| Preface | |
| CHAPTER 1. INTRODUCTION | 1 |
| CHAPTER 2. THE PROPAGATION PROBLEMS AND THEIR SOLUTIONS | 13 |
| 1. Summary | 13 |
| 2. The Acoustic Propagator | 17 |
| 3. Solutions with Finite Energy | 18 |
| CHAPTER 3. SPECTRAL ANALYSIS OF SOUND PROPAGATION IN STRATIFIED FLUIDS | 21 |
| 1. Summary | 21 |
| 2. The Reduced Propagator A_μ | 32 |
| 3. Solutions of the Equation $A_\mu \phi = \zeta \phi$ | 33 |
| 4. Spectral Properties of A_μ | 51 |
| 5. Generalized Eigenfunctions of A_μ | 65 |
| 6. The Spectral Family of A_μ | 71 |
| 7. The Dispersion Relations | 85 |
| 8. The Spectral Family of A | 90 |
| 9. Normal Mode Expansions for A | 104 |
| 10. Semi-Infinite and Finite Layers | 117 |
| CHAPTER 4. TRANSIENT SOUND FIELD STRUCTURE IN STRATIFIED FLUIDS | 125 |
| 1. Summary | 125 |
| 2. Normal Mode Expansions of Transient Sound Fields | 133 |
| 3. Transient Free Waves | 134 |
| 4. Transient Guided Waves | 150 |
| 5. Asymptotic Energy Distributions | 154 |
| 6. Semi-Infinite and Finite Layers | 156 |
| CHAPTER 5. SCATTERING OF SIGNALS BY INHOMOGENEOUS LAYERS | 161 |
| 1. Summary | 161 |
| 2. Signals in Homogeneous Fluids | 167 |
| 3. The Reflected and Transmitted Signals | 170 |
| 4. Construction of the Scattering Operator | 178 |
| 5. The Scattering Operator and Signal Structure | 184 |
| APPENDIX 1. THE WEYL-KODAIRA-TITCHMARSH THEORY | 189 |
| APPENDIX 2. STATIONARY PHASE ESTIMATES OF OSCILLATORY INTEGRALS WITH PARAMETERS | 193 |
| REFERENCES | 197 |
| INDEX | 198 |
