

Table of Contents

Part I Clinical and Therapeutical Aspects

International Fanconi Anemia Registry: First Report <i>A. D. Auerbach, A. Rogatko, and T. M. Schroeder-Kurth</i>	3
Fanconi Anemia in The Netherlands <i>M. L. Kwee and L. P. Kuyt</i>	18
Clinical Aspects of a Cluster of 42 Patients in South Africa with Fanconi Anemia <i>S. Smith, M. P. Marx, C. J. Jordaan, and C. H. van Niekerk</i>	34
Therapeutic Aspects of Fanconi Anemia <i>W. Ebell, W. Friedrich, and E. Kohne</i>	47
Bone Marrow Transplantation for Fanconi Anemia <i>E. Gluckmann, A. Devergie, and J. Dutreix</i>	60

Part II Spontaneous and Induced Chromosomal Breakage for Diagnosis of Patients with Fanconi Anemia and Their Relatives

Diepoxybutane Test for Prenatal and Postnatal Diagnosis of Fanconi Anemia <i>A. D. Auerbach, R. Ghosh, P. C. Pollio, and M. Zhang</i>	71
Chromosomal Breakage in Response to Cross-linking Agents in the Diagnosis of Fanconi Anemia <i>F. Arwert and M. L. Kwee</i>	83
Cytogenetic Studies in Fanconi Anemia: Induced Chromosomal Breakage and Cytogenetics of Leukemia <i>R. Berger and M. Le Coniat</i>	93
Aplastic Anemia and Fanconi Anemia: Response of Lymphocytes to X-Rays and Mitomycin C <i>A. T. Natarajan, J. M. J. J. Vossen, and M. H. van Weel-Sipman</i> .	100
Variation in Cellular Sensitivities Among Fanconi Anemia Patients, Non-Fanconi Anemia-Patients, Their Parents and Siblings, and Control Probands <i>T. M. Schroeder-Kurth, T. H. Zhu, Y. Hong, and I. Westphal</i> . . .	105

Significance of Cellular Sensitivity in a Group of Parents of Fanconi Anemia Patients

M. P. Marx and S. Smith 137

Chromosomal Studies in Fanconi Anemia Heterozygotes

B. Dallapiccola and B. Porfirio 145

Part III Investigations of the Defect in Fanconi Anemia Cells

BrdU-Hoechst Flow Cytometry Links the Cell Kinetic Defect of Fanconi Anemia to Oxygen Hypersensitivity

H. Hoehn, M. Kubbies, D. Schindler, M. Poot, and P. S. Rabinovitch 161

Oxygen Metabolism and Chromosomal Breakage in Fanconi Anemia

H. Joenje and J. J. P. Gille 174

Cellular Effects of Fanconi Anemia Genes and Their Correction by Microinjection

E. Wunder, B. Fleischer, M. Gök, and Vijayalaxmi 183

Phenotypic and Genetic Heterogeneity in Fanconi Anemia, Fate of Cross-Links, and Correction of the Defect by DNA Transfection

E. Moustacchi, D. Averbek, C. Diatloff-Zito, and D. Papadopoulo 196

Part IV Complementation Studies in Fanconi Anemia

Complementation Studies in Fanconi Anemia

A. D. Auerbach, R. E. Koerse, R. Ghosh, V. S. Venkatraj, M. Zhang, and N. Chiorazzi 213

Complementation and Gene Transfer Studies in Fanconi Anemia

M. Buchwald, C. Clarke, J. Ng, G. Duckworth-Rysiecki, and R. Weksberg 226

Complementation Studies in Fanconi Anemia

Using Cell Fusion and Microinjection of mRNA

M. Digweed, S. Zakrzewski-Lüdcke, and K. Sperling 236

Part V Fanconi Anemia: The Family's Point of View

Fanconi Anemia: The Family's Point of View

D. Frohnmayer and L. Frohnmayer 257

Subject Index 261
