

Table of Contents

Epidemiology

Geographic Epidemiology of Colorectal Cancer: The Role of Dietary Fat
(G. N. Stemmermann, Honolulu) 3

Genetic Predisposition to Colorectal Cancer (D. G. Harnden, Manchester) . . 24

Acquired Conditions of Increased Risk of Colorectal Cancer
(R. R. Frentzel-Beyme, Heidelberg) 44

Inflammatory Bowel Disease and Colorectal Cancer
(A. J. Greenstein and D. B. Sachar, New York) 61

Biomarkers in the Identification of High-Risk Groups
(M. Lipkin, New York) 73

Dietary Factors in the Pathophysiology of Colorectal Cancer

Dietary Fat and Colorectal Cancer: Experimental Evidence for
Tumor Promotion (P. M. Newberne, Boston and S. Sahaphong, Bangkok) . . 89

Cholesterol, Neutral Sterols and Colorectal Cancer (J. P. Cruse, London) . . 112

The Role of Bile Acids in Colorectal Carcinogenesis
(B. I. Cohen and E. E. Deschner, New York) 125

Dietary Fibers, Fiber-Containing Foods, and Colon Cancer Risk
(L. R. Jacobs, Los Angeles) 139

Colorectal Bacteria in Colorectal Carcinogenesis (M. J. Hill, Salisbury) 160

Ethanol and Colorectal Carcinogenesis
(H. K. Seitz and U. A. Simanowski, Heidelberg) 177

Pathophysiologic Mechanisms in Colorectal Carcinogenesis

Environmental and Dietary Carcinogens Possibly Related
to Colorectal Cancer (M. J. Wargovich and P. J. Hu, Houston) 193

Experimental Models of Colorectal Carcinogenesis (S. R. Hamilton, Baltimore)	203
Colonic Microsomal Enzymes and Their Role in Colorectal Carcinogenesis (H. W. Strobel, D. K. Hammond, and T. B. White, Houston)	217
Mucosal Cellular Regeneration in Colorectal Carcinogenesis (U. A. Simanowski, Heidelberg, N. A. Wright, London, and H. K. Seitz, Heidelberg)	225
The Control of Cell Proliferation in Colonic Epithelium (N. A. Wright, London)	237
Arachidonic Acid Metabolism and Colorectal Cancer (F. R. DeRubertis and P. A. Craven, Pittsburgh)	244
Biochemical Changes in Colorectal Carcinogenesis (N. W. Toribara, S. B. Ho, R. S. Bresalier, and Y. S. Kim, San Francisco) ...	256
Inhibitors of Colorectal Carcinogenesis: Experimental and Therapeutic Aspects (N. D. Nigro and A. W. Bull Jr., Detroit)	289
Oncogenes in Colorectal Cancer (N. James and K. Sikora, London)	300

Morphology of Colorectal Cancer

Histogenesis of Colorectal Carcinoma (K. C. Liu, N. A. Wright, London) ..	313
Cell Differentiation in Colorectal Carcinoma (S. C. Kirkland, London)	322

Attempts for Diagnostic and Therapeutic Approaches

Immunoassay for Fecal Occult Blood and Early Detection of Colorectal Cancer (H. Schmidt-Gayk, Heidelberg)	333
Experimental Models to Study New Chemotherapeutic Agents in Colorectal Cancer (F. T. Garzon, M. R. Berger, and D. Schmähl, Heidelberg)	349

Recommendation

Dietary Prevention of Colorectal Cancer (J. H. Weisburger, Valhalla)	361
