

Table of Contents

J. A. Carlson and C. Simpson: Shimura varieties of weight two Hodge structures.	1
E. Cattani, A. Kaplan and W. Schmid: Variations of polarized Hodge structure: asymptotics and monodromy	16
E. Cattani, A. Kaplan and W. Schmid: Some remarks on L_2 and Intersection cohomologies.	32
A. Durfee: The ℓ -adic cohomology of links.	42
F. Guillén and F. Puerta: Hyperrésolutions cubiques et applications à la théorie de Hodge-Deligne.	49
R. Hain: Iterated integrals and mixed Hodge structures on homotopy groups.	75
R. Hain: Higher Albanese manifolds.	84
R. Hain and S. Zucker: A guide to unipotent variations of mixed Hodge structure.	92
R. Hain and S. Zucker: Truncations of mixed Hodge complexes.	107
M. Kashiwara: Poincaré lemma for a variation of polarized Hodge structure.	115
F. Loeser: Evaluation d'intégrales et théorie de Hodge.	125
V. Navarro Aznar: Sur les structures de Hodge mixtes associées aux cycles évanescents.	143
V. Pati: L^2 -cohomology of algebraic varieties in the Fubini metric.	154
J. H. M. Steenbrink: Some remarks about the Hodge conjecture.	165
