D.V. EVANS: The Hydrodynamic Efficiency of Wave-Energy Devices.....	1
S.H. SALTER: Progress on Edinburgh Ducks.....	35
E. MEHLUM: TAPCHAN.....	51
O. MALMO and A. REITAN: Development of the Kvaerner Multiresonant OWC.....	57
N.W. BELLAMY: The Circular Sea Clam Wave Energy Converter.....	69
H. MAEDA, T. KINOSHITA, K. KUDO and K. MASUDA: Optimization of Wave Energy Absorber of an Attenuator OWC Device with an Air Turbine.....	81
K. NIELSEN: On the Experimental Investigation of a Wave Power Converter.....	93
T.J.T. WHITTAKER and F.A. McPEAKE: Design Optimization of Axi-symmetric Tail Tube Buoys.....	103
D.C. HICKS and C.M. PLEASS: Physical and Mathematical Modelling of a Point Absorber Wave Energy Conversion System with Nonlinear Damping.....	113
LI GUIXIANG and GUO JIALIANG: Progress in China's Developmental Research on Wave Energy.....	125
D. MOLLISON: Wave climate and the wave power resource.....	133

H.N. OLIVEIRA PIRES and L.E. VASCONCELOS PESSANHA: Wave Power Climate of Portugal.....	157
G.M. HAGERMAN, Jr.: Oceanographic Design Criteria and Site Selection for Ocean Wave Energy Conversion.....	169
L. BERTOTTI and L. CAVALERI: Accuracy of the Estimate of Extreme Wave Conditions.....	179
J.L. FORSBERG: On-line Identification and Prediction of Waves.....	185
MEIXIN ZHU: Extreme Wave Heights along the Norwegian Coast.....	195
K. BUDAL and P.M. LILLEBEKKEN: Wave Forces on a Horizontal, Submerged, Spinning Cylinder.....	205
V. FERDINANDE and M. VANTORRE: The Concept of a Bipartite Point Absorber.....	217
H. ISSHIKI, M. MURAKAMI and Y. TERAQ: Thrust Generation by a Hydrofoil Driven by Waves - A Basic Aspect of Wave Devouring Propulsion.....	227
R. INOUE, M. IWAI, M. YAHAGI and T. YAMAZAKI: Wave Energy Absorption Characteristics of Circular Air-Chamber for Use of Light Beacon Fixed on Sunken Rock.....	237
M.J. FRENCH and R. BRACEWELL: Heaving Point Absorbers Reacting against an Internal Mass.....	247

R.E. HOSKIN, B.M. COUNT, N.K. NICHOLS and D.A.C. NICOL: Phase Control for the Oscillating Water Column.....	257
S. NAITO and S. NAKAMURA: Wave Energy Absorption in Irregular Waves by Feedforward Control System.....	269
R. JEFFERYS and T. WHITTAKER: Latching Control of an Oscillating Water Column Device with Air Compressibility.....	281
H. HOTTA, T. MIYAZAKI and Y. WASHIO: Increase in Absorbed Wave Energy by the Phase Control for Air Flow on OWC Wave Power Device.....	293
G. OLTEDAL: Simulation of a Pneumatic Wave-Power Buoy with Phase Control.....	303
M. MASUBUCHI and R. KAWATANI: Dynamic Response and Input Adaptive Maximum Energy Converting Control of an Ocean Wave Energy Converter.....	315
R.W. YEUNG: A Comparative Evaluation of Numerical Methods in Free-Surface Hydrodynamics.....	325
M. GREENHOW: Survival of Surface-Piercing Wave Energy Devices in Extreme Waves.....	357
R.M. SCHER: Progress on Flap-type Wave Absorbing Devices.....	375
A.J.N.A. SARMENTO and A.F. de O. FALCÃO: Three- Dimensional Analysis of Oscillating-Water-Column Terminator Devices in Obliquely Incident Waves.....	385

J.Q. CHEN and G.K. CHEN: Hydrodynamic Analysis and Design Method of OWC Wave Energy Convertors.....	397
J. FALNES and P. McIVER: Wave Interaction with Oscillating Bodies and Water Columns.....	407
M.J. SIMON and A. HULME: The Radiation and Scattering of Long Water Waves.....	419
R.C. ERTEKIN and G.M. MONOPOLIS: Investigation of Wave Focusing over a Parabolic Step.....	433
Y. MASUDA: An Experience of Wave Power Generator through Tests and Improvement.....	445
