|                                                                                                           |     |
|-----------------------------------------------------------------------------------------------------------|-----|
| 1. Irregularities of Point Distribution Relative to Convex Polygons<br><i>J. Beck, W.W.L. Chen</i> .....  | 1   |
| 2. Balancing Matrices with Line Shifts II<br><i>J. Beck, J. Spencer</i> .....                             | 23  |
| 3. A Few Remarks on Orientation of Graphs and Ramsey Theory<br><i>M. Cochand, P. Duchet</i> .....         | 39  |
| 4. On a Conjecture of Roth and Some Related Problems I<br><i>P. Erdős, A. Sárközy, V.T. Sós</i> .....     | 47  |
| 5. Discrepancy of Sequences in Discrete Spaces<br><i>Ph. Flajolet, P. Kirschenhofer, R.F. Tichy</i> ..... | 61  |
| 6. On the Distribution of Monochromatic Configurations<br><i>P. Frankl, R.L. Graham, V. Rödl</i> .....    | 71  |
| 7. Covering Complete Graphs by Monochromatic Paths<br><i>A. Gyárfás</i> .....                             | 89  |
| 8. Canonical Partition Behavior of Cantor Spaces<br><i>H. Lefmann</i> .....                               | 93  |
| 9. Extremal Problems for Discrepancy<br><i>L. Lovász, K. Vesztegombi</i> .....                            | 107 |
| 10. Spectral Studies of Automata<br><i>J.H. Loxton</i> .....                                              | 115 |
| 11. A Diophantine Problem<br><i>M. Mendes France</i> .....                                                | 129 |
| 12. A Note on Boolean Dimension of Posets<br><i>J. Nešetřil, P. Pudlák</i> .....                          | 137 |
| 13. Intersection Properties and Extremal Problems for Set Systems<br><i>Zs. Tuza</i> .....                | 141 |
| 14. On an Imbalance Problem in the Theory of Point Distribution<br><i>G. Wagner</i> .....                 | 153 |
| 15. Problems .....                                                                                        | 161 |
