Contents

Part I Risk Management in Sustainable Economy

Research on Recycling Mining System and Its Risk Analysis in Eastern China 3
Lili Bian, Min Zhou, Aibin Li, and Shitong Ge

Information Entropy of a Rainfall Network in China 11
Jiguo Zhang, Huimin Wang, and Vijay P. Singh

Research on Industry-Related and Policy Risk in Provincial Level Based on SAM: Case Study for Yunnan 21
Lu Qicheng and Li Yijia

Pro-poor Growth Measurement: A Survey 29
Shengyun Wang and Shujuan Yu

The Dynamic Economic Equilibrium Model and Uncertainty Applied Study About Forest Resources Sustainable Utilization 39
Wenhui Chen, Junchang Liu, and Aili Yao

Sensitive Analysis of Sustainable Economy Growth Based on Resources Consumption, Technology Progress and Human Capital 51
Zheng-xia He

The Sensitive Analysis of Industry-University Collaboration Mode on Regional Innovation Capacity 59
Hui Yin, Yun Jun, and Fang Xie

Bibliografische Informationen
http://d-nb.info/1009117890

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

Statistical Investigation into the Accelerating Cyclical Dynamics Among Gold, Dollar and U.S. Interest Rate 67
Nan Yang and Jieyi He

An Index Tracking Model: One Application of Integer Programming 77
Dexiang Wu

Part II Risk Management in Engineering Projects

Shallow Groundwater Quality Evaluation in Huaibei Based on the Uncertainty Theory 85
Haifeng Lu and Baoyuan Yuan

The Economic Hazard Analysis of Three Major Regions in China 93
Ma Hailiang and Huang Dechun

Research on Estimation Method of Gross Registered Tonnage of Ships in Grand Canal 101
Xu Peng, Hou Lei, and Wu Zhong

Sensitive Analysis of the Cargo Transported by Ports Contributes to Hinterland Economy Based on Input–Output Model 109
Guiliang Tian, Yi Zhuang, Jianzhong Hu, and Xiujuan Guo

Scenario Construction of Flood Emergency Management in River Basin Based on Scene Perception 119
Gao-feng Liu, Hui-min Wang, and Jin-ping Tong

Multi-objective Optimization and Integration of Port Supply Chain Model 129
Jing Song, Fengping Wu, Dong Xu, and Jiawei Fu

Research on Stadia Operation of Nanjing Summer Youth Olympic Games Based on Fuzzy Clustering 139
Tang Peng, Pan Rong, and Jiayi Liu

Performance Evaluation of Scientific Research Program in Zhejiang Colleges Based on Uncertainty Analysis 147
Lian-fen Yang and Yun Tang

The Analysis and Empirical Test on Safe Headway 157
Han Xue, Shan Jiang, and Zhi-xiang Li

A Sensitive Analysis on China's Managing Float Regime 169
Shan Jiang, Han Xue, and Zhi-xiang Li

Part III Risk Management in Sustainable Enterprise

Financial Risk Assessment Model of Listed Companies Based on LOGISTIC Model 185
Wang Fei and Cheng Jixin

Sensitive Analysis of Intellectual Capital on Corporate Performance in Selected Industry Sectors in China 193
Xuerong Wang, Li Liu, and Cuihu Meng

Research on Influence Factors Sensitivity of Knowledge Transfer from Implementation Consultant to Key User in ERP 203
Jie Yin, Shilun Ge, and Feng Li

The Majority of Stockholders' Subscription Option in SEO and Escalation of Commitment 211
Wei Li, Zerong Liu, and Yang Tang

Research on Talent Introduction Hazard and Training Strategy of University Based on Data Mining 219
Feng Li, Shilun Ge, and Jie Yin

Supply Chain Performance Comprehensive Evaluation Based on Support Vector Machine 225
Weiling Cai, Xiang Chen, and Xin Zhao

The Sensitivity Analysis of a Customer Value Measurement Model 233
Liu Xiao-bin and Zhang Ling-ling

On the Relationship Between Capital Structure and Firm Value: Empirical Analysis Based on Listed Firms in Real Estate and Retail Trade 243
Xiaohong Tai and Nan Chen

The Influence of Securities Transaction Stamp Tax Adjustment on Shanghai Stock Market-Based on the adjustment on September 19, 2008 251
Junhong Chu and Lei Zhang

Random Subspace Method for Improving Performance of Credit Cardholder Classification 257
Meihong Zhu and Aihua Li

Credit Risk Model and Bayesian Improvement for Companies in China 265
Lan Luo, Jian Xiong, and Qing Zhou

Research on Business Types Recognition Based on the Method of AHP-ELECTRE 275
Hongbo Xu and Xiaoguo Jiang

Part IV Environmental Risk Management

Research on Chaotic Characteristic and Risk Evaluation of Safety Monitoring Time Series for High Rock Slope 287
Guilan Liang

Regional Eco-efficiency and Environmental Risk Analysis in China Based on NUO-DEA Model 295
Xiufeng Zhu, Ning Zhang, and Yongrok Choi

Environmental Hazard by Population Urbanization: A Provincial Clustering Analysis Based on IRF 303
Yamin Wang

Study on Sustainable Utilization of Water Resources in Tieling City Based on System Dynamics Approach 311
Yan Li, Cheng Hu, Yuanhui Zhao, and Xiaoqiang Tan

Research on Ecosystem Service Value of Forests in the Upper Qiupu River 321
Zhang Leqin, Fang Yuyuan, Xu Xingwang, Cao Xianhe, and Rong Huifang

Research on Environmental Financial Risk Management and Construction of Environmental Management System 333
Zhao Yajing, Xiao Xu, and Zhang Caiping

Research on Urban Water Security Evaluation Based on Technique for Order Preference by Similarity to Ideal Solution Model 341
Junfei Chen, Lu Xia, and Huimin Wang

Application of Extreme Value Analysis to Extreme Drought Disaster Area in China 349
Lingyan Xu, Huimin Wang, and Junfei Chen

Distribution Characteristics of Water Pollution on Hainan Island of China 359
Zhong-yuan Yu, Bo Li, Te-sheng Sun, and Hua Bi

Study on Double Auction Model for Discharge Quota Trading of Water Pollutants 367
Huirong Tang, Huimin Wang, and Lei Qiu

Analysis on Variation and Factors of Water Resources Consumption Intensity in China 375
Jinping Tong, Jianfeng Ma, and Gaofeng Liu

Part V Case Study of Risk Management

The Empirical Study of Liquidity Risk and Closed-End Fund Discounts Based on Panel-Data 385
Wenbin Huang

Empirical Analysis of Largest Eigenvalue of Leontief Matrix 395
Daju Xu and Shitian Yan

Staff Informal Learning Problems and Influencing Factor Empirical Study 403
Rongrong Huang and Ze Tian

Developmental Tendency and Empirical Analysis of Staff's Boundaryless Career: Statistic Analysis Based on the Experience in China 413
Ze Tian and Jianjun Han

Part VI Energy Risk Management

A Preliminary Evaluation of China's Implementation Progress in Energy Intensity Targets 425
Yahua Wang and Jiaochen Liang

Analysis on Volatility of Copper and Aluminum Futures Market of China 437
Wang Shu-ping, Wang Zhen-wei, and Wu Zhen-xin

The Evaluation of Hydraulic Engineering Scheme Based on Choquet Fuzzy Integral 445
Chen Ling and Ren Zheng

Early-Warning Framework of China's Energy Security 453
Zhang Minghui, Song Xuefeng, and Li Yongfeng

The Asymmetrical Analysis of the International Crude Oil Price Fluctuation on Chinese Economy 465
Xiang Wu, Yanhong Wang, and Yan Pan

Building Optimal Operation Model of Cascade Hydropower Stations Based on Chaos Optimal Algorithm 473
Liang Wei, Xu Kan Xu, Zheng-hai Xia, and ShanShan Song

The Sensitive Analysis of Spatial Inverted U Curve Between Energy Efficiency and Economic Development of the Provinces in China 483
Aijun Sun

Part VII Risk Management Modeling

Sample Size Determination via Non-unity Relative Risk for Stratified Matched-Pair Studies 493
Hui-Qiong Li and Liu-Cang Wu

The Portfolio Risk Analysis Based on Dynamic Particle Swarm Optimization Algorithm 501
Qin Suntao

Modelling Uncertainty in Graphs Using Regime-Switching Model 507
Fengjing Cai, Yuan Li, and Huiming Wang

A Study on Dynamic Spatial Fixed Effect Model Based on Endogenous Initial Value 515
Penghui Guo

Correlation Analysis of Yield and Volatility Based on GARCH Family Models 527
Yue Xu and Sulin Pang

A Unifying Approach to the Ruin Problems Under the Compound Binomial Model 539
Li-juan Sun and Yi-Hau Chen

Modeling Spatial Time Series by Graphical Models 549
Qifeng Wu and Yuan Li

Standard Deviation Method for Risk Evaluation in Failure Mode under Interval-Valued Intuitionistic Fuzzy Environment 557
Yejun Xu

A Computer Auditing Model of the Balance Sheet Parallel Simulation Based On Data Mining 567
Li Zhang, Lu Wang, and Jianping Zhang
