

Contents

1. The Relationship Between NMR and Other Functional Measurement Techniques

<i>V. Ralph McCready</i>	1
Introduction	1
Blood Flow	2
Tissue Metabolism	7
Tissue Characterisation	9
Conclusions	11

2. The Physical Basis of NMR Studies Measuring Physiological Function and Metabolism

<i>M.O. Leach</i>	15
Introduction	15
Physical Basis of NMR	15
Imaging and Spatial Localisation of NMR Spectra	26
Functional Parameters	32
Instrumentation	35
Siting and Safety	37

3. Functional Imaging Using NMR

<i>R. Bachus, E. Mueller, H. Koenig, G. Braeckle, H. Weber and E.R. Reinhardt</i>	43
NMR Image Parameters	43
Contrast Optimised Images	47
Flow Imaging	49
Cardiac Imaging	55
²³ Na Imaging	58
Fast Imaging	60

4. NMR Spectroscopy: Application to Metabolic Research

<i>A.N. Stevens</i>	61
Introduction	61
Fundamentals of NMR Spectroscopy	61
Clinically Useful NMR Nuclei	65
In Vivo Studies	70
Conclusion	81

5. Functional Magnetic Resonance Imaging of the Heart and Large Vessels

<i>R.E. Coupland and P. Mansfield</i>	85
Introduction	85
Method	85
Imaging Details and Procedure	86
Results and Conclusions	86

6. Functional Studies of the Cardiovascular System Using Magnetic Resonance Imaging

<i>S. Richard Underwood</i>	91
Introduction	91
Imaging Techniques	91
Clinical Applications	93
Relaxation Parameters	97
Magnetic Resonance Angiography	99
Flow Imaging	101
The Future	103

7. Paramagnetic Pharmaceuticals for Functional Studies

<i>L.D. Hall and P.G. Hogan</i>	107
Introduction	107
Paramagnetic Metal Species	109
Ferromagnetic Metal Species	117
Stable Free Radicals	118
Oxygen and Oxygen Carriers	120
Magnetic Susceptibility Agents	122
Density Substitution Agents	122

8. Clinical Use of Intravenous Gadolinium-DTPA in Magnetic Resonance Imaging of the Central Nervous System

<i>G.M. Bydder, H.P. Niendorf and I.R. Young</i>	129
Introduction	129

Paramagnetic Contrast Agents	129
Effects of Paramagnetic Contrast Agents on NMR	
Parameters	130
Results of Paramagnetic Contrast Agents in Clinical	
Studies	132
Toxicity	144
Conclusion	144
 9. Tissue Characterisation by NMR	
<i>Margaret A. Foster</i>	147
Introduction	147
The NMR Parameters	148
Possibilities for Tissue Characterisation	157
 10. The Influence of NMR Parameters on Imaging	
<i>P. Pfannenstiel, G. Bielke, S. Meindl, W. von Seelen and</i>	
<i>H.P. Higer</i>	167
Introduction	167
Qualitative Evaluation with Appropriate Pulse Sequences	167
Quantitative Evaluation and Image Synthesis	176
Tissue Characterisation	178
Future Considerations	181
 11. A Correlative Approach to Nuclear Medicine	
and NMR Imaging	
<i>M.P. Sandler, M.V. Kulkarni, J.A. Patton, C. Leon Partain</i>	
<i>and A. Everette James Jr.</i>	183
Introduction	183
Central Nervous System	184
Neck	185
Thorax	190
Abdomen	193
Skeleton	197
Conclusion	198
 Subject Index	201
