

Preface	1	
Topographic Anatomy		
Chapter 1: Thoracic limb (A. Wünsche, R. Habel and K.-D. Budras)		
1. Skeleton of the thoracic limb	2	126
2. Muscles and nerves of the shoulder, arm, and forearm	4	
3. Cutaneous nerves, blood vessels, and lymph nodes of the thoracic limb	6	
4. Vessels and nerves of the manus	8	
5. Interdigital nerves and vessels, interossei, and fasciae of the manus	10	
6. Synovial structures of the thoracic limb	12	126
Chapter 2: Pelvic limb (A. Wünsche, R. Habel and K.-D. Budras)		
1. Skeleton of the pelvic limb	14	128
2. Lateral thigh and cranial crural muscles with their nerves	16	129
3. Medial thigh and caudal crural muscles with their nerves	18	129
4. Cutaneous nerves, blood vessels, and lymph nodes of the pelvic limb	20	
5. Arteries, veins, and nerves of the pes	22	130
6. Dermis of the hoof (Ch. Mülling and K.-D. Budras)	24	131
7. The hoof (ungula) (Ch. Mülling and K.-D. Budras)	26	131
8. Synovial structures of the pelvic limb (Ch. Mülling and K.-D. Budras)	28	134
Chapter 3: Head (R. Habel, and K.-D. Budras)		
1. Skull and hyoid apparatus (R. Habel and K.-D. Budras)	30	
2. Skull with teeth (R. Habel and K.-D. Budras)	32	136
3. Skull with paranasal sinuses and horns (R. Habel and K.-D. Budras)	34	136
4. Superficial veins of the head, facial n. (VII), and facial muscles (S. Buda and K.-D. Budras)	36	136
5. Trigeminal n. (V3 and V2), masticatory mm., salivary gll., and lymphatic system (S. Buda and K.-D. Budras)	38	136
6. Accessory organs of the eye (P. Simoens and K.-D. Budras)	40	137
7. The eyeball (bulbus oculi) (P. Simoens and K.-D. Budras)	42	
8. Nose and nasal cavities, oral cavity and tongue (S. Buda, R. Habel, and K.-D. Budras)	44	137
9. Pharynx and larynx (S. Buda, R. Habel and K.-D. Budras)	46	138
10. Arteries of the head and head-neck junction, the cran. nn. of the vagus group (IX–XI), and the hypoglossal n. (XII) (S. Buda and K.-D. Budras)	48	138
Chapter 4: Central nervous system and cranial nerves		
1. The brain (R. Habel and K.-D. Budras)	50	
2. Cranial nerves I–V (S. Buda, H. Bragulla and K.-D. Budras)	52	139
3. Cranial nerves VI–XII (S. Buda, H. Bragulla, and K.-D. Budras)	54	
4. Spinal cord and autonomic nervous system (S. Buda and K.-D. Budras)	56	
Chapter 5: Vertebral column, thoracic skeleton, and neck (A. Wünsche, R. Habel and K.-D. Budras)		
1. Vertebral column, ligamentum nuchae, ribs, and sternum	58	140
2. Neck and cutaneous muscles	60	140
3. Deep shoulder girdle muscles, viscera and conducting structures of the neck	60	140
Chapter 6: Thoracic cavity		
1. Respiratory muscles and thoracic cavity with lungs (Ch. Mülling and K.-D. Budras)	62	141
2. Heart, blood vessels, and nerves of the thoracic cavity (R. Habel and K.-D. Budras)	64	142
Chapter 7: Abdominal wall and abdominal cavity		
1. The abdominal wall (R. Habel, A. Wünsche and K.-D. Budras)	66	143
2. Topography and projection of the abdominal organs on the body wall	68	145
3. Stomach with rumen, reticulum, omasum, and abomasum (A. Wünsche and K.-D. Budras)	70	146
4. Blood supply and innervation of the stomach; lymph nodes and omenta (R. Habel, A. Wünsche and K.-D. Budras)	72	147
5. Spleen, liver, pancreas, and lymph nodes (P. Simoens, R. Habel and K.-D. Budras)	74	148
6. Intestines with blood vessels and lymph nodes (P. Simoens, R. Habel and K.-D. Budras)	76	148
Chapter 8: Pelvic cavity and inguinal region, including urinary and genital organs		
1. Pelvic girdle with the sacrospinous lig. and superficial structures in the pubic and inguinal regions (R. Habel and K.-D. Budras)	78	149
2. Inguinal region with inguinal canal, inguinal lig., and prepubic tendon (R. Habel and K.-D. Budras)	80	150
3. Lymphatic system, adrenal glands, and urinary organs (K.-D. Budras and A. Wünsche)	82	150
4. Arteries, veins, and nerves of the pelvic cavity (A. Wünsche and K.-D. Budras)	84	
5. Female genital organs (H. G. Liebich and K.-D. Budras)	86	150
6. The udder (H. Bragulla, H. König, and K.-D. Budras)	88	154
7. The udder with blood vessels, lymphatic system, nerves, and development (H. Bragulla, H. König, and K.-D. Budras) ..	90	155
8. Male genital organs and scrotum (R. Habel and K.-D. Budras)	92	156
9. Perineum, pelvic diaphragm, ischioanal fossa, and tail (R. Habel and K.-D. Budras)	94	
Anatomical aspects of bovine spongiform encephalopathy (BSE)		
(S. Buda, K.-D. Budras, T. Eggers, R. Fries, R. Habel, G. Hildebrandt, K. Rauscher, and P. Simoens)		96
Special Anatomy, Tabular Part		
1. Myology	98	
2. Lymphatic system	113	
3. Peripheral nervous system	119	
Contributions to Clinical-Functional Anatomy.		
		126
Applied anatomy of the carcass (K.-D. Budras, R. Fries, and R. Berg)
