Preface to the Third English Edition V

Preface to the First English Edition VI

Technical Introduction 1

 Preparation of a Buffy Coat (Leukocyte Concentrate) Smear 3

Significant Intracellular Structures of a Nucleated Blood-Forming Cell 5

Normal Morphology of Blood and Bone Marrow Cells 7

 Erythropoiesis 8

 Cells in the Development of Erythrocytes in Bone Marrow 8

 Basic Rules for Erythropoiesis 12

 Granulopoiesis 12

 Cells in the Development of Granulocytes (Leukocytes) in Bone Marrow 12

 Sex-specific Structures on the Nucleus of Granulocytes 16

 Development of Eosinophilic Granulocytes (Eosinophils) 16

 Development of Basophilic Granulocytes (Basophils) 18

 Development of Monocytes 18

 Basic Rules for Granulopoiesis 20

 Thrombopoiesis 21

 Developmental Series of the Platelet-forming Cell System in Bone Marrow 21

 Basic Rules for Thrombopoiesis 24

 Reticuloendothelial System (RES) (Reticulohistiocytic System [RHS]) and Monocyte-Macrophage System (MMS) 26

 Elements of the RES and MMS in Bone Marrow 26

 Basic Rules for the RES and MMS 28

 Lymphopoiesis 30

 The Cells of Lymphopoiesis 30

 Plasma Cells 32

 Basic Rules for Lymphopoiesis 34

Morphologic Differential Diagnosis of the Most Important Cell Types and Cytochemistry of Normal Blood and Bone Marrow Cells 37

Morphology of Pathologic Changes in Blood and Bone Marrow 43

 Morphologic Changes in Erythropoiesis in Disease 43

 Basic Rules for Erythrocyte Morphology 43

 Iron Storage in Bone Marrow 46

Megaloblastic Erythropoiesis in Pernicious Anemia (Vitamin B ₁₂ or Folate Deficiency)	48
Granulopoiesis and Thrombopoiesis in Megaloblastic (Pernicious) Anemia . .	50
Hemolytic Anemia	52
Advanced Hemolytic Syndrome	54
Sideroachrestic (Sideroblastic) Anemia	55
Myelodysplastic Syndrome	58
Morphologic Changes in Granulopoiesis in Disease	61
Acute Leukemias (AL) and Myeloproliferative Diseases	65
Morphologic Changes in Thrombopoiesis in Disease	78
Morphologic Changes in the Reticuloendothelial System (RES, MMS) in Disease	80
Rare Diseases in Bone Marrow Aspirates	82
Morphologic Changes in Lymphopoiesis in Disease	83
Lymphatic Reactions	83
Non-Hodgkin's Lymphoma	85
Hodgkin's Lymphoma	94
Appendix	99
Carcinoma Cells in Bone Marrow Aspirates	99
Phases of Mitosis in Bone Marrow Aspirates	102
Instructions for the Evaluation of Bone Marrow Aspirates	103
Determination of Cellularity	103
Determination of Qualitative Composition	104
A Technique for Bone Marrow Imprints from a Bone Marrow Aspirate or a Postmortem Special Specimen	107
Cytology and Histology	108
Indications for Use of Cytochemical Procedures	109
Preparation of Special Stains	110
References	117
Index	118
