I Morphology

Structure and ultrastructure of prolactinomas A. M. Landolt	3
Prolactinomas and mixed adenomas with prolactin cells: an immunohistochemical study of the subcellular localization of hormones G. Jautzke, J. Iglesias	15
Immunocytochemical, chemical and nuclear-DNA studies of pituitary tumours P. O. Lundberg, C. Muhr, L. Grimelius, Y. Olsson, R. Hugosson, J. Stahle, J. Wide, K. Bergström	27
Hyperplasia of prolactin pituitary cells with or without microadenoma M. Scanarini, S. Mingrino, I. Mastrogiacomo, E. Serafini, D. Cervesato	35
Hormone-secretion in cell culture of microprolactinomas, periadénomatous tissue and capsules U. Schrell, M. Buchfelder, R. Fahlbusch, K. Mashiter	39
Immunocytochemical ultrastructural and culture characteristics of prolactin-secreting pituitary adenomas K. Bálint, L. Gazsó, F. Slowik, E. Pásztor	45
Immunohistochemical hormone determinations in pituitary adenomas in comparison with endocrinological findings in vivo H. Schatz, M. Daun, H. Leicht, H. Stracke, W. Saeger, J. Zierski	57
Immunocytochemical observations in prolactinomas H. Höfler, G. F. Walter, H. Denk	69
Problematic divergencies between clinical and immunocytochemical findings in prolactinomas H. Höfler, G. F. Walter, G. Leb, L. M. Auer, G. Clarici, G. Tscherne, W. Urdl, H. Warnkross, G. Schneider	73
Necrosis of prolactinoma cells after bromocriptine treatment M. Gen, T. Uozumi, M. Ohta, K. Sakoda, S. Shinohara, K. Mukada, A. Ito, M. Naito, H. Kajiwara, S. Mori	79
Spontaneous pituitary lesions and plasma prolactin levels in rats J. H. J. van Nesselrooij, C. F. Kuper, M. C. Bosland, J. P. Bruyntjes, R. Kroes	85

II Radiology

CT-findings in pituitary adenomas G. H. Schneider	91
--	----

Comparative study of normal subjects and cases with microadenoma on high-resolution computed tomography Y. Nakagawa, J. Cervós-Navarro, K. Matsumoto, T. Fukami	105
--	-----

III Endocrinological and clinical aspects

Actions of dopamine receptor agonists at the pituitary level E. Flückiger	115
Dopamine and prolactinomas G. Faglia, A. Spada, P. Moriondo, G. Giannattasio, R. Elli, R. C. Scaperrotta, M. Nissim	123
Rhythmometric study of the circadian profile of plasma prolactin in patients with prolactinoma or empty sella syndrome E. Ferrari, F. Agrimonti, P. A. Bossolo, R. Frajria, M. M. Daguati, L. Magnani, G. Marelli, A. Cozzi, A. Angeli	131
Prolactin responses to thyrotropin-releasing hormone, metoclopramide and insulin-induced hypoglycaemia in hyperprolactinaemic and normoprolactinaemic patients H. M. Heshmati, G. Turpin, N. Graham, F. Brihmat-Allali, S. Jambart, A. Carayon, J. L. de Gennes	141
Evidence for functional impairment of growth hormone secretion in prolactinoma E. Jungmann, P. H. Althoff, G. J. Hermann, K. Schöffling	147
THS response to dopamine receptor blockade in women with PRL-secreting microadenoma: long lasting effect of surgical removal M. Montini, M. Salmoiraghi, M. D. Pagani, D. Parodi, D. Gianola, L. Ferrari, R. Benco, I. Nosari, P. Sala, V. Cassinari, G. Pagani	155
Prolactin and TSH responses to TRH and domperidone in delayed puberty V. Popović, D. Micić, R. Han, S. Radmanović, M. Nešović, S. Pavlica, P. Dordević, D. Manojlović, J. Mičić, D. Durić	161
Anterior pituitary function in patients with prolactinomas A. Luger	165
Pituitary adenomas with hyperprolactinaemia in males C. Muhr, A. L. Hulting, P. O. Lundberg, S. Werner	169
Prolactinoma in multiple endocrine neoplasia type I J. M. Gottswinter, G. Feurle, G. Holz, R. Ziegler	179
Recurrence of hyperprolactinaemia detected in long-term follow-up of surgically normalised microprolactinomas M. Buchfelder, A. Lierheimer, U. Schrell, K. v. Werder, R. Fahlbusch	183
Impairment of pituitary hormone secretion in patients with prolactinoma G. Leb, H. Warnkross, L. M. Auer, G. Clarici, H. Tscherne, W. Urdl, G. F. Walter, H. Höfler	189

IV Surgical treatment

The recurrence of pituitary adenoma – a management challenge L. Symon	199
