn, M. D. Bates, Deloris C. Rogers, Sallie G. Seay, Wendy A. Smith	85
The Role of Neuroactive Drugs in Clinical Endocrinology G. Delitala	105
Drug Interaction with Female Sex Steroids: Effects on Hepatic Metabolism G. Feuer	193
Role of Calcium and Calcitonin in Insulin Secretion M. Cigolini, O. Bosello, C. Zancanaro	241
Prolactin, Biosynthesis, Release and Ultrastructural Characteristics of Lactotrophs S. H. Shin and C. W. Reifel	271
Hamster Renal Adenocarcinoma: Effect of Diethylstilbestrol on Immune and Endocrine Status P. H. Naylor, A. L. Goldstein, C. A. Villee	295

Control of Aldosterone Biosynthesis in Experimental
Sodium Deficiency

A. Spät, T. Balla, P. Enyedi 309

Subject Index 349
