

Contents

1. Elementary Particles	1
1.1 Fundamental Interactions	1
1.2 Quantum Numbers of Elementary Particles	5
1.2.1 Spin	5
1.2.2 Isospin	6
1.2.3 Strangeness	8
1.2.4 Color	9
1.3 Basics of Classification of Elementary Particles	11
1.4 How Elementary Particles Interact	12
1.5 Unified Field Theories	14
1.5.1 The Universal Constant	15
1.5.2 Unified Symmetry	18
1.6 Proton Decay	21
2. The Universe	27
2.1 A Bit of History	27
2.2 Friedmann's Model of the Universe	30
2.3 Evolution of the Universe: A Quantitative Analysis	31
2.4 The Universe: Open or Closed?	35
2.5 A Hot Universe	36
2.6 Baryonic Asymmetry of the Universe	39
2.7 Cosmologic Nucleosynthesis of Helium	44
2.8 The Origin of Galaxies	48
2.9 Stars	53
2.9.1 Classification of Stars	53
2.9.2 Biography of a Star	56
3. The Universe and the Elementary Particles	61
3.1 On the Relation between the Characteristic of Stars and of the Elementary Particles	61
3.1.1 Stars and Planets: A Distinction	61

3.1.2	Stellar Parameters: A Quantitative Evaluation	62
3.2	Structure of the Universe and the Mass of the Elementary Particles	66
3.2.1	The Mass of the Electron	67
3.2.2	The Mass of the Nucleon	70
3.3	Structure of the Universe and the Fundamental Interaction Constants	72
3.3.1	The Strong Interaction	72
3.3.2	The Electromagnetic Interaction	74
3.3.3	The Weak Interaction	76
3.3.4	The Gravitational Interaction	77
3.4	The Dimension of Space	79
3.5	Structure of the Universe and Quantum Numbers of Elementary Particles	82
3.6	The Anthropic Principle	83
3.7	On the Numerical Values of the Fundamental Constants ...	85
3.8	Conclusion	88
3.8.1	Defining the Words "Universe" and "Metagalaxy" ...	88
3.8.2	Metagalaxy Formation	90
4.	The Beginning and End of the Metagalaxy	97
4.1	Updating our Knowledge of the Metagalaxy	97
4.2	Describing the Metagalaxy	97
4.3	The Universality of the Physical Laws	98
4.4	The Very Beginning	99
4.5	Models of the Metagalaxy	100
4.6	The Friedmann Model	103
4.6.1	The Long Way to Recognition	103
4.6.2	Difficulties	105
4.7	The Physical Vacuum	107
4.8	The de Sitter Model: The Beginning of the Metagalaxy ...	110
4.9	The Structure of the Metagalaxy and the Fundamental Constants	113
4.10	The Metagalaxy as a Fluctuation	115
4.11	The Anthropic Principle	117
4.11.1	Definition	117
4.11.2	Applications	118
4.12	The Birth of the Metagalaxy and of Metagalaxies	120
4.12.1	Progress in Cosmology Brings Understanding	122
4.13	Future of the Metagalaxy	124
4.13.1	Open Metagalaxy	125
4.13.2	Closed Metagalaxy	128
