1 The Shoe 1

1.1 Parts of the Shoe 1

1.1.1 Shoe Bottom 2

1.1.1.1 Insole 2

1.1.1.2 Outsole 3

1.1.1.3 Bottom Filler 3

1.1.1.4 Waist 3

1.1.1.5 Heel 4

1.1.2 Upper 4

1.1.2.1 Vamp 4

1.1.2.2 Quarters 4

1.2 Shoe Types 5

1.3 Properly Fitting Footwear 6

1.3.1 Functional Footwear for Children 8

2 The Mechanics of the Ankle Joint 9

2.1 Lever Actions in the Foot 9

2.1.1 Biomechanics during the Toe-off Phase 10

2.2 Force and Resistance Arms in the Foot 12

3 Orthopedic Elements: Actions and Indications 15

3.1 Insole 15

3.1.1 Metatarsal Pad (Splayfoot Pad) 15

3.1.2 Pressure-Relieving Material 16

3.1.3 Moulded Insole 16

3.1.4 Toe Grip Bar 17

3.2	Compensatory Support (Cork Inlay) and Stepped Insole	18
3.2.1	Compensatory Support (Cork Inlay)	18
3.2.2	Stepped Insole	18
3.3	Outsole and Orthopedic Bars	20
3.3.1	Outsole Thickness	20
3.3.2	Medial or Lateral Wedging	20
3.3.3	Orthopedic Bars	21
3.3.3.1	Rocker Bar	22
3.3.3.2	Metatarsal Bar	23
3.3.3.3	Horseshoe Bar	23
3.3.3.4	L-shaped Bar	24
3.3.3.5	Triangular Bar	24
3.3.3.6	Toe Bar	24
3.3.3.7	Mini-Bar	25
3.3.4	Cradle Shoe	25
3.4	Special Modifications to the Shoe Bottom	26
3.4.1	Sole Stiffening	26
3.4.2	Flaring the Sole	27
3.4.3	Bottom Filler	27
3.5	Heel	28
3.5.1	Raised Heel	28
3.5.2	Low (Flat) Heel	30
3.5.3	Behind-heel Float	30
3.5.4	Extended Heel and Wedge Heel	30
3.5.5	Heel with Central Waist Support	31
3.5.6	Thomas Heel	32
3.5.7	Laterally or Medially Displaced Heel	32
3.5.8	Ball Heel	32
3.5.9	Buffer Heel and Round-Edge Heel	33
3.6	Shoe Waist	34
3.7	Upper with Stiffeners and Reinforced Tongue	35
3.7.1	Internal Fastening	35
3.7.2	Eisenmann Strap	35
3.7.3	Upper Reinforcement	36
3.7.4	Upper Stiffening	36
3.7.4.1	Extended Lateral or Medial Heel Counter	37
3.7.4.2	Ankle Support Counter	37
3.7.4.3	High Stiffener to Counteract Peroneal Nerve Paralysis	37

3.7.4.4	High Ankle Stiffener (Berlin Stiffener)	38
3.7.4.5	Stiffened Tongue	38
3.7.4.6	Round-Ankle Stiffener	39
3.7.5	Supination Wedge	40
3.8	Internal Shoe	40
3.8.1	Internal Shoe for Leg Inequality (Limb-Lengthening Orthosis)	41
3.8.2	Internal Shoe for Forefoot Loss	42
3.8.3	Internal Shoe for Paralysis	42
3.8.3.1	Flaccid Paralysis	42
3.8.3.2	Spastic Paralysis	43
3.8.4	Internal Shoe for Major Foot Deformity	43
4	The Perpendicular Construction of the Orthopedic Shoe	45
5	Indications for Orthopedic Footwear and Prescription Examples	51
5.1	Foot and Toe Deformities	53
5.1.1	Pes Cavus	53
5.1.2	Pes Equinoexcavatus	54
5.1.3	Talipes Calcaneus	55
5.1.3.1	Contracted Talipes Calcaneus	55
5.1.3.2	Pes Calcaneoexcavatus due to Paralysis	56
5.1.4	Clubfoot	57
5.1.5	Pes Adductus (Sickle Foot)	60
5.1.6	Pes Planovalgus (Pes Planotransversus)	61
5.1.6.1	Passively Correctable Planotransversus Foot	61
5.1.6.2	Contracted Planovalgus Foot	63
5.1.7	Splayfoot	65
5.1.7.1	Passively Correctable Splayfoot	65
5.1.7.2	Contracted Splayfoot	66
5.1.8	The Deformed Foot in Chronic Rheumatoid Arthritis	67
5.1.9	Claw Toes and Hammer Toes	68
5.1.10	Hallux Rigidus	69
5.1.11	Hallux Valgus	69
5.2	Arthrodesis and Equinus	70
5.2.1	Arthrodesis of Ankle Joint	70
5.2.2	Arthrodesis of Tarsal Joints	71
5.2.3	Arthrodesis of Metatarsophalangeal and Interphalangeal Joints	71
5.2.4	Arthrodesis of Knee Joint	71

5.2.5	Equinus	72
5.2.5.1	General Principles of Management	72
5.2.5.2	Mild Equinus without Leg Inequality and with Arthrodesis of Ankle Joint	74
5.2.5.3	Moderate Equinus without Leg Inequality and with (Total) Arthrodesis of Ankle Joint	74
5.2.5.4	Severe Equinus without Leg Inequality and with Arthrodesis of Ankle Joint	75
5.2.5.5	Extremely Severe Equinus Foot	75
5.2.5.6	Spastic Equinus Foot	76
5.3	Immobilisation of Painful Joints	77
5.3.1	Immobilisation of Ankle Joint	77
5.3.2	Immobilisation of Tarsal Joints	78
5.3.3	Immobilisation of Metatarsophalangeal Joints	79
5.4	Leg Inequality and Leg Deformities	79
5.4.1	Compensation for the Short Leg	79
5.4.1.1	Leg Inequality up to 3 to 4 cm (1.2 to 1.6 inches)	82
5.4.1.2	Leg Inequality up to 8 cm (3.2 inches)	83
5.4.1.3	Leg Inequality up to 12 cm (4.8 inches)	85
5.4.1.4	Leg Inequality in excess of 12 cm (4.8 inches)	86
5.4.2	Genu Valgum	88
5.4.3	Genu Varum	88
5.4.4	Genu Recurvatum	89
5.4.5	Elephantiasis	89
5.5	Flaccid Paralysis	90
5.5.1	Peroneal Nerve Paralysis	90
5.5.2	Tibial and Peroneal Nerve Paralysis	96
5.5.3	Femoral Nerve Paralysis	96
5.5.4	Tibial Nerve Paralysis	96
5.6	Care of the Foot Amputation Stump	96
5.6.1	Management of Individual Types of Foot Stump	98
5.6.2	Footwear for Amputation Stumps	101
5.6.2.1	Orthopedic Shoe for Loss of All Toes	101
5.6.2.2	Simple Shoe for Partial Foot Amputees	102
5.6.2.3	Classical Foot Amputation Shoe	102
5.6.2.4	Schlüter Internal Shoe Prosthesis	102
5.6.2.5	Welsch Internal Shoe Prosthesis	103
5.6.2.6	Teufel Forefoot Prosthesis	104

5.7	Shoes for Special Purposes	104
5.7.1	Shoe Provision for the Lower-Limb Amputee	104
5.7.2	Appliance Shoe	105
5.7.3	Bath Shoe	105
6	Approval of the Orthopedic Shoe by the Physician	107
7	Correction Principles – A Review	109
	Glossary	115
	Bibliography	119
