Part A THE EAR

1 The Normal Ear	3
Examination in the Histopathology Laboratory	3
Normal Histology	11
2 Non-neoplastic Lesions of the External Ear	25
Malformations	25
Inflammatory Lesions	27
Metabolic Conditions	33
Lesions Simulating Neoplasms	34
3 Otitis Media	41
Microbiology	41
General Pathological Changes	41
Acute Otitis Media	42
Chronic Otitis Media	43
Cholesterol Granuloma	45
Tympanosclerosis	46
Cholesteatoma	47
Secretory Otitis Media	51
Complications	51
Tuberculous Otitis Media	53

4	Neoplasms of the External Ear	55
	Epithelial Neoplasms	55
	Melanotic Neoplasms	61
	Neoplasms of Bone and Cartilage	62
	Neural Neoplasms	64
	Neoplasms of Muscle	64
	Histiocytosis X	64
5	Neoplasms and Similar Lesions of the Middle Ear	67
	Developmental Tumour-like Anomalies	67
	Neoplasms	68
	Metastatic Neoplasms	75
6	Malformations and Congenital Lesions of the Inner Ear	77
	Pathogenesis in Relation to Development	77
	Problems in Classification	77
	Structural Forms of Malformation	78
	Aetiology of Malformations	80
	Haemorrhage in the Inner Ear in Very Low Birth Weight Infants	85
7	Trauma; Ototoxicity	89
	Trauma	89
	Ototoxic Damage to the Inner Ear	90
8	Infections of the Inner Ear	95
	Viral Infections	95
	Bacterial Infections	97
	Mycotic Infections	100
	Syphilis	101
9	Ménière's Disease; Pathology of the Vestibular System; Presbycusis	103
	Ménière's Disease	103
	Pathology of the Vestibular System	106
	Presbycusis	108
10	Bony Abnormalities	113
	Paget's Disease	113
	Osteogenesis Imperfecta	115
	Osteopetrosis	116
	Achondroplasia	116
	Otosclerosis	117

11 Neoplasms of the Inner Ear	121
Primary	121
Directly Invading	124
Metastatic	125

Part B THE NOSE AND PARANASAL SINUSES

12 The Normal Nose and Paranasal Sinuses	131
Anatomy	131
Histology	133
Examination at Autopsy	135
Examination of Surgical Specimens	136
13 Infections	137
Acute Inflammation	138
Bacterial Infections	139
Mycotic Infections	145
Myospherulosis	149
Protozoal Infections	150
14 Non-infective Inflammatory Conditions	153
Nasal and Paranasal Polyposis	153
Nasal and Polyposis with Stromal Atypia	155
Inspissated Mucus	156
Nasal Polyposis and the Immotile-Cilia Syndrome	156
Granuloma Following Local Steroid Injections	157
Cholesterol Granuloma	157
Rhinitis Caseosa	158
Granuloma Pyogenicum	159
Organizing Haematoma	159
Giant Cell Granulomatous Lesions	159
Wegener's Granulomatosis	160
Midline Granuloma	162
Eosinophilic Angiocentric Fibrosis	163
15 Papilloma	165
Papillomas of Nasal Vestibule and Nostril	165
Papillomas of Nasal Cavity and Paranasal Sinuses	165
16 Malignant Neoplasms of Surface Epithelium	171
Squamous Cell Carcinoma of Nasal Vestibule	171
Squamous Carcinoma of Mucosae	171
Cylindric Cell Carcinoma	174

17 Non-epidermoid Epithelial Neoplasms	177
Adenocarcinoma	177
Pleomorphic Adenoma	180
Carcinoma ex Pleomorphic Adenoma and Malignant Mixed Tumour	181
Oncocytoma	181
Acinic Cell Carcinoma	181
Clear Cell Carcinoma	182
Adenoid Cystic Carcinoma	182
Mucoepidermoid Carcinoma	185
Necrotizing Sialometaplasia	186
18 Neuroectodermal Tumours	189
Encephalocele and Glioma	189
Meningioma	190
Neurogenic Tumours	191
Malignant Melanoma	192
Olfactory Neuroblastoma	194
Melanotic Neuroectodermal Tumour of Infancy (Melanotic Progonoma)	199
19 Vascular Neoplasms; Myogenic Neoplasms	203
Hereditary Haemorrhagic Telangiectasia (Osler-Weber-Rendu Disease)	203
Capillary Haemangioma of Nasal Septum	203
Cavernous Haemangioma	205
Angiomatosis	205
Haemangiosarcoma	206
Systemic Angioendotheliomatosis	206
Haemangiopericytoma	206
Myogenic Neoplasms	207
Neoplasms of Striated Muscle	209
20 Neoplasms of Fibrous Tissue	211
Fibroma	211
Fibromatosis	211
Fibrosarcoma	212
Fibrohistiocytic Tumours	213
Myxoma	215
21 Neoplasms of Cartilage and Bone	219
Chondroma	219
Chondrosarcoma	220
Osteoma	221
Fibrous Dysplasia, Ossifying Fibroma, Cementifying Fibroma: Benign Fibro-osseous Lesion	222

Osteosarcoma	224
Ewing's Sarcoma	226
22 Miscellaneous Conditions: Lymphoma and Plasmacytoma; Histiocytosis X; Extranodal Sinus Histiocytosis; Teratomas and Cysts; Tumours Arising Outside of the Sinonasal Tract	227
Lymphoma and Plasmacytoma	227
Histiocytosis X	230
Extranodal Sinus Histiocytosis	231
Dermoid Cyst	231
Nasolabial Cyst	231
Teratoma	233
Mucocele	234
Tumours Arising Outside of the Sinonasal Tract	234

Part C THE NASOPHARYNX

23 Normal Anatomy and Histology; Adenoids; Infections; Developmental Lesions ...	239
Anatomy	239
Examination at Autopsy	239
Histology	239
Adenoids	240
Infections	241
Nodules and Cysts of Embryological Origin	241
Congenital Choanal Atresia	243
24 Epithelial Neoplasms	245
Epidermoid Neoplasms	245
Non-epidermoid Neoplasms	250
Pituitary Adenoma	250
25 Non-epithelial Neoplasms	253
Angiofibroma (Juvenile Nasopharyngeal Angiofibroma)	253
Rhabdomyosarcoma	257
Chordoma	259
Lymphoma	261

Part D THE PALATINE TONSIL

26 Normal Anatomy, Histology; Inflammatory Diseases	265
Normal Anatomy	265

Normal Histology	267
Inflammatory Diseases	267
Infectious Mononucleosis	270
Diphtheria	270
Granulomas	271
Tangier Disease	272
27 Neoplasms	273
Neoplasms of Squamous Cell Epithelium	273
Malignant Melanoma	274
Salivary Gland Neoplasms	275
Malignant Lymphoma	275
 Part E THE LARYNX AND HYPOPHARYNX	
28 Normal Anatomy and Histology	289
Gross Anatomy	289
Gross Examination in the Histopathology Laboratory	292
Normal Histology	295
29 Congenital Anomalies, Laryngocele and Other Development Anomalies	307
Congenital Anomalies	307
Laryngocele, Cysts, Heterotopia	308
30 Infections	315
Acute Inflammation	317
Chronic Bacterial Infections and Related Conditions	323
Mycotic Infections	328
Parasitic Diseases	331
31 Non-infective Inflammatory Conditions	335
The Vocal Cord Polyp and Other Exudative Processes of Reinke's Space	335
Arthritis of Laryngeal Joints	339
Hyaline Deposits: Amyloid and Lipoid Proteinosis	242
Relapsing Polychondritis	347
Wegener's Granulomatosis	347
Strangulation	347
Pathological Changes After Intratracheal Intubation	347
Reaction to Teflon Injection	352
Perichondritis	353

32 Neuromuscular Diseases	355
Clinical Features	355
Pathological Changes That Might Cause Damage to the Neuromuscular Pathway of Vocal Cord Movement	356
Pathological Changes Actually Observed in Studies of the Neuromuscular Pathway of Vocal Cord Movement	357
33 Squamous Cell Papilloma	361
Sites	361
Gross Appearances	362
Microscopic Appearances	362
Natural History	368
Viral Aetiology	369
34 Squamous Cell Carcinoma: Epidemiology, Early Lesions, Biopsy Diagnosis	371
Incidence	371
Epidemiological Factors	371
Origin	372
Precancerous States	374
Laryngeal Biopsy	381
35 Pathology of Invasive Squamous Cell Carcinoma	385
Gross Appearances	385
Fields of Origin	386
Microscopic Appearances	387
Spread from Laryngeal Airway Origin	388
Invasion of the Cartilaginous Framework	391
Spread Outside the Larynx	396
Radiation Perichondritis	399
36 Unusual Forms of Squamous Cell Carcinoma: Spindle Cell Carcinoma, Verrucous Squamous Carcinoma, Ventriculosaccular Carcinoma	405
Spindle Cell Carcinoma	405
Verrucous Squamous Carcinoma	409
Ventriculosaccular Carcinoma	415
37 Non-epidermoid Epithelial and Neuroectodermal Neoplasms	421
Non-epidermoid Epithelial Neoplasms	421
Neuroectodermal Tumours	424
38 Neoplasms of Vascular, Connective and Muscular Tissue, Cartilage and Bone	437
Vascular Neoplasms	437
Fibroblastic Lesions	441

Synovial Sarcoma	442
Neoplasms of Adipose Tissue	442
Myogenic Neoplasms	442
Alveolar Soft Part Sarcoma	446
Cartilaginous Neoplasms and Bone-Producing Lesions	448
39 Hypopharynx: Anatomy, Histology and Pathology	455
Anatomy	455
Histology	455
Pharyngeal Diverticulum	456
Cricopharyngeal Dysphagia	457
Sideropenic Dysphagia (Plummer-Vinson or Paterson-Brown-Kelly Syndrome)	458
Squamous Cell Carcinoma of the Hypopharynx	459
Other Neoplasms	463
Subject Index	465
