

Contents

1 Echocardiography in the Critically Ill: An Overview	1
Philippe Vignon and Paul Mayo	

Part I Principles of Ultrasounds and Principal Views

2 Transthoracic Echocardiography: Normal Two-Dimensional and Doppler Imaging	13
Susanna Price	
3 Transesophageal Echocardiography: Principal Views	31
Jan Poelaert	

Part II Hemodynamic Assessment

4 Heart–Lung Interactions in Mechanical Ventilation	43
Antoine Vieillard-Baron	
5 Measurement of Stroke Volume and Cardiac Output Using Echocardiography and Doppler	51
Bernard P. Cholley	
6 Assessment of Fluid Requirements: Fluid Responsiveness	61
Michel Slama and Julien Maizel	
7 Assessment of Fluid Requirements: The Fluid Challenge	71
Daniel De Backer	
8 Evaluation of Left Ventricular Systolic Function	79
Daniel De Backer	
9 Hemodynamic Evaluation in the Patient with Arrhythmias	89
Julien Maizel and Michel Slama	

Part III Diagnosis and Management of Circulatory Failure

10 Diagnosing the Mechanisms of Circulatory Failure	99
Philippe Vignon and Michel Slama	

11	Septic Shock	109
	Daniel De Backer and Antoine Vieillard-Baron	
12	Cardiogenic Shock Associated with Acute Left-Heart Failure	117
	Jina Sohn and Steven M. Hollenberg	
13	Echocardiographic Evaluation and Monitoring of Right Ventricular Function and Pulmonary Artery Pressures	133
	Adolfo Kaplan, Antony Mc Lean, and Antoine Vieillard-Baron	
14	Pericardial Effusion and Cardiac Tamponade	151
	Paul H. Mayo	
15	Echocardiography and Extracorporeal Life Support in Intensive Care Unit	163
	Joaquim Calderon and Gérard Janvier	
Part IV Diagnosis and Management of Acute Respiratory Failure		
16	Pulmonary Edema: Which Role for Echocardiography in the Diagnostic Workup?	177
	Philippe Vignon, Frances Colreavy, and Michel Slama	
17	Why and How to Use Echocardiography in Acute Respiratory Distress Syndrome	195
	Antoine Vieillard-Baron and François Jardin	
Part V Specific Situations		
18	Thoracic Trauma	205
	Fabio Chirillo	
19	Hemodynamic Instability in Cardiac Surgical Patients	235
	Bernard P. Cholley, Mireille Cherqui, Alain Berrebi, and Jan Poelaert	
20	Acute Aortic Syndrome: Acute Aortic Diseases in Hemodynamically Unstable Patients	247
	Isidre Vilacosta, Victoria Cañadas, J. Alberto San Román, and Philippe Vignon	
Part VI Outlook		
21	Learning and Competence in Critical Care Echocardiography	275
	Philippe Vignon, Bernard P. Cholley, Daniel De Backer, Michel Slama, and Antoine Vieillard-Baron	

22	Echocardiography Alone or Coupled with Other Hemodynamic Devices?	283
	Gorazd Voga, Daniel De Backer, and Antoine Vieillard-Baron	
23	Future Applications	289
	James N. Kirkpatrick and Roberto M. Lang
