CONTENTS

PREFACE	V
ACKNOWLEDGEMENTS	VII
BIOFLAVOUR - A CRITICAL VIEW	
F. Drawert Bioflavour - what does it mean ?	3
ANALYTICAL TECHNIQUES	
V. Schurig Enantiomer separation by complexation gas chromatography - applications in chiral analysis of pheromones and flavours	35
A. Mosandl, C. Günther, M. Gessner, W. Deger, G. Singer and G. Heusinger Structure and stereoanalysis of chiral flavour substances	55
K.H. Engel Investigation of chiral compounds in biological systems by chromatographic micromethods	75
G. Krammer, O. Fröhlich and P. Schreier Chirality evaluation of 1,4-deca- and 1,4-dodecanolide in strawberry	89
U. Ravid, E. Putievsky and M. Bassat Determination of the enantiomeric composition of natural and nature-identical semiochemicals by ^1H -NMR "polarimetry"	97
G. Lange and W. Schultze Studies on terpenoid and non-terpenoid esters using chemical ionization mass spectrometry in GC/MS coupling	105
G. Lange and W. Schultze Differentiation of isopulegol isomers by chemical ionization mass spectrometry	115

S. Nitz, H. Kollmannsberger and F. Drawert Analysis of flavours by means of combined cryogenic headspace enrichment and multidimensional GC	123
F. van Wassenhove, P. Dirinck and N. Schamp Analysis of the key components of celery by two dimensional capillary gas chromatography	137
C.Salles, H. Essaied, P. Chalier, J.C. Jallageas and J. Crouzet Evidence and characterization of glycosidically bound volatile components in fruits	145
G. Versini, A. Dalla Serra, M. Dell'Eva, A. Scienza and A. Rapp Evidence of some glycosidically bound new monoterpenes and nor- isoprenoids in grapes	161
BIOCHEMISTRY/BIOMIMETIC STUDIES	
F. Karp and R. Croteau Role of hydroxylases in monoterpene biosynthesis	173
W. Boland Odoriferous polyene hydrocarbons from marine and terrestrial plants	199
R. Tressl, J. Heidlas, W. Albrecht and K.H. Engel Biogenesis of chiral hydroxyacid esters	221
S. Tanaka, T. Yamaura and M. Tabata Localization and photoregulation of monoterpenoid biosynthesis in thyme seedlings	237
C.R. Enzell and I. Wahlberg Cembranoid derived tobacco flavour constituents	243
P. Winterhalter and P. Schreier Studies on C ₁₃ -norisoprenoid precursors	255
T.T. Nguyen, M.M. Palcic and D. Hadziyev Enzymatic formation of nucleotides and the flavour enhancer 5'-GMP during vegetable processing	275

- K. Knobloch, A. Pauli, B. Iberl, N. Weis and H. Weigand
Mode of action of essential oil components on whole cells of
bacteria and fungi in plate tests 287

PLANT CELL/TISSUE CULTURES

- B.V. Charlwood, J.T. Brown, C.Moustou, G.S. Morris
and K.A. Charlwood
The accumulation of isoprenoid flavour compounds in plant
cell cultures 303
- F. Constabel
Cytodifferentiation 315
- H. Sugisawa, K. Miwa, T. Matsuo and H. Tamura
Volatile compounds produced from the cultured cells of thyme
(*Thymus vulgaris*, L.) 327
- J.W. Gramshaw, C.M. Cotton and L.V. Evans
Production of flavour volatiles by callus and suspension cultures of
tarragon (*Artemisia dracunculus*) 341
- F. Cormier and C.B. Do
Selection of monoterpene producing *Mentha piperita* cell lines 357
- I. Koch-Heitzmann and W. Schultze
Compilation of volatile compounds found in plant cell cultures 365

MICROBIOLOGY

- W.R. Abraham, H.A. Arfmann, B. Stumpf, P. Washausen and K. Kieslich
Microbial transformations of some terpenoids and natural compounds 399
- R.G. Berger, F. Drawert and S. Hädrich
Microbial sources of flavour components 415
- P. Brunerie, I. Benda, G. Bock and P. Schreier
Bioconversion of monoterpene alcohols and citral by
Botrytis cinerea 435

A. Rapp and H. Mandery Influence of <i>Botrytis cinerea</i> on the monoterpene fraction of wine aroma	445
L. Janssens, H.L. de Pooter, E.J. Vandamme and N.M. Schamp Biosynthesis of esters by <i>Geotrichum penicillatum</i>	453
A. Latrasse, P. Dameron, M. Hassani and T. Staron An ester producing microorganism: <i>Geotrichum candidum</i> (Staron)	465
K.G. Gupta and R. Singhal Electrochemical conversion of biologically produced diacetyl to acetaldehyde via 2,3-butanediol	473
BIOORGANIC CHEMISTRY/USE OF ENZYMES	
M.P. Schneider and K. Laumen Enzymes in organic synthesis - chiral building blocks from racemic and prochiral substrates	483
C. Triantaphylides, G. Langrand, H. Millet, M.S. Rangheard and G. Buono On the use of lipase specificity. Application to flavour chemistry	531
D. Gerlach, S. Schneider, T. Göllner, K.S. Kim and P. Schreier Screening of lipases for enantiomer resolution of secondary alcohols by esterification in organic medium	543
C. Fuganti and S. Servi Enzyme mediated synthesis of pheromones	555
Author index	571
Subject index	573
