Preface to the Eighth Edition	vi	<b>17 Acute lymphoblastic leukaemia</b>	<b>206</b>
Preface to the First Edition	vii	<b>18 The chronic lymphocytic leukaemias</b>	<b>219</b>
How to use your textbook	viii	<b>19 Hodgkin lymphoma</b>	<b>229</b>
About the companion website	x	<b>20 Non-Hodgkin lymphomas</b>	<b>238</b>
<b>1 Haemopoiesis</b>	<b>1</b>	<b>21 Multiple myeloma and related plasma cell neoplasms</b>	<b>255</b>
<b>2 Erythropoiesis and general aspects of anaemia</b>	<b>11</b>	<b>22 Aplastic anaemia and bone marrow failure</b>	<b>272</b>
<b>3 Hypochromic anaemias</b>	<b>27</b>	<b>23 Haemopoietic stem cell transplantation</b>	<b>281</b>
<b>4 Iron overload</b>	<b>42</b>	<b>24 Platelets, blood coagulation and haemostasis</b>	<b>296</b>
<b>5 Megaloblastic anaemias and other macrocytic anaemias</b>	<b>50</b>	<b>25 Bleeding disorders caused by vascular and platelet abnormalities</b>	<b>312</b>
<b>6 Haemolytic anaemias</b>	<b>64</b>	<b>26 Coagulation disorders</b>	<b>324</b>
<b>7 Genetic disorders of haemoglobin</b>	<b>78</b>	<b>27 Thrombosis 1: pathogenesis and diagnosis</b>	<b>338</b>
<b>8 The white cells, part 1: granulocytes, monocytes and their benign disorders</b>	<b>96</b>	<b>28 Thrombosis 2: treatment</b>	<b>347</b>
<b>9 The white cells, part 2: lymphocytes and their benign disorders</b>	<b>111</b>	<b>29 Haematological changes in systemic diseases</b>	<b>360</b>
<b>10 The spleen</b>	<b>126</b>	<b>30 Blood transfusion</b>	<b>372</b>
<b>11 The aetiology and genetics of haematological neoplasia</b>	<b>132</b>	<b>31 Pregnancy and neonatal haematology</b>	<b>386</b>
<b>12 Management of haematological malignancy</b>	<b>147</b>	Appendix	395
<b>13 Acute myeloid leukaemia</b>	<b>158</b>	Index	401
<b>14 Chronic myeloid leukaemia</b>	<b>172</b>		
<b>15 Myeloproliferative neoplasms</b>	<b>182</b>		
<b>16 Myelodysplastic syndromes</b>	<b>196</b>
