

CONTENTS

OPENING SESSION	1
F. Ghiretti Homage to René Lontie	3
HEMERYTHRINS	7
D.M. Kurtz Structure, function and oxidation levels of hemerythrin	9
STRUCTURE AND FUNCTION OF INVERTEBRATE HEMOGLOBINS	23
S.N. Vinogradov The dissociation of the extracellular hemoglobin of <u>Lumbricus terrestris</u> : A model of its subunit structure	25
Y. Tsfadia, E. Daniel Subunit structure of earthworm erythrocrucorin	37
F. Shishikura, M.G. Mainwaring, E.C. Yurewicz, J.J. Lightbody, D.A. Walz, S.N. Vinogradov Characterization of trimeric hemoglobin component from the earthworm, <u>Lumbricus terrestris</u>	41
A. Ghiretti Magaldi, F. Ghiretti, G. Tognon, G. Zanotti The structure of the extracellular hemoglobin of annelids	45
A. Ghiretti Magaldi, G. Tognon <u>Ophelia bicornis</u> erythrocrucorin. Some peculiar features	53
I. Pilz, M. Theuer, P. Wilhelm, E. Schwarz Structure of annelid hemoglobins - small angle X-ray studies	57
M. Zagra, V. Mezzasalma, B. Salvato Structural analogies in annelid erythrocrucorins	61
V. Mezzasalma, M. Zagra, L. Di Stefano, B. Salvato Role of SH-groups and S-S bridges in the main subunit (1/12 molecule) of <u>Spirographis</u> <u>spallanzanii</u> chlorocruorin	65
T. Suzuki, T. Gotoh Subunit structure and amino acid sequence of the extracellular hemoglobin from the polychaete <u>Tylorrhynchus heterochaetus</u>	69

J. Sgouros, T. Kleinschmidt, G. Braunitzer A preliminary study of the hemoglobin of <u>Arenicola marina</u>	73
K. Fushitani, K. Imai, A.F. Riggs Oxygen equilibria of whole molecules, isolated subunits and the subunit trimer of hemoglobin from <u>Lumbricus terrestris</u>	77
L. Moens, M.L. Van Hauwaert, D. Geelen, G. Verpooten, J. Van Beeumen The amino acid sequence of a structural unit isolated from the high molecular weight globin chains of <u>Artemia</u> sp.	81
E. Chiancone, F. Ascoli, B. Giardina, R. Santucci, P. Vecchini, D. Verzili Quaternary structure and modulation of function in earthworm erythrocrurin	85
Y. Igarashi, K. Kimura, A. Kajita Calcium dependent allosteric modulation and assembly of the giant hemoglobin from the earthworm, <u>Eisenia foetida</u>	89
E. Ilan, I. Hammel, M.M. David, E. Daniel Quaternary structure of erythrocrurin from the aquatic snail <u>Helisoma trivolvis</u>	93
D. Verzili, G. Citro, F. Ascoli, E. Chiancone Immunochemical properties of molluscan hemoglobins	97
C. Spagnuolo, A. Desideri, E. Chiancone, F. Ascoli Studies of the heme environment in molluscan hemoglobins by EPR	101
F. Ascoli, D. Verzili, E. Chiancone The cooperative dimeric hemoglobin from the mollusc <u>Scapharca inaequalvis</u> : structural and functional characterization	107
W.E. Royer, W.E. Love The low resolution structures of the cooperative hemoglobins from the blood clam <u>Scapharca</u> <u>inaequalvis</u>	111
H. Furuta, A. Kajita Structure and function of the dimeric and tetrameric hemoglobins from the bivalve mollusc, <u>Anadara broughtonii</u>	117
L. Cordone, L. Di Stefano, G.C. Russo Cosolvent effects on hemoproteins' oxygen uptake and equilibria	121
R.C. Terwilliger, N.B. Terwilliger, E. Schabtach Hemoglobin from the parasitic barnacle, <u>Briarosaccus callosus</u>	125
A.J. Arp Sulfide-binding by an extracellular hemoglobin	129

STRUCTURE OF ARTHROPODAN HEMOCYANINS

133

A. Volbeda, W.G.J. Hol

Three-dimensional structure of haemocyanins from
the spiny lobster Panulirus interruptus, at
3.2 Å resolution

135

H.J. Bak, N.M. Soeter, J.M. Vereijken, P.A. Jekel,
B. Neuteboom, J.J. Beintema

Primary structure of the a chain of Panulirus
interruptus hemocyanin

149

N.M. Soeter, J.J. Beintema, P.A. Jekel, H.J. Bak,
J.M. Vereijken, B. Neuteboom

Subunits a, b and c of Panulirus interruptus
hemocyanin and evolution of arthropod hemocyanins

153

N.M. Soeter, P.A. Jekel, J.J. Beintema

Primary structure of subunit b of Panulirus
interruptus hemocyanin

165

B. Neuteboom, G.J.J. Beukeveld, J.J. Beintema

Amino acid sequence studies on the c chain of
Panulirus interruptus hemocyanin

169

H.-J. Schneider, W. Voll, L. Lehmann, R. Grißhammer,
A. Goettgens, B. Linzen

Partial amino acid sequence of crayfish (Astacus
leptodactylus) hemocyanin

173

W. Schartau, W. Metzger, P. Sonner, W. Pysny

Hemocyanin of the spider Eurypelma californicum:
amino acid sequence of subunit a and of the
smaller CB-peptides of subunits b and c

177

J.N. Lamy, J. Lamy, P. Billiald, P.-Y. Sizaret,
J.C. Taveau, N. Boisset, J. Frank, G. Motta

Mapping of antigenic determinants in
Androctonus australis hemocyanin:
preliminary results

185

P. Reisinger

Circular dichroism spectra of native 37 S
hemocyanin from the spider Eurypelma
californicum and its subunits

203

G.B. Treacy, P.D. Jeffrey

Subunit heterogeneity and aggregate
formation in Cherax destructor and Jasus sp.
hemocyanins

207

W. Stöcker, U. Raeder, M.M.C. Bijlholt, W.G. Schutter,
T. Wichertjes, J. Markl

On the role of individual subunits in the
quaternary structure of crustacean hemocyanins

213

W.G. Schutter, W. Keegstra, F. Booy, J. Haker,
E.F.J. van Bruggen

STEM and cryo-TEM of Limulus and Kelletia
hemocyanin

217

SUBUNIT STRUCTURE OF MOLLUSCAN HEMOCYANINS	221
C. Gielens, C. Benoy, G. Préaux, R. Lontie Presence of only seven functional units in the polypeptide chain of the haemocyanin of the cephalopod <u>Octopus vulgaris</u>	223
T. Wichertjes, C. Gielens, W.G. Schutter, G. Préaux, R. Lontie, E.F.J. van Bruggen Immuno-EM of <u>Sepia officinalis</u> hemocyanin	227
J. Lamy, J.N. Lamy, M. Leclerc, S. Compin, K.I. Miller, K.E. van Holde Preliminary results on the structure of <u>Octopus dofleini</u> hemocyanin	231
F. Richelli, B. Filippi, S. Gobbo, E. Simoni, L. Tallandini, P. Zatta Functional and structural properties of the 50,000 D subunit of <u>Octopus vulgaris</u> hemocyanin	235
M. Brenowitz, K. Munger, C. Bonaventura, J. Bonaventura Immunochemical relationships and subunit composition of selected molluscan hemocyanins	241
K.E. van Holde, K.I. Miller Kinetics and equilibria of <u>Octopus</u> hemocyanin association	245
I. Avissar, E. Daniel, D. Banin, E. Ilan Subunit structure of hemocyanin from the gastropod <u>Levantina hierosolima</u>	249
EVOLUTION OF HEMOCYANINS	253
R. Drexel, H.-J. Schneider, S. Sigmund, B. Linzen, C. Gielens, R. Lontie, G. Préaux, F. Lottspeich, A. Henschen Partial primary structure of the <u>Helix pomatia</u> B_c -hemocyanin functional unit <u>d</u>	255
T. Takagi Amino acid sequence of the C-terminal domain of octopus (<u>Paroctopus dofleini dofleini</u>) hemocyanin	259
R. Drexel, T. Takagi, B. Linzen Sequence homologies of <u>Paroctopus dofleini</u> and <u>Helix pomatia</u> hemocyanin	263
M. Huber, K. Lerch Active-site and protein structure of tyrosinase: comparison to hemocyanin	265
C.P. Mangum, G. Godette The hemocyanin of the uniramous arthropods	277

J. Markl, W. Stöcker, R. Runzler, E. Precht Immunological correspondences between the hemocyanin subunits of 86 arthropods: evolution of a multigene protein family	281
H. Sugita Divergence pattern of horseshoe crabs: immunological constitution and immunological distance of the Asian horseshoe crab's hemocyanins	293
PHYSIOLOGICAL ROLE AND MODULATION OF HEMOCYANIN FUNCTION	297
B. McMahon Oxygen binding by hemocyanin: compensation during activity and environmental change	299
R. Paul Gas exchange and gas transport in the tarantula <u>Eurypelma californicum</u> - an overview	321
T. Fincke, K. Tiling, R. Paul, B. Linzen Relations between respiration and circulation in the tarantula, <u>Eurypelma californicum</u>	327
N.B. Terwilliger, R.C. Terwilliger, R. Graham Crab hemocyanin function changes during development	333
B. Giardina, M. Corda, M.G. Pellegrini, A. Bellelli, A. Cau, S.G. Condo, M. Brunori Sexual and seasonal changes of Hc from <u>Palinurus elephas</u>	337
C.R. Bridges, S. Morris Modulation of haemocyanin oxygen affinity by L-lactate - a role for other cofactors	341
S. Morris, C.R. Bridges Novel non-lactate cofactors of haemocyanin oxygen affinity in crustaceans	353
G. Menestrina, C. Porcelluzzi, R. Antolini The effects of different cations on the electrical properties of the channel formed by <u>Megathura crenulata</u> hemocyanin	357
F. Pasquali, G. Menestrina, R. Antolini Electrical properties of ionic channels formed by <u>Helix pomatia</u> hemocyanin in planar lipid bilayers	361

ALLOSTERIC INTERACTION - THEORIES AND EXPERIMENTS

365

- K. Imai, S. Yoshikawa, K. Fushitani, H. Takizawa,
T. Handa, H. Kihara
Inference of allosteric unit in chlorocruorin,
erythrocruorin, and hemerythrin on the basis of
the Monod-Wyman-Changeux model 367
- M. Coletta, E. Di Cera, M. Brunori
A cooperative model for ligand binding as
applied to oxygen carriers 375
- H. Decker, C.H. Robert, S.J. Gill
Nesting - an extension of the allosteric model
and its application to tarantula hemocyanin 383
- A. Parody-Morreale, C.H. Robert, G.A. Bishop,
S.J. Gill
Calorimetric analysis of oxygen binding to
lobster hemocyanin 389
- H. Decker, B. Richey, S.J. Gill
Structural and functional studies on the
hemocyanin of the mangrove crab (Scylla serrata) 395
- A. Savel, J. Markl, B. Linzen
The spatial range of allosteric interaction in
a 24-meric arthropod hemocyanin 399
- J. Markl, A. Savel, B. Knabe, H. Storz, T. Krabbe,
S. Abel, B. Markl
Mercury ions - a tool to study the specific role
of individual subunits in the allosteric
interaction of arthropod hemocyanins 403
- R.W. Topham, S. Tesh, C. Bonaventura, J. Bonaventura
Active-site heterogeneity as revealed by peroxide
and mercury: interactions with purified subunits
of Limulus hemocyanin 407
- K.I. Miller, K.E. van Holde
Oxygen-linked dissociation and oxygen binding
by subunits of Octopus dofleini hemocyanin 417
- L. Zolla, P. Thyberg, R. Rigler, M. Brunori
Conformational differences between oxy- and
deoxy-hemocyanin 421
- T. Leidescher, B. Linzen
Detection of conformational changes in
tarantula (Eurypelma californicum) hemocyanin
by means of fluorescent probes 425
- M. Beltramini, A. Piazzesi, M. Alviggi,
F. Ricchelli, B. Salvato
Effects of solvent composition on hemocyanin
conformation 429

THE ACTIVE SITE OF HEMOCYANINS

435

M. Beltramini, A. Piazzesi, M. Alviggi,

F. Ricchelli, B. Salvato

Half-apo derivatives of hemocyanins

437

B. Salvato, M. Beltramini, A. Piazzesi,

M. Alviggi, F. Ricchelli

Spectroscopic characterization of a Co(II)
derivative of Carcinus maenas hemocyanin

441

R. Witters, D. Van Hoof, W. Deleersnijder,

J.-P. Tahon, R. Lontie

Preparation of a methaemocyanin of Astacus
leptodactylus regenerable with hydroxylamine

445

R. Witters, W. Deleersnijder, J.-P. Tahon,

R. Lontie

Binuclear electron-paramagnetic-resonance
signals of arthropodan methaemocyanins in
the presence of nitrite

449

B. Salvato, G.M. Giacometti, M. Alviggi,

G. Giacometti

EPR observations on the reaction of hemocyanin
with azide

453

B. Salvato, G.M. Giacometti, M. Alviggi,

G. Giacometti

The reaction of hemocyanin from Octopus vulgaris
with nitrite. A reinterpretation of the
oxidation pathways

457

S.M. Wang, M.N. Chen, J.R. Tzou, N.C. Li

Achatina fulica hemocyanin and a dicopper
oxygen carrier as model

463

HEMOGLOBINS AND HEMOCYANINS: STUDIES AT THE LEVELS
OF DNA AND RNA, AND BIOSYNTHESIS

467

S.M. Jhiang, J.R. Garey, A.F. Riggs

Identification of mRNA coding for globin in the
chloragogen cells of Lumbricus terrestris

469

A.F. Riggs, C.K. Riggs, R.-J. Lin, H. Domdey

Cloning of the cDNA for the globin from the
clam, Barbatia reeveana

473

J.R. Garey, A.F. Riggs

Identification of a cDNA transcript containing
the coding region for F-I globin from Urechis
caupo

477

I. Avissar, V. Daniel, E. Daniel

A comparative study of arthropod and mollusc
hemocyanin mRNA

481

G. Préaux, A. Vandamme, B. de Béthune, M.-P. Jacobs, R. Lontie Haemocyanin-mRNA-rich fractions of cephalopodan decabrachia and of crustacea, their in vivo and in vitro translation	485
B. Kempter Intracellular hemocyanin and site of biosynthesis in the spider <u>Eurypelma</u> <u>californicum</u>	489
R. Voit, H.-J. Schneider Cloning and sequencing of <u>Eurypelma</u> <u>californicum</u> hemocyanin cDNA	495
CONCLUDING REMARKS	499
R. Lontie Conclusions	501
AUTHOR INDEX	505
SUBJECT INDEX	509
