Nomenclature	XV
1 Introduction	1
1.1 Motivation	1
1.2 Literature overview	3
1.2.1 Brake squeal	4
1.2.2 Conductor galloping	5
1.3 Research objectives	7
1.4 Outline	8
2 Theoretical framework	9
2.1 Dynamics of mechanical systems	9
2.2 Stability of mechanical systems	13
2.2.1 Qualitative measures	13
2.2.2 Quantitative measures	18
2.3 Damping mechanisms and modeling	20
2.3.1 Viscous damping	20
2.3.2 Material damping	23
2.3.3 Friction damping	26
2.4 Damping optimization	28

3	Stability of a two degree of freedom MDGKN-system	33
3.1	Derivation of the stability boundary	33
3.2	Influence of velocity proportional terms	36
3.2.1	General observations	36
3.2.2	Infinitesimally small damping	39
3.2.3	Incomplete damping	41
3.2.4	Indefinite damping	43
3.3	Optimum damping	46
3.4	Discussion	48
4	Optimum damping in disc brake systems	51
4.1	Two degree of freedom minimal model	51
4.1.1	Modeling	51
4.1.2	Equations of motion	52
4.1.3	Stability behavior	55
4.1.4	Optimization approach	57
4.1.5	Optimization results	58
4.2	Eight degree of freedom minimal model	62
4.2.1	Modeling	62
4.2.2	Equations of motion	63
4.2.3	Stability behavior	67
4.2.4	Optimization approach	69
4.2.5	Optimization results	71
4.3	High-dimensional finite element models	76
4.3.1	Modeling	76
4.3.2	Equations of motion	77
4.3.3	Convergence study	80
4.3.4	Optimization approach	82
4.3.5	Optimization results	84
4.4	Discussion	93

5	Optimum damping in systems with taut strings	97
5.1	Single cable with internal and external damping	97
5.1.1	Modeling	97
5.1.2	Equations of motion	98
5.1.3	Optimization approach	100
5.1.4	Optimization results	102
5.2	Bundled cables with multiple self-damping spacers	104
5.2.1	Modeling	104
5.2.2	Equations of motion	106
5.2.3	General observations	107
5.2.4	Optimization approach	109
5.2.5	Optimization results	110
5.3	Discussion	113
6	Conclusion	115
	Bibliography	119
	Appendix	137
A.1	Damping matrix of brake model with eight degrees of freedom .	137
A.2	Damping matrix of single cable with internal and external en- ergy sinks	138
A.3	System matrices of bundled cables with multiple spacer dampers	138
A.3.1	Mass matrix	138
A.3.2	Stiffness matrix	139
A.3.3	Damping matrix	140
