

Table of Contents

I. Epidemiology and Natural History

The Etiology, Pathogenesis and Pathophysiology of Dilated
Cardiomyopathies
W. H. ABELMANN 3

Virological, Immunological and Clinical Features of Myocarditis
and Dilated Cardiomyopathy
J. F. GOODWIN 22

Epidemiology and Pathogenicity of Coxsackieviruses
N. R. GRIST 26

Natural History of Acute Viral or Idiopathic Myocarditis:
A Clinical and Endomyocardial Biopsy Follow-up
M. SEKIGUCHI, M. HIROE, S. HIRAMITSU, T. IZUMI 33

Myocarditis in Patients with Dilated Cardiomyopathy —
Correlation with Clinical, Hemodynamic and Biochemical Findings
V. REGITZ, R. STRASSER, G. CHMIELEWSKI, S. BLÜMCKE, E. FLECK . . 51

Coxsackievirus Cardiomyopathy in Animal Models,
Including the Augmenting Effect of Exercise During the Acute Phase
M. P. REYES, A. M. LERNER, R. KHATIB 61

II. Concepts in Viral Pathogenesis

Replication, Molecular Biology, and Pathogenesis of Coxsackieviruses
N. K. CHATTERJEE 73

A Murine Model for Coxsackievirus B3-Induced Acute Myocardial
Necrosis for Study of Cellular Receptors as Determinants of Viral Tropism
R. L. CROWELL, S. D. FINKELSTEIN, K.-H. L. HSU, B. J. LANDAU,
P. STALHANDSKE, P. S. WHITTIER 79

Induction of Soluble Mediators During Coxsackievirus B3 Replication In Vitro and In Vivo C. J. GAUNTT, C. W. LUTTON, G. E. REVTYAK, A. J. VALENTE, A. N. FERNANDES, H. M. ARIZPE, M. M. ROZEK	93
Persistence of Echovirus Type 6 in Cultured Cells V. F. RIGHTLAND	105
Detection and Typing of Enteroviruses by Nucleic Acid Probes and Monoclonal Antibodies T. HYYPIÄ, M. KALLAJOKI, P. AUVINEN	115
Generation of Enterovirus Group-Specific Antisera Using Bacterially Synthesized Coxsackievirus B3 Proteins S. WERNER, H. SCHÖNKE, W. KLUMP, P.-H. HOFSCHEIDER, R. KANDOLF	125
<i>III. Virus and Immunity</i>	
Myocarditis: A Post-infectious Autoimmune Disease N. R. ROSE, N. NEU, D. A. NEUMANN, A. HERSKOWITZ	139
Viral Myocarditis: Immunogenetic and Autoimmune Aspects K. W. BEISEL, M. D. TRAYSTMAN	148
Is Coxsackievirus B3-Induced Myocarditis in A/J Mice Mediated by an Autoimmune Response to Cardiac Myosin? N. NEU, G. KRÖMER, B. PLOIER, N. R. ROSE	160
Virus-Induced Autoimmunity: Cross-Reactivity of Antiviral Antibodies with Self-Components B. S. PRABHAKER, J. SRINIVASAPPA, K. W. BEISEL, A. L. NNOTKINS	168
Immunopathogenic Mechanisms in Experimental Myocarditis: Evidence for Autoimmunity to the Virus Receptor and Antigenic Mimicry Between the Virus and Cardiocyte S. A. HUBER, K. SIMPSON, A. WELLER, M. HERZUM	179
Coxsackie B3 Myocarditis: Genetic Aspects of Different Immunopathogenetic Mechanisms in BALB/c and DBA/2 Mice. Antigenic Specificity of Heart-Reactive Antibodies in DBA/2 Mice M. HERZUM, S. A. HUBER, B. MAISCH	188
Interactions of Group B Coxsackieviruses with Immunocytes P. G. CONALDI, D. MATTEUCCI, E. SOLDAINI, M. GUIDI, M. BENDINELLI	195

Early Cellular Infiltrates in Cocksackievirus B3 Murine Myocarditis
L. H. CHOW, C. J. GAUNTT, B. M. McMANUS 205

IV. Characterization of Autoimmunological Mechanisms

Beta-Adrenoceptor Autoantibodies in Idiopathic Dilated Cardiomyopathy
C. J. LIMAS, C. LIMAS 217

Antibodies Against the ADP/ATP Carrier Crossreact with
the Ca-Channel – Functional and Biochemical Data
G. UULRICH, U. KÜHL, B. MELZNER, I. JANDA, B. SCHÄFER,
H.-P. SCHULTHEISS 225

Antibodies and Autoantibodies against ADP/ATP Carrier
Enhance Calcium Current in Isolated Ventricular Myocytes
M. MORAD, M. NÄBAUER, H.-P. SCHULTHEISS 236

Antibodies Against the ADP/ATP Carrier Alter Myocardial Function
by Disturbing Cellular Energy Metabolism
H.-P. SCHULTHEISS, U. KÜHL, R. SCHAUER, K. SCHULZE,
B. KEMKES, B. F. BECKER 243

The Importance of Humoral and Cellular Immunological Parameters
for the Pathogenesis of Viral Myocarditis
B. MAISCH, M. HERZUM, T. IZUMI, S. NUNODA 259

Characterization of T-Lymphocytes Cultured from
Human Endomyocardial Biopsies
J. T. FALLON, I. STAMENKOVIC, D. M. FRISMAN, C. LEARY,
I. PALACIOS, J. T. KURNICK 274

V. Diagnostic Criteria

The Role of Biopsy in the Diagnosis and Follow-up of Myocarditis.
A Critical Review
E. G. J. OLSEN, B. T. MEANY, P. J. RICHARDSON 285

Impaired Myocardial Ultra-Structure and Cytoskeleton in
Cardiomyopathic Human Myocardium
J. SCHAPER, R. FROEDE, A. BUCK, N. BLEESE 295

Immunofluorescence Microscopy in the Diagnosis and Follow-up
of Patients Suspected of Having Inflammatory Heart Disease
E. H. HAMMOND, R. L. MENLOVE, J. L. ANDERSON 303

Introduction of Major Histocompatibility (MHC) Antigens on Myocardial Cells in Patients with Active Myocarditis and Idiopathic Cardiomyopathy
A. HERSKOWITZ, K. L. BAUGHMAN, N. R. ROSE, D. A. NEUMANN, W. E. BESCHORNER, K. W. SELL, A. AHMED-ANSARI 312

Evaluation of Immunohistological Data for the Diagnosis of Myocarditis
U. KÜHL, M. TOUSSAINT, G. UULRICH, D. WAGNER, P. WOLFF, H.-P. SCHULTHEISS 325

Enteroviral Heart Disease: Diagnosis by In Situ Hybridization
R. KANDOLF, P. KIRSCHNER, D. AMEIS, A. CANU, E. ERDMANN, H.-P. SCHULTHEISS, B. KEMKES, P. H. HOFSCHEIDER 337

Persistence of Enterovirus RNA in Dilated Cardiomyopathy: A Progression from Myocarditis
L. ARCHARD, C. FREEKE, P. RICHARDSON, B. MEANY, E. OLSEN, P. MORGAN-CAPNER, M. ROSE, P. TAYLOR, N. BANNER, M. YACOB, N. BOWLES 349

Diagnosis of Acute Myocarditis with Radiolabeled Monoclonal Antimyosin Antibody: Immunoscintigraphic Evaluation
B. A. KHAW, T. YASUDA, I. F. PALACIOS, J. T. FALLON, G. W. DEC, P. D. NICOL, A. J. FISCHMAN, H. W. STRAUSS, E. HABER 363

**VI. Immuno-Modulating Therapy:
Experimental and Clinical Approaches**

Animal Models for Therapeutic Trials of Viral Myocarditis: Effect of Ribavirin and Alpha Interferon on Coxsackievirus B3 and Encephalomyocarditis Virus Myocarditis
A. MATSUMORI, I. OKADA, C. KAWAI, C. S. CRUMPACKER, W. H. ABELMANN 377

Antiviral Activity of Human Fibroblast Interferon in Coxsackievirus B3-Infected Cultured Human Heart Cells
P. KIRSCHNER, R. KANDOLF, A. CANU, A. HEIM, P. H. HOFSCHEIDER 385

Immunosuppressive Therapy in Myocarditis: Acute Viral Versus Chronic Idiopathic Myocarditis
J. D. HOSENPUD 393

Immunosuppressive Treatment in Myocarditis
F. CAMERINI, A. SALVI, R. BUSSANI, L. DREAS, A. D. LENARDA, E. HROVATIN, G. SINAGRA, F. SILVESTRI 402

The Role of Cardiac Transplantation in Patients with Active Myocarditis
J. B. O'CONNELL, G. W. DEC, J. W. MASON 426

Clinical and Experimental Aspects of Treatment for Viral Myocarditis
C. KAWAI 433

VII. New Aspects of Clinical Management

Alterations of Receptors and of Agonist Effectiveness in Myocardial Failure
E. ERDMANN, M. BÖHM 441

Positive Inotropic Drugs in the Treatment of Chronic Congestive
Heart Failure: A Critical Up-date
W. MOTZ, B. E. STRAUER 449

Effect of ACE-Inhibitors on Myocardial Perfusion
G. ERTL 456

Experimental Evidence for Cardioprotection Afforded by Ramipril,
an Inhibitor of Angiotensin Converting Enzyme
B. F. BECKER, M. HEIER, E. GERLACH 465

Energetic Consequences of Pharmacological Therapy in Patients
with Myocardial Failure
G. HASENFUSS, C. HOLUBARSCH, H. W. HEISS, H. JUST 475

The Effect of ACE Inhibitors on Energy Metabolism in Chronic Heart
Failure – Enzymatic Studies of Myocardial Biopsies
K. SCHULZE, M. SCHINDLER, H.-P. SCHULTHEISS 485

Subject Index 495
