

TABLE OF CONTENTS

Introduction	III
Chapter I Preliminaries	1
Chapter II Cusps of rank one	5
Chapter III The heat equation on the cusp	13
Chapter IV The Neumann Laplacian on the cusp	22
Chapter V Manifolds with cusps of rank one	31
Chapter VI The spectral resolution of H	46
Chapter VII The heat kernel	60
Chapter VIII The Eisenstein functions	64
Chapter IX The spectral shift function	74
Chapter X The L^2 -index of generalized Dirac operators	84
Chapter XI The unipotent contribution to the index	100
Chapter XII The Hirzebruch conjecture	139
References	150
Subject index	155
List of notations	156
