

Contents

Regulation of Cholesterol Metabolism

Chairman: H. WIELAND

Receptors in the Regulation of Cholesterol Metabolism J. SHEPHERD, and C. J. PACKARD	3
Apolipoprotein E Modulates the Metabolism of Apolipoprotein B Containing Lipoproteins by Multiple Mechanisms R. E. GREGG, L. A. ZECH, C. GABELLI, and H. B. BREWER Jr.	11
Regulation of Macrophage Cholesterol Homeostasis G. SCHMITZ, B. BRENNHAUSEN, and H. ROBENEK	22

Hypercholesterolemia, LDL- and Scavenger Pathway

Chairman: K. OETTE

Familial Combined Hyperlipidemia Workshop S. M. GRUNDY, A. CHAIT, and J. D. BRUNZELL	35
Lipoproteins and Atherosclerosis: Lessons from an Animal Model for Familial Hypercholesterolemia T. KITA, M. YOKODE, K. ISHII, N. KUME, Y. NAGANO, H. OTANI, H. ARAI, S. NARUMIYA, and C. KAWAI	45
Use of RFLPs of the LDL Receptor Gene in Diagnosis of Familial Hypercholesterolaemia H. SCHUSTER, G. WOLFRAM, C. KELLER, and N. ZÖLLNER	53
Lipoprotein Lp (a): Structure and Metabolism V. W. ARMSTRONG, H. KRATZIN, and D. SEIDEL	56
Genetic Polymorphism of Lipoprotein (a) H. J. MENZEL, H. G. KRAFT, C. DUBA, and G. UTERMANN	64

Binding Sites for Modified Low-Density Lipoprotein on Macrophagocytic Cells: Implications for Atherogenesis? H. A. DRESEL, and E. OTTNAD	70
Removal of Low-Density Lipoproteins by Alternative Pathways T. J. C. VAN BERKEL, J. K. KRUIJT, and H. J. M. KEMPEN	74
 <i>Reverse Cholesterol Transport</i>	
Chairman: A. v. Tol	
Reverse Cholesterol Transport A. VAN Tol	85
Antiatherogenic Effect of Apolipoprotein A-I Containing Lipoproteins N. GHALIM, A. BARKIA, P. PUCHOIS, R. BARBARAS, G. AILHAUD, and J. C. FRUCHART	89
An Apo A-I Protein A Hybrid Used for the Study of HDL Receptor Binding and Endocytosis H. M. BOND, L. MONACO, R. CORTESE, and K. E. HOWELL	92
Lipid Transfer Protein: Hyperalphalipoproteinemia and Cholesteryl Ester Transfer/Exchange Activity J. E. M. GROENER	100
Role of Apolipoprotein A-IV in Reverse Cholesterol Transport A. STEINMETZ	106
