

# LANDOLT-BÖRNSTEIN

Zahlenwerte und Funktionen  
aus Naturwissenschaften und Technik

*Neue Serie*

Gesamtherausgabe: K.-H. Hellwege · O. Madelung

Gruppe III: Kristall- und Festkörperphysik

**Band 17**

**Halbleiter**

Herausgeber: O. Madelung · M. Schulz · H. Weiss †

Teilband h

Physik der ternären Verbindungen

M. Böhm · G. Huber · A. MacKinnon  
O. Madelung · A. Scharmann · E.-G. Scharmer

Herausgegeben von O. Madelung

Springer-Verlag Berlin · Heidelberg · New York · Tokyo

## Semiconductors

### Subvolume h: Physics of ternary compounds

(edited by O. MADELUNG)

#### A Introduction (O. MADELUNG)

|                                   |   |
|-----------------------------------|---|
| 1 List of symbols . . . . .       | 1 |
| 2 List of abbreviations . . . . . | 5 |
| 3 Conversion tables . . . . .     | 7 |

#### B Physical data of semiconductors VI

Data      Figures

##### 10 Ternary compounds

|                                                                                          |    |                  |
|------------------------------------------------------------------------------------------|----|------------------|
| 10.1 Tetrahedrally bonded ternary and quasi-binary compounds<br>(A. MACKINNON) . . . . . | 9  | —                |
| 10.1.0 Introduction, general remarks on structure and properties . . . .                 | 9  | 329f., 341       |
| References for 10.1.0 . . . . .                                                          | 11 | —                |
| 10.1.1 III <sub>2</sub> -VI <sub>3</sub> compounds . . . . .                             | 12 | —                |
| 10.1.1.0 Structure . . . . .                                                             | 12 | 330ff.           |
| 10.1.1.1 Gallium sulfide (□-Ga <sub>2</sub> S <sub>3</sub> ) . . . . .                   | 16 | 332f.            |
| 10.1.1.2 Gallium selenide (□-Ga <sub>2</sub> Se <sub>3</sub> ) . . . . .                 | 17 | 333f., 338       |
| 10.1.1.3 Gallium telluride (□-Ga <sub>2</sub> Te <sub>3</sub> ) . . . . .                | 17 | 333              |
| 10.1.1.4 Indium sulfide (□-In <sub>2</sub> S <sub>3</sub> ) . . . . .                    | 18 | 333, 335         |
| 10.1.1.5 Indium selenide (□-In <sub>2</sub> Se <sub>3</sub> ) . . . . .                  | 19 | 336ff.           |
| 10.1.1.6 Indium telluride (□-In <sub>2</sub> Te <sub>3</sub> ) . . . . .                 | 20 | 336f.            |
| 10.1.1.7 Solid solutions . . . . .                                                       | 22 | 337f.            |
| 10.1.1.8 References for 10.1.1 . . . . .                                                 | 23 | —                |
| 10.1.2 I-III-VI <sub>2</sub> compounds . . . . .                                         | 26 | —                |
| 10.1.2.0 Structure and energy gaps . . . . .                                             | 26 | 339f.            |
| 10.1.2.1 Copper aluminum sulfide (CuAlS <sub>2</sub> ) . . . . .                         | 29 | 341 ff., 349     |
| 10.1.2.2 Copper aluminum selenide (CuAlSe <sub>2</sub> ) . . . . .                       | 31 | 342, 349         |
| 10.1.2.3 Copper gallium sulfide (CuGaS <sub>2</sub> ) . . . . .                          | 32 | 342f., 349 ff.   |
| 10.1.2.4 Copper gallium selenide (CuGaSe <sub>2</sub> ) . . . . .                        | 37 | 343f., 349 ff.   |
| 10.1.2.5 Copper gallium telluride (CuGaTe <sub>2</sub> ) . . . . .                       | 40 | —                |
| 10.1.2.6 Roquesite (CuInS <sub>2</sub> ) . . . . .                                       | 41 | 344f., 350f.     |
| 10.1.2.7 Copper indium selenide (CuInSe <sub>2</sub> ) . . . . .                         | 44 | 345 ff., 350 ff. |
| 10.1.2.8 Copper indium telluride (CuInTe <sub>2</sub> ) . . . . .                        | 47 | —                |
| 10.1.2.9 Silver gallium sulfide (AgGaS <sub>2</sub> ) . . . . .                          | 49 | 347, 352         |
| 10.1.2.10 Silver gallium selenide (AgGaSe <sub>2</sub> ) . . . . .                       | 53 | 348, 352         |
| 10.1.2.11 Silver gallium telluride (AgGaTe <sub>2</sub> ) . . . . .                      | 56 | —                |
| 10.1.2.12 Silver indium sulfide (AgInS <sub>2</sub> ) . . . . .                          | 57 | —                |
| 10.1.2.13 Silver indium selenide (AgInSe <sub>2</sub> ) . . . . .                        | 58 | 348              |
| 10.1.2.14 Silver indium telluride (AgInTe <sub>2</sub> ) . . . . .                       | 61 | —                |
