Introduction. Ye. A. KOZLOVSKY	1
 1. Geology	
 1.1 Geology of the North-Eastern Part of the Baltic Shield. E. B. NALIVKINA, M. S. RUSANOV, and S. N. SUSLOVA	 17
1.1.1 Basic Features of the Geological Structure of the Kola Peninsula	17
1.1.2 The Deep Structure of the Kola Peninsula	24
1.1.3 Geology of the SG-3 Well Site Area	26
1.1.4 Principal Results of Deep Geophysical Investigations in the Area of the SG-3 Well Site	37
 1.2 Geological Section of the Well. V. S. LANEV, E. B. NALIVKINA, V. V. VAKHRUSHEVA, E. A. GOLENKINA, M. S. RUSANOV, Y. P. SMIRNOV, S. N. SUSLOVA, G. G. DUK, T. V. KOLTSOVA, V. A. MASLENNIKOV, B. V. TIMOFEEV, and V. G. ZASLAVSKY	 40
1.2.1 The Pechenga Complex	40
1.2.2 The Archean Complex	57
1.2.3 The Physical Character of Rock Foliation	64
1.2.4 The Stratigraphic Subdivision of the Section	65
1.2.5 The Age of the Pechenga Complex and Kola Series	67
 1.3 Rocks and Rock-Forming Minerals. E. B. NALIVKINA, V. S. LANEV, N. P. VINOGRADOVA, S. N. SUSLOVA, M. S. RUSANOV, I. N. DAGELAISKAYA, and A. G. NEKHOROSHEVA	 74
1.3.1 Metamorphic and Intrusive Rocks of the Pechenga Complex ..	74
1.3.2 Polymetamorphic Rocks of the Archean Complex	92
1.3.3 Rock-Forming Minerals in Vertical Deep Section	110
 1.4 Geochemistry and Conditions of Formation of the Precambrian Complexes. A. A. KREMENETSKY, L. N. OVCHINNIKOV, I. V. BANSCHCHIKOVA, I. V. LAPIDUS, and M. S. RUSANOV	 113

1.4.1	The Pechenga Complex	114
1.4.2	The Archean Complex	141
1.4.3	Geochemical Section of the Earth's Crust	159
1.5	Zonality and Age of Metamorphism. A. A. GLAGOLEV, V.I. KAZANSKY, K. V. PROKHOROV, V.L. RUSINOV, V.A. MASLENNIKOV, S.N. VORONOVSKY, and L.N. OVCHINNIKOV	166
1.5.1	Vertical Metamorphic Zonality	167
1.5.2	Low-Temperature Retrograde Metamorphism	183
1.5.3	Physico-Chemical Conditions of Metamorphism	186
1.5.4	Age of the Zonal Metamorphism	191
1.6	Ore Mineralization. A.D. GENKIN, G.I. GORBUNOV, V.I. KAZANSKY, V.S. LANEV, A.A. FILIMONOVA, and Y.N. YAKOVLEV	199
1.6.1	Sulphide Copper-Nickel Mineralization	201
1.6.2	Iron-Titanium Mineralization in Metabasites	213
1.6.3	Ferruginous Quartzites	215
1.6.4	Hydrothermal Sulphide Mineralization in Zones of the Retrograde Dislocation Metamorphism	217
1.7	Shear Zones and Mineralized Fissures. V.I. KAZANSKY, Y.P. SMIRNOV, and Yu. I. KUZNETSOV	223
1.7.1	Shear Zones and Dislocation Metamorphism	226
1.7.2	Mineralized Fissures and Their Distribution at Different Depth Levels	234
1.7.3	Fissuring, Physical Properties and Anisotropy of Rocks	240
1.8	Gases and Organic Matter. E. W. KARUS, V. D. NARTIKOYEV, O. V. BARTASHEVICH, G.M. GIGASHVILI, S.V. IKORSKY, M. A. PAVLOVA, I. A. PETERSILJE, and T. F. PISARNITSKAYA	243
1.8.1	Well Gasometry	243
1.8.2	Gases in Rocks	250
1.8.3	Geochemistry of Organic Matter	258
1.9	Hydrogeological Essay. L. V. BOREVSKY, G.S. VARTANYAN, and T. B. KULIKOV	271
1.9.1	Subsurface Waters of the Pechenga Subartesian Basin	272
1.9.2	Chemical Composition of Subsurface Waters	274
1.9.3	Subsurface Waters and Hydrophysical Zonality	277
1.10	Evolution of the Continental Crust in the Precambrian. V.I. KAZANSKY, A.A. KREMENETSKY, V.S. LANEV, E. B. NALIVKINA, and L. N. OVCHINNIKOV	288
1.10.1	Volumetric Geological Model of the Pechenga Region	288
1.10.2	History of Tectonic Development of the Pechenga Region	293

1.10.3	Evolution and Vertical Zonality of Mineralization	304
1.10.4	Evolution of the Earth's Crust in Precambrian Time	306
2.	Geophysics	
2.1	Geological and Technical Conditions for Logging the Well. P. A. BRODSKY, V. Yu. ZAICHENKO, E. W. KARUS, O. L. KUZNETSOV, and E. F. KUTYREV	315
2.2	Combinations of Well Logs. P. A. BRODSKY, V. Y. ZAICHENKO, E. W. KARUS, O. L. KUZNETSOV, and E. F. KUTYREV	317
2.3	Apparatus, Cable, and Equipment for Logging the Kola Well. D. G. BAIKOV, P. A. BRODSKY, and R. S. TCHELOKYAN	320
2.4	WL Operation Procedure. V. I. BOGATIKOV, P. A. BRODSKY, E. F. KUTYREV, and A. F. LOZOVoi	324
2.5	Further Investigations and Improvements in Apparatus and Technology of Superdeep Well Logging. P. A. BRODSKY, V. Yu. ZAICHENKO, E. W. KARUS, and E. F. KUTYREV	330
2.6	Rock Density, Porosity, and Permeability. E. I. BAYUK, B. P. BELIKOV, L. I. VERNIK, M. P. VOLAROVITCH, Yu. I. KUZNETSOV, G. E. KUZMENKOVA, and N. N. PAVLOVA .	332
2.7	Acoustic Properties of the Rocks. L. I. VERNIK, N. E. GALDIN, E. W. KARUS, O. L. KUZNETSOV, Yu. I. KUZNETSOV, L. V. KUZNETSOVA, Yu. P. SMIRNOV, A. P. OSADTCHYI, and E. A. VINOGRADOV	339
2.7.1	Acoustic Properties from Core Measurements	339
2.7.2	Results of Acoustic Properties Determination from the Wide Frequency Band Acoustic Log (AL _w). Comparison with Data Obtained from Core Samples	345
2.8	Seismic Investigations in the Borehole. E. W. KARUS, O. L. KUZNETSOV, Yu. I. KUZNETSOV, G. E. RUDENKO, M. D. LIZINSKY, I. V. LITVINENKO, and L. L. KUDZINSKY	351
2.8.1	Velocity Characteristics of the Section	351
2.8.2	Wave Patterns	355
2.8.3	Elastic Wave Absorption	358
2.9	Rock Electrical Properties. A. T. BONDARENKO, A. A. ZHIMALETDINOV, Y. I. KUZNETSOV, and E. I. PARKHOMENKO	362

2.10	Magnetic Properties of Rocks. A.I. BAKHVALOV, S.Yu. BRODSKAYA, L.I. VERNIK, Y.I. KUZNETSOV, D.M. PECHERSKY, V.N. PONOMAREV, Z.V. SHARONOVA, and L.E. SHOLPO	368
2.10.1	Magnetic Susceptibility	369
2.10.2	Natural Residual Magnetization	371
2.10.3	Koenigsberger Ratio (<i>Q</i> -Factor)	373
2.11	Rock Radioactivity. E.W. KARUS, O.L. KUZNETSOV, Yu.L. KUZNETSOV, B.E. METSGER, V.D. NARTIKOEV, V.I. PYATAKHIN, Y.S. SHIMELEVITCH, and I.Ya. SHIROKOVA	378
2.11.1	Natural Radioactivity	378
2.11.2	Nuclear-Physical Parameters	379
2.12	Rock Thermal Properties. N.E. GALDIN, E.A. LUBIMOVA, V.D. NARTIKOEV, Y.A. POPOV, S.A. SEMASHKO, V.M. SKORNYAKOV, and E.V. SMIRNOVA	383
2.13	Geothermic Investigations. N.I. ARSHAVSKAYA, N.E. GALDIN, E.W. KARUS, O.L. KUZNETSOV, E.A. LUBIMOVA, S.Y. MILANOVSKY, V.D. NARTIKOEV, S.A. SEMASHKO, and E.V. SMIRNOVA	387
2.13.1	Thermal Field and Its Characteristics	387
2.13.2	Radioactive Heat in the Thermal Balance of the Earth's Crust and Upper Mantle	389
2.13.3	Heat Generation	390
2.13.4	Heat Generation Models	391
2.14	Physico-Mechanical Properties. L.I. VERNIK, Y.I. KUZNETSOV, R.V. MEDVEDEV, and I.A. TURTCHANINOV	394
2.15	Vertical Zonation in Rock Physical Properties and of the Crustal Structure from the Results of the Present Study. K.E. VESELOV, N.E. GALDIN, E.W. KARUS, O.L. KUZNETSOV, Y.I. KUZNETSOV, I.V. LITVINENKO, V.D. NARTIKOEV, and P.N. NIKOLAEV	405
2.15.1	Elastic-Density Model	405
2.15.2	Seismic-Acoustic Model	407
2.15.3	Tectonic-Physical Model	413
3.	Drilling	
3.1	Technical and Technological Problems of Drilling. The Scientific Basis for Choice of Drilling Equipment and Tools ..	423
3.1.1	Drilling Parameters. M.I. VOROZHBITOV, D.M. GUBERMAN ..	423
3.1.2	Choice of Well Design. M.I. VOROZHBITOV	426

3.1.3	Stability of the Borehole Wall Rock Mass. N. I. ANDRIANOV, M. I. VOROZHBITOV, R. B. VUGIN	427
3.1.4	Admissible Parameters of a Spatial Trajectory of the Borehole. M. I. VOROZHBITOV	433
3.1.5	Drilling Method and Practices. Prediction of Drilling Indices. O. Yu. BERGSTEIN, R. B. VUGIN	436
3.1.6	Drilling Tools. M. I. VOROZHBITOV	441
3.1.7	Drilling Fluid. R. B. VUGIN, M. A. VELIKOSELSKY	444
3.1.8	Coring. O. Y. BERGSTEIN, M. I. VOROZHBITOV	446
3.1.9	Control of Drilling Parameters. V. S. BASOVICH	451
3.1.10	Drill Rig. M. I. VOROZHBITOV, D. M. GUBERMAN	454
3.2	Surface Drilling Equipment and Facilities	458
3.2.1	Drilling Equipment and Electric Drives. N. I. ANDRIANOV, M. V. LITVIN, V. V. LEVITSKY	458
3.2.2	Drilling Process Instrumentation. V. I. BASOVICH	466
3.2.3	Auxiliary Facilities at the Drilling Site. D. M. GUBERMAN, and V. P. CHISTYAKOV	466
3.3	Drilling Tools and Aids	473
3.3.1	Drill Bits. N. I. ANDRIANOV, and O. Yu. BERGSTEIN	473
3.3.2	Coring Tools. O. Yu. BERGSTEIN	483
3.3.3	Downhole Motors. Yu. V. VADETSKY, and B. V. KUZIN	487
3.3.4	High-Strength Drill Pipes. M. I. VOROZHBITOV, R. A. UTESHEV, and G. M. FAIN	494
3.3.5	Drilling Fluids. R. B. VUGIN, and V. V. SLEDKOV	499
3.3.6	Telemetry System of Downhole Motor rpm Indication. V. S. BASOVICH	502
3.3.7	Wellhead Equipment. Yu. A. FETKO	504
3.3.8	Bottomhole Assemblies. I. V. VASILCHENKO, M. A. VELIKOSELSKY, and V. S. KOCHERGIN	506
3.3.9	Trouble and Failure Prevention and Control Aids. M. I. VOROZHBITOV, I. V. VASILCHENKO, and M. A. VELIKOSELSKY	509
3.4	An Integrated Interpretation of Technical and Economic Drilling Results	514
3.4.1	Technical and Economic Evaluation of the Drilling Process. D. M. GUBERMAN	514
3.4.2	Major Trends in Variation of Drilling Indices with Depth. V. S. BASOVICH, O. Yu. BERGSTEIN, R. B. VUGIN, B. V. KUZIN, V. S. KOCHERGIN, and Yu. A. FETKO	521
	Conclusion. Ye. A. KOZLOVSKY	548
