

Contents

Contributors **v**

Preface **vii**

Numerical Methods for Coordinate Generation Based on a Mapping Technique
R. T. Davis **1**

Introduction to Multi-grid Methods for the Numerical Solution
of Boundary Value Problems
W. Hackbusch **45**

Higher-Level Simulations of Turbulent Flows
J. H. Ferziger **93**

Numerical Methods for Two- and Three-Dimensional Recirculating Flows
R. I. Issa **183**

The Computation of Transonic Potential Flow
T. J. Baker **213**

The Calculation of Steady Transonic Flow by Euler Equations
with Relaxation Methods
E. Dick **291**

Index **351**
