

The grid consists of 8 rows and 3 columns. Each row contains a multiplication problem in the center, flanked by pig illustrations. The left pig has a star on its head, and the right pig has a star on its back. The central pig is split vertically, with a star on its head and a star on its back. The grid is divided into four 4x2 sections by dashed lines. Arrows point from the top-left and bottom-right corners towards the center.
