

INTRODUCTION	1
Chapter I. PRELIMINARIES	
§I.1. Semialgebraic sets	6
§I.2. Definitions and remarks	9
§I.3. C^r Nash vector bundles	17
§I.4. Theorems of Mostowski	34
§I.5. Review of some theorems of algebraic geometry	39
§I.6. C^ω Nash functions and sheaves	50
Chapter II. APPROXIMATION THEOREM	
§II.1. Topology on $N^r(M)$	79
§II.2. Partition of unity	91
§II.3. Minimal polynomials	109
§II.4. Approximation theorem	122
§II.5. Extension theorems	127
§II.6. Transversal Nash maps	135
Chapter III. AFFINE C^r NASH MANIFOLDS	
§III.1. Affine C^ω Nash structures on C^r Nash manifolds	142
§III.2. Affine C^r Nash structures on vector bundles	148
Chapter IV. NONAFFINE C^ω NASH MANIFOLDS	
§IV.1. Nonaffine C^ω Nash manifolds	155
§IV.2. Proof of Theorem IV.1.3 and remarks	158
Chapter V. C^0 NASH MANIFOLDS	
§V.1. Piecewise linear topology	175
§V.2. Compactification of C^0 Nash manifolds	181
§V.3. C^0 Nash vector bundles	186
Chapter VI. AFFINE C^ω NASH MANIFOLDS	
§VI.1. C^r equivalence of C^r Nash functions	189
§VI.2. Compactification of affine C^ω Nash manifolds	198
§VI.3. Affine C^ω Nash fibre bundles	211
