

## ERRATA

Author's note: Despite our best efforts, *Nanophysics of Solar and Renewable Energy* is not free of errors. Below, we correct one that we found. We will be grateful to readers who bring additional errors to our attention (via Wiley-VCH).

Interchanged images for Figs. 2.1 (p. 31) and 2.2 (p. 36.). In text p. 31, text and caption both cite Fig. 2.1 as electron diffraction, but the image says "Total Internal Reflection". The electron diffraction image is given in Fig. 2.2 top of p. 36. The caption on p. 36 describes total internal reflection. The image that appears on top of p. 36 should appear on top of p. 31, and vice-versa.
