Introduction . . . . .	1
I Instruments and Technique of Investigation. . . . .	3
II Endoscopic Ultrasonography of Normal and Pathologic Upper Gastrointestinal Wall Structure . . . . .	9
III Endoscopic Ultrasonography in Analysing Peri-Intestinal Lymph Node Abnormality . . . . .	16
IV The Role of Endoscopic Ultrasonography in Assessing Local Resectability of Oesophagogastric Malignancies . . . . .	23
V Endoscopic Ultrasonography in Staging Local Resectability of Pancreatic and Periampullary Malignancy . . . . .	33
VI Endoscopic Ultrasonography of Bile Duct Malignancy and the Preoperative Assessment of Local Resectability . . . . .	42
VII Endoscopic Ultrasonography of an Arteriovenous Malformation in a Gastric Polyp . . . . .	50
VIII Endoscopic Ultrasonography of Non-Hodgkin Lymphoma of the Stomach . . . . .	56
IX Comparison of Blind Transrectal Ultrasonography with Endoscopic Transrectal Ultrasonography in Assessing Rectal and Perirectal Diseases . . . . .	66
X Evaluation of Resectability of Gastrointestinal Tumors . . . . .	77
XI Non-Hodgkin Lymphoma of the Stomach: Endosonography versus Computed Tomography, Endoscopy, and Histology . . . . .	93
XII Endoscopic Ultrasonography in the Evaluation of Smooth Muscle Tumors of the Upper Gastrointestinal Tract: A Comparison with Computed Tomography, Endoscopy, and Barium Meal . . . . .	104
Summary . . . . .	117
