

Contents

Section I The Inflammatory Response

Progress in Plasma Proteins: Hallmarks of Health and Markers of Disease F.W. Putnam	1
Plasma Proteins Implicated in the Inflammatory Response L.M. Killingsworth	21
Acute Inflammatory Process P. Laurent, J. Bienvenu	33
The Inflammatory Response D.A. Willoughby, A. Sedgwick, J. Edwards	45
Relationships between Acute Non-Specific Inflammation and Non-Specific Defense Mechanisms of the Host M. Pelletier, I. Florentin, D. Nolibe, M. Roch-Arveiller, J.M. Jadin, J.P. Giroud	49
The Role of Thrombocytes in Inflammation J. Benveniste	57

Section II Acute Phase Reactants

Clinical Usefulness of C Reactive Protein Measurement P. Laurent	69
Control Proteins of the Alternative Complement Pathway: <u>In Vivo Correlates of In Vitro Function</u> S. Ruddy	89

VIII

Plasma Fibronectin, its Biochemical and Biological Properties and its Pathological Changes in Man

I. Millet, P. Laurent 99

Interaction between C-Reactive Protein (CRP) and Platelets

B.A. Fiedel, R.M. Simpson, H. Gewurz 111

Interactions between CRP and Mononuclear Cells

K.K. James, C. Mold, H. Gewurz 131

Clinical Usefulness of Orosomucoid Determination

J. Bienvenu 139

Alpha₁ Acid Glycoprotein - Structure, Genetics and Biological Significance

P. Arnaud, E. Gianazza 159

Alpha₁-Antitrypsin Structure and Genetics

P. Arnaud, C. Chapuis-Cellier, E. Gianazza 171

Affinity-Immunodeletion (AID) Isoelectric Focusing on Ultra-Thin Gels and Staining with Silver Diamine Applied to the Marker Proteins of Inflammation

R.C. Allen, P. Arnaud 185

A Survey of the Measurement, Distribution of Values and Phenotypes of the Haptoglobins

O. Hever 197

Recent Findings on the Biological Role of Haptoglobin in Rats

R. Engler 209

Biochemical Aspects of Complement Activation

M.G. Colomb, J.C. Bensa, A. Reboul 215

The Acquired Abnormalities of the Complement System in the Acute or Chronic Inflammatory Response	
F. Berthoux, B. Laurent, C. Genin, J.-C. Sabatier, R. Gonthier	231
Acute Phase Reactant Protein Profiles in Cancer: An Approach to Deciphering their Message	
E.H. Cooper, J. O'Quigley	239
Plasma Protein Profile: A Model of Data for Interpretation with Special Reference to Inflammatory Conditions	
J.C. Frot, P. Giraudet, H. Hofmann, F. Muller	253
Section III	
Malnutrition and the Immune Response	
Protein-Calorie Malnutrition-Clinical Biochemical and Immunological	
R.M. Suskind	277
Complement, Orosomucoid, Transferrin, Retinol Binding Protein and Prealbumin in Malnutrition	
F. Touraine, G. Gay, J.L. Touraine	341
Cellular and Humoral Immunity in Malnutrition	
R.K. Chandra, S. Sahni, S. Chandra	347
Immune Deficit in Kwashiorkor	
J.-L. Touraine, G. Gay	355
Inhibition of Cell-Mediated Immunity by Serum Abnormalities in Protein-Calorie Malnutrition	
G. Gay, J.-L. Touraine	369
Host Resistance in Malnutrition	
W.P. Faulk, V. Wallis, A.J.S. Davies	381

Usefulness of Prealbumin as Nutritional Indicator

Y. Ingenbleek

405

Section IV

Posters

A. Acute Phase Reactants in Neonates

A Comparative Study of the Sequential and Coupled Determination of CRP and Orosomucoid during Neonatal Infections

F. Bienvenu, C. Chantin, L. Sann

417

CRP and Neonatal Sepsis

R. Alt, D. Willard, J. Messer, P. Métais, C. Goester

421

Characterization of a C2 Derived Oligopeptide with Biologic Activity

M. Lopez-Trascasa, M. Moisy, E. Pirotzky, Y. Blouquit, C. Blanc, A. Sobel

423

Direct Quantitation of the Complement C3 Split Product C3d in Plasma in Immunopathological Disorders

I. Brandslund, B. Teisner, S.-E. Svehag

424

Variations of Orosomucoid Levels in New-Born Twins

B. Capolaghi, O. Baubin, C. Grasmick, C. Marchal, P. Roos

427

Complement Levels in Infants of Diabetic Mothers over the First Month of Life

A.-M. Freyria, A. El Mohandes, T. Raffin, J.-P. Lamelin, B. Salle, J.-L. Touraine

429

B. Protein Status in Clinical States

Protein-Status and Malnutrition, Preliminary Results of a Prospective Study of 177 Patients

J. Jouquan, M. Garre, J.F. Menez, P. Youinou, J.F. Morin, J.M. Boles, Y. Pennec, G. Le Menn

437

Research of Relationship between Protein and Folic
Acid Deficiencies

J.M. Boles, P. Youinou, M. Garre, D. Lhostis, J. Morin,
J. Jouquan, G. Le Menn, C.H.U. Morvan 438

The Measurements of Plasma Proteins in Patients with
nutritional Deficiency

G. Levy, G. Francois, M.-C. Liechtensteger, J.-P. Ardissonne,
J. Romette, J. di Costanzo, B. Mallet 439

Value of Plasma Prealbumin in the Early Recognition of
Protein-Energy Malnutrition in Sahelian Children

A. Froment, L. Monjour, F. Bourdillon, A. Fribourg-Blanc,
J.M. Kyelem, E. Gouba, M. Gentilini 440

Visceral and Muscular Proteins in Anorexia Nervosa: An
Example of Severe Malnutrition in Industrialized Coun-
tries. Effects of Renutrition

J.L. Richard, J. Bringer, L. Monnier, J. Mirouze 442

C. Protein-Calorie Malnutrition and the Immune Response

Effects of Protein-Calorie Malnutrition on the Cell-
Mediated Immune Response in Mice

G.-A. Conge, P. Gouache, P.-H. Langrange, D. Lemonnier 447

Effects of Early Under- and Over-Nutrition on the
Immune Response in Mice

S. Wade, D. Lemonnier, F. Bleiberg, J. Delorme,
P. Chappuis 450

D. Inflammatory Proteins in Patients with Cancer

Plasma Transferrin Level: A Preoperative Prognosis
Indicator in Esophageal Cancer Patients

J.-P. Alibeu, C. Arvieux, C. Alibeu, V. Danel, R. Sarrazin 455

Usefulness of a Protein Profile as an Indicator for a
Gastrostomy in Patients with Advanced Head and Neck Cancer

J.-F. Gillette, J. Susini, J. Oglobine, R.T. Saracino 457

XII

Acute Phase Reactant Proteins and Cancer

- L. Israel, R. Edelstein, R. Samak, F. Pontet,
F. Rousselet, P. Giraudet 460

Plasmapheresis in Cancer Patients and Acute Phase Reactant Proteins

- L. Israel, R. Samak, R. Edelstein, J. Baudelot,
F. Pontet, F. Rousselet, P. Giraudet 462

Prognostic Value of the Macrophage Component of an Inflammatory Reaction Induced by Skin Abrasion in Cancer Patients

- L. Israel, R. Samak, M. Samak, R. Edelstein 465

Nutritional Markers in Advanced Large Bowel Cancer

- J.C. Hall, J. O'Quigley, G.R. Giles 467

Effects of Acute Phase Reactant Proteins on PHA-Induced Lymphocyte Blastogenesis

- R. Samak, L. Israel, R. Edelstein 469

Effects of Acute Phase Reactant Proteins on Monocyte Chemotaxis in Vitro

- R. Samak, L. Israël, R. Edelstein, M. Samak 471

E. Protein Changes in Other Clinical States

Evaluation of Inflammation Proteins, Cardiac Enzymes and Myoglobin in Myocardial Infarcts

- C. Maurice, O. Vernet, J.C. Rymer, M. Roncato, M. Paris,
M. Leclerc 477

Human Serum Perchlorosoluble Glycoproteins in Myocardial Infarct

- M. Succari, M.-J. Foglietti, F. Percheron 480

Elevated C-Reactive Protein Levels in Sarcoidosis Patients

- J.-F. Mornex, J. Brune, J.-P. Revillard, C. Vincent 483

Determination of Plasma Fibronectin Concentration in Pulmonary and Circulatory Failure	
J. Labrousse, J.M. Coulaud, J.P. Salmons, A. Tenaillon, J. Lissac, P. Beyne, J. Rapin, A. Jacqueson, D. Allard, H. Jerome	486
Protein, Alpha ₁ Antitrypsin, Lysozyme in Bronchoalveolar Lavage Liquid in Case of Sarcoidosis	
J.-J. Buneaux, H. Gosselin, F. Buneaux, P. Leclerc	489
Macrophage Phagocytic Activity and Lysozyme Concentration in Bronchoalveolar Lavages	
S. Guibaud, A. Simplot, A. Plumet, J.C. Guerin	491
Determination of Human Serum Complement Using the Hemolytic Radial Immunodiffusion Micromethod during Ventilatory Tests of Allergic Provocation in Asthmatics	
F. de Massia-Castex, M. Bastide, J.-M. Bastide, Ch. Seignalet, F.-B. Michel	493
Inflammation Markers in Patients with Pulmonary Pathology	
N. Biot, A. Revol, R. Harf, Y. Pacheco, M. Perrin-Fayolle	496
Usefulness of C-R P /C4 - 1 Index of Detection and Prognosis of Septic States in the Burn Patients	
P. Laurent, J. Marichy	497
Assessment of Appropriate Laboratory Measurements to Measure Crohn's Disease Activity	
C. André, L. Descos, F. André, F. Paille, S. Perrin	503
Assessment of Appropriate Laboratory Measurement to Measure Ulcerative Colitis Activity	
L. Descos, C. André, F. André, F. Paille, S. Perrin	505
Diagnostic and Prognostic Value of the Plasma Variations of Prealbumin and Transferrin in the Post-Operative Period of Gastrointestinal Tract Surgery - Preliminary Results	
J.F. Zazzo, D. Vauzelle, A. Abella	507

XIV

Serum C-Reactive Protein Assay in Renal Transplantation J.-P. Revillard, M. Laville, C. Vincent, J. Traeger	509
Relation between the Quantity of Serum Lysozyme and the Amount of Succinate dehydrogenase (SDH) and Alpha-Glycerophosphate-Dehydrogenase (alpha-GDPH) on Activated Lymphocytes Membranes as a Possible Index of the Immune Response after Human Renal Transplantation K. Metodiev	511
Study of Some Markers of Inflammation (C Reactive Protein, Haptoglobin, Orosomucoid) in Chronic Inflammatory Articular Rheumatic Diseases F. Bertrand, X. Herbeuval, P. Paysant, G. Faure, A. Gaucher	513
Levels of Serum C9 Complement Factor in Various Chronic Inflammatory Articular Rheumatic Diseases P. Montagne, G. Faure, M.-Ch. Bene, A. Gaucher, J. Duheille	516
Modifications of "Inflammatory Proteins" (Transferrin, Orosomucoid, Coeruloplasmin, Alpha-1-Antitrypsin) in Human Gonadotropin Induced Ovulation S. Ferrand, F. Touraine, H. Dechaud, B. Claustrat, C. Quincy, J.M. Thoulon	518
Changes of Distribution of Glycosylated Forms of Human Orosomucoid and Alpha-2-HS Glycoprotein during Inflammation and Pregnancy: Study by Isoelectric Focusing and Crossed Immuno-Affinity Electrophoresis I. Nicollet, J.-P. Lebreton, M. Fontaine, M. Hiron	520
Variation of C Reactive Protein in Serum Following Severe Skull Trauma C. Goester, G. Férard, A. Bourguignat	524
Studies on some Blood Proteins in Medullary Patients B. Sallier, G. Pilonchery, J. Depassio, P. Minaire, A. Revol	528

The Prostaglandin Induced Acute Phase Response and
its Failure in Scleroderma

J.T. Whicher, M.F.R. Martin, P.A. Dieppe, L. Marshall 535

F. Acute Phase Reactants in Rodents

Serum Amyloid P Component in the Rat: Isolation,
Characterization and Original Features

M. Pontet, M. d'Asnières, R. Engler, J. Escaig 541

Transcortin (CBG) Activities, Endogenous Corticosterone
Levels and other Serum Parameters in the Course of the
Acute Inflammatory Reaction of the Rat

L. Savu, H. Zouaghi, Ch. Lombard, E.A. Nunez 544

Secretion of 3 Proteins during Experimental Inflammation
in Rats

F.N. Dinh, J. Davy, M. Appel, G. Durand, J. Féger,
J. Agneray 547

Identification of Intracellular Acute Phase Proteins in
the Liver of Mice by Crossed Immunoelectrophoresis

H.-B. Oh, T.C. Bøgg-Hansen 550

Studies on the Mechanism of the Prostaglandin Induced
Acute Phase Response; its Failure in Endotoxin Tolerant
Animals

J.T. Whicher, J. Unwin, A. Bell, P. Southall 552

G. Proteinase Inhibitors

Inhibition of Formation of the Human Amplification C3
Convertase by Fluid Phase Polycations

F. Maillet, M.D. Kazatchkine 557

Determination of the Degree of Desialylation for
Orosomucoid and Alpha₁ Antitrypsin. Application to
Rheumatoid Polyarthritic Sera

M. Bordas, N. Serbource-Goguel, D. Biou, J. Féger,
G. Durand 558

XVI

Proteinase Inhibitors Controlling Biologic Activity of Lymphoid Tissue Cells	
F. Baranova, A. Berman, L. Popova, Y. Zaretskaya	561
Binding of Alpha-1-Antitrypsin Specific Antibodies to Human Lymphocytes: A Flow Cell Microfluorometry Study	
J. Bata, G. Cordier, J.-P. Revillard	563
Suppression of Antibody-Dependent Lymphocyte Mediated Cytotoxicity by Human Alpha-2 Macroglobulin	
G. Cordier, J.-P. Revillard, M. Latour	565
H. Methodology	
Protein Evaluation of Populations in Intertropical Regions	
A. Fribourg-Blanc, P. Druilhe, L. Monjour, B. Carme, D. Richard-Lenoble, M. Gentilini, P. Carnevale, J.F. Trape, J.F. Molez, E. Bois	569
Immunophelometric Quantitation of C.R.P. - Importance of Samples Storage	
H. Bernon, J. Bienvenu, M. Perouse de Montclos, A. Rouillet, P. Laurent	573
Pre Albumin Titration Using a Rate Nephelometer. Critical Study. Applications in Nutrition and Oncology	
J. Oglobine, M. Meslin, C. Bouchet, R.T. Saracino, J.-F. Gillette, J. Susini	575
Plasma Fibronectin: Its Dosage in Clinical Biology	
M.-L. North, Y. Dudt, M. Schwartz, J.-P. Cazenave, S. Rabinovitch, B. Audhui, P. Ciret	579
Quantitative Immuno-electrophoretic Methods	
R. Guinet, S. Gabriel	582
Protein Profile in Surgical Intensive Care	
M.C. Diemert, J. Galli, A. Galli, F. Baud, F. Rouillon, P. Glaser	586

Section I

The Inflammatory Response
