

Table of Contents

Liquid Chromatography Equipment

H. Colin, G. Guiochon, M. Martin	1
--	---

Quantitative Analysis in HPLC

J. Asshauer, H. Ullner	65
----------------------------------	----

Preparative Application of HPLC

A. Wehrli	109
---------------------	-----

Column Switching

H. Hulpke, U. Werthmann	143
-----------------------------------	-----

Sample Pretreatment and Cleanup

M. Uihlein	159
----------------------	-----

Liquid-liquid Chromatography

J.C. Kraak, J.P. Crombeen	179
-------------------------------------	-----

Ion Pair Liquid Chromatography

B.A. Persson, B.L. Karger	201
-------------------------------------	-----

Application of HPLC in Inorganic Chemistry

H.J. Möckel	215
-----------------------	-----

HPLC in Forensic Chemistry

T. Daldrup, P. Michalke, S. Szathmary	241
---	-----

Application of HPLC to the Separation of Lipids

K. Aitzetmüller	287
---------------------------	-----

Application of HPLC to the Separation of Metabolites of Nucleic Acids in Physiological Fluids

A.P. Halfpenny, P.R. Brown	323
--------------------------------------	-----

**Application of HPLC to the Analysis of Natural and Synthetic
Pharmaceutically Important Drugs**

G. Tittel, H. Wagner 343

**Application of HPLC for Analysis of Psychotropic Drugs in
Body Fluids**

H.-J. Kuss 393

HPLC of Amino Acids and Proteins

H. Engelhardt 409

HPLC in the Separation of Coal and Oil Products

Th. Crispin, I. Halász 427

Subject Index 455

Solute Index 460
