SECTION 1 — NORMAL FETAL GROWTH	
Effect of genome on size at birth Dr M.H.L. Snow	3
Fetal growth curves Professor P.-H. Persson	13
Discussion	27
Placental control of fetal metabolism Professor W.W. Hay Jr.	33
The placenta as an endocrine regulator Professor T. Lind and Dr P.G. Whittaker	53
Discussion	69
SECTION 2 — NORMAL FETAL GROWTH (Continued)	
Genetic mechanisms of regulation of fetal growth Dr V.K.M. Han	77
Control of cellular multiplication and differentiation Professor D.J. Hill and Dr V.K.M. Han	83
Discussion	99
Maternal diet and fetal substrate provision Mr R.B. Fraser and Mrs F.A. Ford	101
Environmental influences on fetal growth: effects and consequences Dr M.H.L. Snow	115
Discussion	127
SECTION 3 — FETAL OVERGROWTH	
Fetal growth: an overview Professor F. Cockburn	133
Mechanisms of overgrowth Professor R.D.G. Milner	139
Discussion	149
Obstetric problems of fetal macrosomia Mr J.M. Brudenell	159
Discussion	167
SECTION 4 — FETAL UNDERGROWTH	
Epidemiology Professor E. D. Alberman	175
Aetiology of fetal undergrowth Professor J.S. Wigglesworth	185
Discussion	197

Effects of changes in maternal energy and protein intake during pregnancy, with special reference to fetal growth Professor D. Rush	203
Discussion	231
Utero-placental blood flow and fetal growth Professor J.F. Clapp III	235
Discussion	245
SECTION 5 — CLINICAL IMPLICATIONS OF FETAL UNDERGROWTH	
The detection of intrauterine growth retardation Professor S. Campbell	251
Detection of fetal growth retardation by biochemical tests Professor T. Chard and Dr R.J.S. Howell	263
Discussion	273
Technical basis for Doppler blood flow measurement Professor S.H. Eik-Nes	277
Volume flow calculation in the human fetus using pulsed Doppler ultrasound: basic problems Professor S.H. Eik-Nes	287
Fetal and placental blood flow Dr K. Maršál	297
Discussion	309
Clinical dating and assessment Dr M.H. Hall	319
Discussion	325
SECTION 6 — CLINICAL IMPLICATIONS OF FETAL UNDERGROWTH (Continued)	
Treatment of fetal growth retardation Mr K.H. Nicolaides, Mr D.L. Economides and Mr G. Thorpe-Beeston	333
Fetal activity and biophysical evaluation in IUGR Dr M.J. Whittle	363
Discussion	375
Intrapartum monitoring in IUGR Mr P.J. Steer	381
Discussion	389
Neonatal management of the SGA infant Professor M.I. Levene	393
Fetal growth: mortality and morbidity Dr A. Stewart	403
Discussion	413
CONCLUSIONS	421
