

# Contents

## I Techniques

### 1 Basics of Radial Endoscopic Ultrasound

*M. Hocke, C.F. Dietrich*

Notes . . . . .	2	Cross-Section of the Para-Aortic Region . . . . .	7
Patient Preparation . . . . .	2	Cross-Section of the Adrenal Glands . . . . .	7
Examination Procedures . . . . .	3	Cross-Section of the Lower Mediastinum . . . . .	8
Cross-Section of the Descending Duodenum . . . . .	3	Cross-Section of the Central Mediastinum . . . . .	9
Cross-Section of the Papilla of Vater . . . . .	3	Cross-Section of the Upper Mediastinum . . . . .	9
Cross-Section of the Duodenal Bulb, including the Porta Hepatis and Gallbladder . . . . .	3	<b>Rating Levels of Skill in the Endoscopic Ultrasound Method . . . . .</b>	10
Cross-Section of the Stomach, Including the Body of the Pancreas . . . . .	6		

### 2 Longitudinal EUS Anatomy

*J. Janssen*

Introduction . . . . .	11	<b>Special Linear EUS Anatomy . . . . .</b>	12
The Philosophy of the Examination . . . . .	11	EUS Anatomy Displayed from the Esophagus . . . . .	12
Introduction of the Echoendoscope . . . . .	11	EUS Anatomy Imaged from the Stomach . . . . .	14
EUS Landmarks . . . . .	11	EUS Anatomy Imaged from the Duodenum . . . . .	17
The Examination Sequence . . . . .	12	<b>Examination of the Gastrointestinal Wall . . . . .</b>	22
		Conclusion . . . . .	22

### 3 EUS meets VOXEL-MAN: a Software-Based Training System for Longitudinal EUS

*T. Leineweber, E. Burmester*

<b>EUS meets VOXEL-MAN . . . . .</b>	24	Systematic Approach to an EUS Examination . . . . .	25
--------------------------------------	----	--	----

### 4 Miniprobes

*H. Seifert, C.F. Dietrich*

<b>Technical Considerations and Practical Remarks . . . . .</b>	28	and Adjacent to the Intestinal Wall . . . . .	29
<b>Miniprobe Applications in the Gastrointestinal Tract . . . . .</b>	29	Extraductal Ultrasonography . . . . .	31
Examination of Structures within		<b>Future Developments . . . . .</b>	31
		<b>Conclusions . . . . .</b>	31

## 5 Intraductal Ultrasound

*B. Braden, H. Seifert, C.F. Dietrich*

Technical Developments . . . . .	33	IDUS of the Pancreatic Ducts . . . . .	39
Intraductal Ultrasound of the Hepatobiliary System . . . . .	33	IDUS in Patients with Tumors of the Papilla and with Sphincter of Oddi Dysfunction . . . . .	39
Choledocholithiasis . . . . .	34	Conclusion . . . . .	40
Bile Duct Strictures . . . . .	36		
Cholangiocellular Carcinoma . . . . .	36		

## 6 Radial EUS, Linear EUS, or Ultrasound Miniprobe: Which Is the Most Suitable Device in Gastrointestinal EUS?

*J. Janssen, C.F. Dietrich*

The Development of EUS: a Short Historical Survey . . . . .	42	Conventional Radial EUS Versus Conventional Longitudinal EUS . . . . .	45
Miniprobe Versus Conventional EUS . . . . .	43	Which Is the EUS Technique of the Future? . . . . .	50

## 7 Ultrasound Contrast Agents and Contrast-Enhanced Ultrasonography

*C. Greis, C.F. Dietrich*

Historical Background . . . . .	51	Flash Echo Imaging . . . . .	59
Classification of Ultrasound Contrast Agents . . . . .	52	SAE Imaging . . . . .	60
Blood-Pool Contrast Agents . . . . .	52	Qualitative Evaluation . . . . .	60
Tissue-Specific Contrast Agents . . . . .	52	Vascular Geometry . . . . .	60
Drug-Delivery Systems . . . . .	52	Perfusion Abnormalities (Hyperperfusion/Hypoperfusion) . . . . .	61
Intracavitory Contrast Agents . . . . .	52	Quantitative Evaluation . . . . .	61
Oral Contrast Agents . . . . .	53	Bolus Kinetics . . . . .	61
Mode of Action of Ultrasound Contrast Agents . . . . .	53	Transit Time Analysis . . . . .	62
Structure . . . . .	53	Replenishment Kinetics . . . . .	62
Echogenic Properties . . . . .	53	Depletion Kinetics . . . . .	62
Dosage and Administration . . . . .	54	Parametric Imaging . . . . .	62
Artifacts Caused by Contrast Agents . . . . .	55	Clinical Indications for Contrast-Enhanced Ultrasonography . . . . .	63
Saturation Artifacts . . . . .	55	Doppler Signal Enhancement (Vascular Flow) . . . . .	63
Destruction Artifacts . . . . .	55	Diagnosis of Ischemia . . . . .	63
Shadow Artifacts . . . . .	56	Diagnosis of Traumatic Lesions . . . . .	63
Overestimated Flow Rates in Spectral Doppler . . . . .	56	Detection of Focal Lesions . . . . .	63
Contrast-Specific Imaging Procedures . . . . .	56	Characterization of Focal Lesions . . . . .	64
Frequency Filter Procedures . . . . .	56	Monitoring of Interventions and Treatment . . . . .	64
Harmonic Power Doppler . . . . .	57	Follow-Up . . . . .	64
Pulse Summation Procedures . . . . .	57	Safety Aspects . . . . .	65
Investigations at Very Low Insonation Power (Low-MI Imaging) . . . . .	59		

## 8 Sonoelastography: a New Ultrasound Modality for Assessing Tissue Elasticity

*C.F. Dietrich, H. Frey*

<b>Technical Characteristics</b> . . . . .	<b>68</b>	EUS Evaluation of Lymph Nodes . . . . .	<b>70</b>
<b>Research Results</b> . . . . .	<b>69</b>	Pancreas . . . . .	<b>72</b>
<b>Sonoelastography in the Clinical Setting</b> . . . . .	<b>70</b>	Anorectum . . . . .	<b>76</b>
<b>Clinical Applications</b> . . . . .	<b>70</b>	DVD . . . . .	<b>76</b>
		<b>Summary</b> . . . . .	<b>76</b>

## II Diagnostic Imaging and Interventions

### 9 EUS-Guided Biopsy: Equipment and Technique

*H.W. Sudholt, P. Vilimann*

<b>Endoscopes</b> . . . . .	<b>80</b>	<b>Biopsy Procedure</b> . . . . .	<b>86</b>
<b>Biopsy Needles</b> . . . . .	<b>81</b>	<b>Preparing the Smear</b> . . . . .	<b>89</b>
<b>Examination Room</b> . . . . .	<b>86</b>	<b>Limitations and Complications</b> . . . . .	<b>89</b>
<b>Preparation of the Patient</b> . . . . .	<b>86</b>		

### 10 EUS-Guided Biopsy—Indications, Problems, Pitfalls, Troubleshooting, and Clinical Impact

*C. Janssen, K. Moeller, M. Sarbia, S. Wagner*

<b>Indications and Contraindications</b> . . . . .	<b>91</b>	<b>Handling, Preparation, and Processing of EUS-NB Specimens</b> . . . . .	<b>111</b>
<b>Planning the Procedure</b> . . . . .	<b>92</b>	<b>Reliability of Diagnoses and Diagnostic Pitfalls</b> . .	<b>113</b>
<b>Diagnostic Yield</b> . . . . .	<b>93</b>	Reproducibility of Cytopathological Diagnoses . . . .	<b>113</b>
<b>Influences on Diagnostic Yield</b> . . . . .	<b>99</b>	False-Negative and False-Positive Diagnoses . . . . .	<b>114</b>
Technical Problems . . . . .	<b>99</b>	Difficult Differential Diagnoses and Diagnostic Pitfalls . . . . .	<b>115</b>
Contamination . . . . .	<b>101</b>	<b>Quality Assessment and Benchmarking</b> . . . . .	<b>144</b>
Features of the Target Lesion . . . . .	<b>102</b>	<b>Clinical Impact of EUS-NB</b> . . . . .	<b>144</b>
Technical and Procedural Variables . . . . .	<b>103</b>	Focal Pancreatic Lesions . . . . .	<b>144</b>
Targeting . . . . .	<b>106</b>	Esophageal and Other Gastrointestinal Cancers . . . . .	<b>144</b>
Cytology or Histology? Needle Type and Needle Size	<b>107</b>	Lung Cancer . . . . .	<b>149</b>
Cytology and/or Histology . . . . .	<b>108</b>	<b>Summary</b> . . . . .	<b>156</b>
On-Site Cytology . . . . .	<b>110</b>		
<b>Experience, Training, and Dialogue</b> . . . . .	<b>111</b>		

### 11 Tips and Tricks for Fine-Needle Puncture

*T. Beyer, T. Topalidis*

<b>Definition of Fine-Needle Puncture</b> . . . . .	<b>168</b>	<b>Specimen Handling</b> . . . . .	<b>169</b>
<b>Cytological Examination</b> . . . . .	<b>168</b>	<b>Fixation</b> . . . . .	<b>170</b>
<b>Collection</b> . . . . .	<b>169</b>	<b>Staining</b> . . . . .	<b>171</b>

<b>Request Form, Clinical Data, Questions of Interest</b>	<b>171</b>	<b>Standardized Documentation of Findings</b>	<b>172</b>
<b>Causes of Errors in Fine-Needle Aspiration Biopsy</b>	<b>172</b>	<b>Example Findings</b>	<b>173</b>
<b>Capabilities and Limitations of Cytology</b>	<b>172</b>		

## 12 Complications of Endoscopic Ultrasound: Risk Assessment and Prevention

*C. Janssen, M. Mayr, D. Nuernberg, S. Faiss*

<b>EUS-Specific Risk Factors</b>	<b>176</b>	<b>Hemorrhage</b>	<b>181</b>
<b>Complications of Diagnostic EUS</b>	<b>176</b>	<b>Abdominal and Thoracic Pain, Pneumothorax, and Pneumoperitoneum</b>	<b>186</b>
<b>Perforation</b>	<b>176</b>	<b>Tumor Cell Seeding</b>	<b>187</b>
<b>Aspiration</b>	<b>178</b>		
<b>Bacteremia</b>	<b>178</b>	<b>EUS-Guided Therapeutic Interventions</b>	<b>187</b>
<b>Hematogenous Tumor Cell Dissemination</b>	<b>178</b>	<b>Prevention of EUS-Related Complications</b>	<b>188</b>
<b>Complications with EUS-Guided Biopsy</b>	<b>178</b>	<b>Suggested Ways of Preventing Complications</b>	<b>188</b>
<b>Bacteremia and Infectious Complications</b>	<b>178</b>		
<b>Bile Peritonitis and Cholangitis</b>	<b>181</b>	<b>Summary: Morbidity and Mortality of EUS and EUS-FNA</b>	<b>191</b>
<b>Acute Pancreatitis</b>	<b>181</b>		

## III Gastrointestinal Tract

### 13 Esophagus, Stomach, Duodenum

*C.F. Dietrich, S. Faiss*

<b>Wall Layers in the Esophagus, Stomach, and Duodenum</b>	<b>198</b>	<b>Stomach</b>	<b>207</b>
<b>Esophagus</b>	<b>199</b>	<b>Orientation</b>	<b>207</b>
<b>Orientation</b>	<b>199</b>	<b>Optimizing the Examination</b>	<b>208</b>
<b>Optimizing the Examination</b>	<b>199</b>	<b>Indications</b>	<b>209</b>
<b>Indications</b>	<b>199</b>	<b>Benign Gastric Lesions</b>	<b>209</b>
<b>Benign Diseases</b>	<b>200</b>	<b>Gastric Cancer</b>	<b>211</b>
<b>Malignant Tumors of the Esophagus</b>	<b>200</b>	<b>N stage</b>	<b>213</b>
<b>T Stage</b>	<b>201</b>	<b>M stage</b>	<b>213</b>
<b>N Stage</b>	<b>202</b>	<b>Effect of Technology</b>	<b>217</b>
<b>Effect of Technology</b>	<b>206</b>	<b>EUS of the Small Bowel</b>	<b>218</b>

### 14 Endoscopic Ultrasound in Subepithelial Tumors of the Gastrointestinal Tract

*C. Janssen, C.F. Dietrich*

<b>Subepithelial Tumors versus Extramural Impressions (Lesions Mimicking Subepithelial Tumors)</b>	<b>224</b>	<b>Solid Subepithelial Lesions</b>	<b>238</b>
<b>Endosonographic Description and Classification of Subepithelial Lesions</b>	<b>228</b>	<b>Hypoechoic Subepithelial Tumors of the Esophagus</b>	<b>245</b>
<b>Cystic and Mixed Solid Cystic Subepithelial Lesions</b>	<b>234</b>	<b>Hypoechoic Subepithelial Tumors of the Stomach</b>	<b>245</b>
		<b>Hypoechoic Subepithelial Tumors of the Duodenum and Small Intestine</b>	<b>247</b>
		<b>Hypoechoic Subepithelial Tumors of the Colon and Rectum</b>	<b>248</b>

<b>Assessment of the Biological Behavior of Hypoechoic Subepithelial Tumors . . . . .</b>	<b>249</b>	<b>Diagnostic and Therapeutic Strategy for Subepithelial Lesions in the Gastrointestinal Tract . . . . .</b>	<b>264</b>
<b>EUS-Guided Fine-Needle Aspiration (EUS-FNA) and Tru-Cut Biopsy (EUS-TCB) . . . . .</b>	<b>256</b>	<b>Symptomatic Subepithelial Tumors . . . . .</b>	<b>264</b>
<b>EUS-Guided Treatment of Subepithelial Lesions . . . . .</b>	<b>261</b>	<b>Asymptomatic Subepithelial Tumors . . . . .</b>	<b>265</b>

## 15 Endosonographic Diagnosis and Treatment Planning in Gastrointestinal Lymphoma

*W. Fischbach, C.F. Dietrich*

<b>Clinical Presentation . . . . .</b>	<b>278</b>	<b>Relevance of EUS . . . . .</b>	<b>279</b>
<b>Diagnosis and Staging . . . . .</b>	<b>278</b>	<b>Treatment Planning . . . . .</b>	<b>282</b>

## 16 Endoscopic Ultrasound in Chronic Pancreatitis

*C. Janssen, C.F. Dietrich*

<b>Difficulties in Diagnosing Chronic Pancreatitis . . . . .</b>	<b>284</b>	<b>Differential Diagnosis, Diagnostic Problems, and Pitfalls . . . . .</b>	<b>303</b>
<b>Endosonography of the Pancreas . . . . .</b>	<b>285</b>	<b>Pancreatic Cancer versus Focal Inflammatory Masses . . . . .</b>	<b>303</b>
<b>Endosonographic Criteria for Chronic Pancreatitis . . . . .</b>	<b>288</b>	<b>Pseudocyst versus Simple Cyst versus Cystic Neoplasia versus Pseudoaneurysm . . . . .</b>	<b>306</b>
<b>Comparison of Methods: Is EUS More Sensitive than ERCP for Diagnosing Chronic Pancreatitis? . . . . .</b>	<b>291</b>	<b>Dilation of the Main Pancreatic Duct . . . . .</b>	<b>310</b>
<b>Endosonographic Staging of Chronic Pancreatitis . . . . .</b>	<b>294</b>	<b>The Contribution of EUS to the Treatment of Chronic Pancreatitis . . . . .</b>	<b>312</b>
<b>Diagnosis of Complications of Chronic Pancreatitis . . . . .</b>	<b>295</b>	<b>Conclusions . . . . .</b>	<b>314</b>
<b>Etiological Information . . . . .</b>	<b>301</b>		

## 17 Pancreatic Adenocarcinoma: the Role of Endoscopic Ultrasonography

*P.G. Arcidiacono, S. Carrara*

<b>Principles of the Technique . . . . .</b>	<b>324</b>	<b>Guidelines for Managing Pancreatic Cancer . . . . .</b>	<b>332</b>
<b>Staging . . . . .</b>	<b>327</b>	<b>Endoscopic Ultrasound Elastography . . . . .</b>	<b>332</b>
<b>EUS-Guided Fine-Needle Aspiration Biopsy . . . . .</b>	<b>331</b>	<b>EUS-FNA Technique . . . . .</b>	<b>333</b>

## 18 Benign and Malignant (Cystic) Tumors of the Pancreas

*C.F. Dietrich, C. Janssen*

<b>Cystic Neoplasms . . . . .</b>	<b>338</b>	<b>Neuroendocrine Tumors . . . . .</b>	<b>353</b>
<b>Mucinous Cystadenoma and Cystadenocarcinoma . . . . .</b>	<b>341</b>	<b>Differential Diagnosis of Pancreatic Lesions . . . . .</b>	<b>359</b>
<b>Intraductal Papillary Mucinous Neoplasm . . . . .</b>	<b>341</b>	<b>Conclusions . . . . .</b>	<b>363</b>
<b>Serous Cystadenoma . . . . .</b>	<b>343</b>	<b>Elastography . . . . .</b>	<b>363</b>
<b>Solid Pseudopapillary Neoplasm . . . . .</b>	<b>346</b>		
<b>Teratoma of the Pancreas . . . . .</b>	<b>347</b>		
<b>Rare Cystic Neoplasms and Miscellaneous Pancreatic Lesions Mimicking Cystic Neoplasms . . . . .</b>	<b>348</b>		

**19 Pancreatic Interventions***H. Seifert, C.F. Dietrich*

<b>Cystic Pancreatic Lesions: Definition and Classification</b> . . . . .	366	Objectives of Treatment . . . . .	370
<b>Epidemiology</b> . . . . .	369	Spontaneous Course . . . . .	371
<b>Etiopathogenesis</b> . . . . .	370	Conservative Treatment . . . . .	372
<b>Therapeutic Approaches</b> . . . . .	370	Interventional Treatment . . . . .	372
		<b>Summary and Prospects</b> . . . . .	383

**20 Endosonography of the Hepatobiliary System***C.F. Dietrich, M. Hocke, H. Seifert*

<b>Definitions</b> . . . . .	387	<b>EUS of the Papillary Region, Adenomyomatosis</b> . . . . .	394
<b>Reliability of Examination Methods for Detecting Gallstones</b> . . . . .	387	<b>Cholangiocellular Carcinomas</b> . . . . .	395
<b>Miniprobe EUS and Extraductal Ultrasound</b> . . . . .	392	<b>Carcinomas of the Gallbladder</b> . . . . .	396
<b>Adenoma and Carcinoma of the Papilla of Vater</b> . . . . .	392	<b>Conclusions</b> . . . . .	396

**21 Endoscopic Ultrasound Imaging of the Adrenals***C.F. Dietrich, P.H. Kann*

<b>Examination Technique</b> . . . . .	401	<b>Pathological Findings</b> . . . . .	404
Transabdominal Examination Technique . . . . .	401	<b>Conclusion and Summary</b> . . . . .	409
Endoscopic Ultrasound Examination Technique . . . . .	401		
<b>Indications for EUS of the Adrenal Glands</b> . . . . .	404		

**22 Contrast-Enhanced EUS***M. Hocke, C.F. Dietrich*

<b>Detection</b> . . . . .	411	<b>Prospects</b> . . . . .	416
<b>Characterization of Malignancy</b> . . . . .	411	<b>Addendum</b> . . . . .	419
<b>Wide-Band Harmonic Imaging</b> . . . . .	414	Parameters and Settings for Contrast Harmonic Imaging . . . . .	419
<b>Lymph Nodes</b> . . . . .	415		

**23 Incidental Findings in the Surrounding Organs (Miscellaneous)***C.F. Dietrich*

<b>Common Incidental Findings</b> . . . . .	421
---	-----

## 24 Endoanal and Endorectal Sonography

*M. Sailer, H. Allgayer, C.F. Dietrich*

<b>Normal Anatomy</b> . . . . .	431	<b>Anorectal Endosonography in Fecal</b>	
Anatomy of the Perineum and Anus . . . . .	431	<b>Incontinence</b> . . . . .	446
Endosonographic Imaging at Different Anatomical		<b>Anal Fistula</b> . . . . .	447
Levels . . . . .	436	<b>Interventional Procedures with Endoscopic</b>	
<b>Instruments and Equipment</b> . . . . .	437	<b>Anorectal Ultrasound</b> . . . . .	448
<b>Clinical Indications for Endorectal Ultrasound</b>		EUS-Guided Transrectal Biopsies of	
<b>Techniques</b> . . . . .	437	Pelvic Tumors . . . . .	448
Rectal Cancer . . . . .	438	EUS-Guided Transrectal Aspiration of Pelvic Fluid	
Tumor Staging . . . . .	438	Collections . . . . .	449
<b>Preoperative Diagnosis of Rectal Carcinomas</b> . . . . .	445	Anal Cancer . . . . .	450
<b>Tumor Follow-Up</b> . . . . .	446	Perineal Transcutaneous Ultrasound . . . . .	451

## 25 Three-Dimensional Endorectal Ultrasound and Rectal Cancer

*M. Giovannini*

<b>Basic Principles of Three-Dimensional Ultrasound</b>	455	<b>Conclusions</b> . . . . .	457
<b>Results of Three-Dimensional Endorectal</b>			
<b>Ultrasound in the Literature</b> . . . . .	456		

## 26 Endoscopic Ultrasound of the Colon

*C.F. Dietrich, J.C. Mertens*

<b>Clinical Relevance</b> . . . . .	459
-------------------------------------	-----

## IV Lung and Mediastinum

### 27 Mediastinum from the Esophagus

*C.F. Dietrich, M. Hocke, F.J.F. Herth*

<b>Anatomy</b> . . . . .	466	<b>Prospects and Limitations</b> . . . . .	475
<b>Examination Techniques</b> . . . . .	467	<b>Conclusions</b> . . . . .	475
General . . . . .	467		
Procedure . . . . .	468		
EUS-Guided Fine-Needle Aspiration in the			
Mediastinum . . . . .	473		
Non-Small Cell Lung Cancer . . . . .	473		

**28 Endobronchial Ultrasound with Miniprobe Radial Scanning***F.J.F. Herth, N. Kahn, R. Eberhardt*

<b>Miniprobes: General Considerations</b> . . . . .	477	<b>Staging of Lung Cancer</b> . . . . .	481
<b>Handling of Miniprobes</b> . . . . .	477	<b>EBUS in Therapeutic Bronchoscopy</b> . . . . .	485
Storage and Preparation. . . . .	477	<b>EBUS in Pediatric Bronchoscopy</b> . . . . .	485
Application . . . . .	478	<b>Training and Learning Curve in EBUS</b> . . . . .	485
<b>Technique of Endoscopic Bronchial Ultrasonography</b> . . . . .	478	<b>Cost-Effectiveness</b> . . . . .	485
Imaging Artifacts . . . . .	478	<b>Conclusions and Future Prospects</b> . . . . .	486
Sonographic Anatomy . . . . .	479		
<b>Clinical Results</b> . . . . .	481		

**29 Endobronchial Ultrasound***F.J.F. Herth, R. Eberhardt*

<b>Lymph-Node Staging</b> . . . . .	488	<b>EBUS-TBNA in Combination with EUS-FNA</b> . . . . .	491
<b>Description of the EBUS-TBNA Endoscope and Needle</b> . . . . .	488	<b>Other Applications</b> . . . . .	491
<b>Procedure</b> . . . . .	489	<b>Conclusion</b> . . . . .	491
<b>Results</b> . . . . .	490		

**V Additional Applications****30 EUS-Guided Neurolysis of the Celiac Plexus***S. Hollerbach*

<b>Prerequisites for EUS-Guided Celiac Plexus</b>		<b>Celiac Plexus Neurolysis</b> . . . . .	499
<b>Neurolysis and Other Treatments</b> . . . . .	496	Preparation for the Procedure . . . . .	499
<b>Indications for Therapeutic EUS</b> . . . . .	496	Procedure . . . . .	499
<b>Contraindications to Therapeutic EUS</b> . . . . .	497	Problems and Complications . . . . .	501
<b>Materials</b> . . . . .	497	Postinterventional Measures . . . . .	501
Echoendoscopes . . . . .	497		
Materials for Therapeutic EUS Procedures . . . . .	498		

**31 EUS-Guided Biliary Drainage***E. Burmester, J. Niehaus*

<b>Technique</b> . . . . .	503	<b>Conclusions</b> . . . . .	507
<b>Discussion</b> . . . . .	507		

## 32 Laparoscopic Ultrasound Scanning

*P. Vilman, C. Ortiz-Moyano*

<b>Equipment</b> . . . . .	<b>509</b>	LUS in Pancreatic Cancer . . . . .	<b>517</b>
<b>Examination Procedure</b> . . . . .	<b>513</b>	LUS in Colonic Cancer . . . . .	<b>518</b>
<b>Biopsy Procedure</b> . . . . .	<b>514</b>	LUS in Gallstone Disease . . . . .	<b>518</b>
<b>Review of the Literature</b> . . . . .	<b>516</b>	LUS in Liver Disease . . . . .	<b>519</b>
Staging of Gastrointestinal Cancers . . . . .	<b>516</b>	Miscellaneous Applications of LUS . . . . .	<b>520</b>
LUS in Esophagogastric Cancer . . . . .	<b>516</b>	LUS-Guided Therapy . . . . .	<b>520</b>

## 33 Hot Topics in Interventional EUS

*U. Will, F. Meyer*

<b>EUS-Guided Drainage of Pancreatic Pseudocysts, Abscesses, and Necroses</b> . . . . .	<b>523</b>	<b>EUS-Guided Drainage of the Pancreatic Duct (EUPD)</b> . . . . .	<b>528</b>
<b>EUS-Guided Biliary Drainage</b> . . . . .	<b>526</b>		

## 34 Portal Hypertension and Endoscopic Ultrasound

*J.M. Wyse, A.V. Sahai*

<b>Anatomical Considerations</b> . . . . .	<b>533</b>	<b>Chronic Liver Disease</b> . . . . .	<b>535</b>
Gastroesophageal Varices and Related Vasculature .	<b>533</b>	<b>EUS and Variceal Bleeding</b> . . . . .	<b>536</b>
<b>Diagnosis of Varices</b> . . . . .	<b>533</b>	Predicting the Bleeding Risk . . . . .	<b>536</b>
Visualization of Esophageal Varices and Gastric Varices . . . . .	<b>533</b>	Assessing the Response to Endoscopic Therapy and EUS-Guided Endoscopic Therapy . . . . .	<b>536</b>
Perforating and Collateral Veins . . . . .	<b>534</b>	<b>Future Applications</b> . . . . .	<b>537</b>
Ectopic Varices . . . . .	<b>534</b>	Direct EUS-Guided Portal Pressure Measurement and Venography . . . . .	<b>537</b>
Hemodynamics using Endoscopic Color Doppler Ultrasound (ECDUS) . . . . .	<b>534</b>	<b>Summary and Conclusions</b> . . . . .	<b>538</b>
<b>Nonvariceal Markers of Portal Hypertension and</b>			
<b>Index</b> . . . . .	<b>542</b>
