

Index

Page locators in *italics* indicate figures/tables/boxes. This index uses letter-by-letter alphabetization.

- ABPI *see* ankle brachial pressure index
absorption 33
acanthosis nigricans 130, 131
acitretin 41
acne
 adolescents 50–51, 50
 cosmetic dermatology 144
 newborn infants 91
acral malignant melanoma 114
acrodermatitis enteropathica 132
actinic keratosis 28, 29, 109, 110
actinic prurigo (AP) 127, 128
active retroviral therapy (ART) 137
acute dermatology 58–59, 58
acute generalised exanthematous
 pustulosis (AGEP) 64, 65
acute urticaria 104, 105
AD *see* atopic dermatitis/atopic eczema
Addison's disease 131
adherence/nonadherence 33, 35
adolescents 15, 50–51, 50
AGEP *see* acute generalised
 exanthematous pustulosis
AIDS 136, 137
alitretinoin 41
allergic contact dermatitis (ACD)
 100, 101
 genital diseases 85
 red face 80–81, 81
 skin breakdown 149
 working hands 103
allergies 14–15
 cutaneous allergy 100–101, 100
alopecia areata 6, 50, 87, 88
anaphylaxis 58, 59, 64
androgenetic alopecia 88
angioedema 58, 59, 64, 104, 105
ankle brachial pressure index (ABPI)
 147, 149
annular urticaria 104
antibiotics 34, 148–149
antifungals 34
antihistamines 143
antivirals 34
AP *see* actinic prurigo
aphthous ulcers 85
apremilast 41
argyria 121
ART *see* active retroviral therapy
arterial ulcer dorsum 148, 149
athlete's foot 72, 73
atopic dermatitis/atopic eczema 47–49,
 47–48, 80, 81, 92
atrophie blanche 147, 148
autoimmune bullous skin diseases
 61, 61
autoimmune disease 133–135, 133–134
axillae 17
axillary hyperhidrosis 24, 25
azathioprine 38, 41
bacterial infections 48, 68–69, 68
BAD *see* British Association of
 Dermatologists
basal cell carcinoma (BCC) 27, 29, 96,
 111, 112–113
basal cell papilloma 108, 110
