

Table of Contents

I. Biological Behaviour of Human Tumours Transplanted in Mice and the Evaluation of Therapeutic Response

The Therapeutic Response of a Variety of Human Tumour Xenografts G. G. STEEL and M. J. PECKHAM	3
Biology of Human Ovarian Cancer Xenografts E. BOVEN	11
Representativity of Xenografts for Clinical Cancer. Tumor and Host Characteristics as Variables of Tumor Take Rate Ø. FODSTAD	15

II. Prediction of Tumour Response for the Individual Patient by the Human Tumour Xenograft

Comparison of Tumor Response in Nude Mice and in Patients H. H. FIEBIG	25
---	----

III. Prediction of Antitumour Activity per Tumour Type by the Human Tumour Xenograft

Conventional Agents in Human Ovarian Cancer Xenografts E. BOVEN	33
Activity of Conventional Drugs in Head and Neck Cancer Xenografts B. J. M. BRAAKHUIS and G. B. SNOW	37
Preclinical Drug Evaluation with Human Melanoma Xenografts R. OSIEKA	41
Lung Xenografts as a Predictive Screen for Antineoplastic Agents J. MATTERN, K. WAYSS, and M. VOLM	47
Chemotherapy Studies in Human Non-Small Cell Lung Cancer Xenografts Transplanted in Immune-Deprived Mice J. CARMICHAEL and J. F. SMYTH	51
Establishment and Response to Chemotherapy of Human Cervical Carcinoma Xenografts L. R. KELLAND and K. S. TONKIN	57

The Usefulness of the Nude Mouse Model for Predicting the Chemosensitivity of Human Tumors. Studies in Malignant Melanoma Ø. FODSTAD, S. AAMDAL, and A. PIHL	63
 IV. Preclinical Evaluation of Analogs of Known Anticancer Agents	
Screening of Analogs in Human Ovarian Cancer Xenografts E. BOVEN	71
Predictability of Clinical Response of Several Human and Murine Tumor Models to Four Anthracycline Derivatives G. PEZZONI and F. C. GIULIANI	75
 V. New Drugs	
Activity of Six New Drugs in Head and Neck Cancer Xenografts B. J. M. BRAAKHUIS, A. LEYVA, H. M. PINEDO, and G. B. SNOW	81
Activity of Metallocene Complexes Against Human Tumours Heterotransplanted into Athymic Mice P. KOEPF-MAIER	85
 VI. Human Tumour Xenografts in the Development of Biological Response Modifiers	
The Effect of Human and Murine Interferons on Human Tumour Xenografts F. R. BALKWILL	91
Biodistribution and Therapeutic Efficacy of a Monoclonal Antibody-Methotrexate Conjugate in Mice M. V. PIMM, J. A. CLEGG, M. C. GARNETT, and R. W. BALDWIN	95
The Effect of Interferon-Alpha on the Activity of Cytotoxic Drugs in Bronchial Carcinoma Xenografts R. J. FERGUSON and J. F. SMYTH	99
The Nude Mouse for the Study of Immunotoxins H. E. BLYTHMAN, A. BORD, I. BUISSON, O. THURNEYSEN, G. RICHER, and F. K. JANSEN	103
 VII. Human Tumour Xenografts in Drug Screening	
Proposal for the Application of Xenografts in Screening for New Anticancer Agents and in Selecting Tumor Types for Phase II Clinical Trials B. WINOGRAD, M. W. LOBBEZOO, and H. M. PINEDO	111
Human Tumour Xenograft Models for Use with an In Vitro-Based, Disease-Oriented Antitumour Drug Screening Program R. H. SHOEMAKER, T. L. MCLEMORE, B. J. ABBOTT, D. L. FINE, E. GORELIK, J. G. MAYO, Ø. FODSTAD, and M. R. BOYD	115

VIII. Importance of Drug Resistance in Screening

Mechanisms of Drug Resistance in Screening B. W. FOX	123
Circumvention of Inherent Resistance with Verapamil in a Human Tumour Xenograft S. MERRY, D. CUNNINGHAM, E. R. COURTNEY, T. HAMILTON, S. B. KAYE, and R. I. FRESHNEY	127

IX. Proferred Papers at the E.S.O. Seminar

Clonogenic Assay Screening Study Group (CASSG): Contribution to an EORTC Drug Screening Programme M. S. AAPRO	133
Polyamine Uptake by Malignant Brain Tumour Xenografts in Nude Mice F. DARCEL, M. CHATEL, V. QUEMENER, and J. Ph. MOULINOX	134
The Activity for a Novel Niteosourea (TCNU) in Human Lung Cancer Xenografts R. J. FERGUSSON, L. E. ANDERSON, and J. F. SMYTH	135
Xenografts in Pharmacologically Immunosuppressed Mice as a Model to Test the Chemotherapeutic Sensitivity of Human Tumours G. L. FLOERSHEIM, A. BIERI, and N. CHIODETTI	135
New Tissue-Specific Metastasis Models in Adult Nude Mice Ø. FODSTAD, S. AAMDAL, R. H. SHOEMAKER, and A. PIHL	136
Fractionated Irradiation of Human Tumor Xenografts in Athymic Nude Mice W. HINKELBEIN, A. WUERDINGER, E. WALLBRECHER, and H. H. FIEBIG	137
An Animal Model for Human Tumor Xenografts J. HOOGENHOUT, C. R. JERUSALEM, J. J. M. VAN GASTEREN, and H. B. KAL	137
Xenografted Human Tumors in Preclinical Drug Design L. KOPPER, P. NAGY, J. RAJNAY, and K. LAPIS	138
Growth in Nude Mice of a T-Cell Line from a Case of Acute Lymphoblastic Leukaemia: A Model for Experimental Immunotherapy of Human Neoplasia M. G. MARTINOTTI, R. ARIONE, and G. FORNI	139
5-Fluorouracil (5-FU) + Cis-diamminedichloroplatinum (DDP) Treatment of Human Colorectal Tumor Xenografts G. PRATESI, M. TORTORETO, and G. PARMIANI	140
Inter and Intra-Tumor Variation in the Response to Chemotherapy of Human Small Cell Carcinoma of the Lung (SCCL) Grown in Nude Mice M. SPANG-THOMSEN and S. A. ENGELHOLM	141
Human Carcinoma Cell Lines Xenografted in Athymic Mice: Biological and Antigenic Characterization of an Intra-Abdominal Model E. TAGLIABUE, S. CANEVARI, S. MENARD, D. MEZZANZANICA, R. ORLANDI, M. RIPAMONTI, and M. I. COLNAGHI	141

XIV Table of Contents

Squamous Cell Carcinoma Xenografts as a Model for the Study of Drug-Induced
Cell Kinetic Changes in Head and Neck Cancer

J. WENNERBERG	142
