

Contents

PART ONE : THEORETICAL INTRODUCTION	1
The structure and function of Ca^{+2} - and phospholipid-dependent protein kinase (protein kinase C), a trans-membrane signal transducer	
C.W. MAHONEY and A. AZZI	2
Biosynthesis and mode of insertion of a stalked intrinsic membrane protein of the small intestinal brush border	
G. SEMENZA	19
Tools and approaches to study membranes and cell organelles biogenesis	
N. LATRUFFE, A. KANTE, M. CHERKAQUI MALKI, A. BAILLY, P. ADAMI and J.M. BERREZ	41
Fluid-phase endocytosis and lysosomal enzyme excretion two facets of intracellular membrane traffic	
G. KLEIN, M. BOF, C. GONZALEZ and M. SATRE	69
The neutrophil leukocyte. Properties and mechanism of activation	
M. BAGGIOLINI, D.A. DERANLEAU, B. DEWALD, M. THELEN, V. VON TSCHARNER and M.P. WYMAN	83
Monoclonal antibodies for immunoanalysis	
M. DELAAGE and A. MOREL	98

PART TWO : EXPERIMENTAL SECTION	107
Experiment n° 1 : Trans-membrane signaling via protein kinase C and its inhibition by staurosporine	
C.W. MAHONEY, R. LUTHY and A. AZZI	108
Experiment n° 2 : Endocytosis analysis by flow cytofluorometry : study of the endocytosis of fluoresceinylated neoglycoproteins via membrane lectins of tumor cells	
P. MIDOUX, A.C. ROCHE & M. MONSIGNY	123
Experiment n° 3 : Neutrophils. Respiratory burst and exocytosis	
B. DEWALD, J. DOUSSIÈRE, F. MOREL, M. BAGGIOLINI and P.V. VIGNAIS	134
Experiment n°4 : Endocytosis and exocytosis in <u>Dictyostelium amoebae</u>	
G. KLEIN, M. BOF and M. SATRE	154
Experiment n° 5 : Isolation of intact chloroplasts - Criteria of integrity	
R. DOUCE, J. JOYARD and M. NEUBURGER	168
Experiment n° 6 : Methods for the isolation of higher plant vacuoles	
A. PUGIN, A. KURKDJIAN, D. LE QUÔC and K. LE QUÔC	180
Experiment n° 7 : Assay of in vitro microtubule assembly. Effect of microtubule associated proteins	
F. PIROLLET and D. JOB	204
Experiment n° 8 : Histamine release from human basophiles	
A. MOREL and M. DELAAGE	211

Experiment n° 9 : Intracellular Ca^{2+} measurements in intact neutrophils	
S. TREVES, D. MILANI and T. POZZAN	222
Experiment n° 10 : Synthesis and maturation of D-β-hydroxybutyrate dehydrogenase (BDH) from mitochondrial inner membrane	
A. KANTE, J.M. BERREZ and N. LATRUFFE	231
Experiment n° 11 : Electroporabilization and electrofusion of cells	
J. TEISSIE and M.P. ROLS	251
Experiment n° 12 : Use of monoclonal antibody against keratin in immunocytochemical techniques	
B. DE VEYRAC and P. ADAMI	269
