<b>Semiotic evolution and the dynamics of culture: Introduction</b>	vii
---	-----

<b>List of Contributors</b>	xv
-----------------------------	----

## **Part One Theoretical Perspectives**

1. A bandwidth model of semiotic evolution <i>Barend van Heusden</i>	3
2. Evolution of culture and the history of the media <i>Guido Ipsen</i>	35
3. The evolution of semiosis dynamics <i>Edwina Taborsky</i>	53
4. Semiosis as evolution in the development of mind and culture: Computer science as technical semiotics <i>Dirk Siefkes</i>	69
5. Dealing with the diversity of sign systems in human culture <i>Martina Plümacher</i>	89

## **Part Two Semiolinguistic Patterns**

6. Semiotic questions raised by the evolution of talk and the emergence of complex society <i>J. Raymond Zimmer</i>	105
7. The Paleolithic origins of art, its dynamic and topological aspects, and the transition to writing <i>Wolfgang Wildgen</i>	117

8. Out of ritual. A semiolinguistic account of the origin  
and development of indirect language behavior  
*Marcel Bax* 155
9. From alchemy to chemistry. A chapter in the evolution  
of chemical symbol systems  
*Valérie Bonnet* 215

### **Part Three Cultural Analysis**

10. Mythic–religious–esthetic.  
Experiencing Bellini's *Brera-Pietà*  
*Bernhard Ridderbos* 231
11. (Re)construction of the past as constitution of the present:  
The representation of francoism in Spain, 2000  
*Anne Magnussen* 247
12. License to kill. Epistemological frames and  
animal consciousness  
*Elizabeth J. Brouwer* 267
13. Culture is/as code? Semiotic and systemic perspectives  
*Michael Boyden* 289

### **Controversial issues in evolutionary semiotics: Epilogue**

- Marcel Bax and Barend van Heusden* 303
