

Table of Contents

Milan Hašek: In Memoriam

Once upon a time ...	
<i>J. Dausset</i>	3
An imposing stature ...	
<i>F. Jacob</i>	6
It took a few years ...	
<i>N.A. Mitchison</i>	7
My old friend ...	
<i>M. Simonsen</i>	9

Tolerance, Transplantation and Immune Network

From Horses to Mice: Graft Rejection and Tolerance	
<i>R. Kinsky</i>	13
Tolerance and the Immune Network. T Cells Reactive to the Variable Domains of Immunoglobulins	
<i>J. Cerny</i>	17
Milan Hašek, Lymphokines and Retroviruses	
<i>M. Malkovský</i>	29
Genetic Requirements for Interactions Between Cells for Murine Islet Allograft Rejection. Class I and Class II Antigens in Mouse Islet Rejection	
<i>V. Hauptfeld-Dolejšek</i>	36
Chicken Major Histocompatibility Complex and Its Role in Disease	
<i>K. Hala</i>	43
Tolerance, the Thymus, and H-Y	
<i>L. Jerabek</i>	50
Autologous Mixed Lymphocyte Culture: Immunoregulatory Aspects	
<i>F. Pazderka</i>	60

Immunogenetics (MHC)

Mickey, Hugo, and Eve: A Study in the Evolution of the Major Histocompatibility Complex	
<i>J. Klein</i>	73
From Histocompatibility to Cancer	
<i>P. Demant</i>	80
HLA Antigens and Matching for Kidney Transplantation	
<i>P. T. Klouda</i>	90
HLA Subtypes	
<i>H. Mervart</i>	94
Zeroing in on the <i>H-2</i> Complex	
<i>D. Klein</i>	109
Of Men and Mice	
<i>M. Pla</i>	117
Individual Differences Among Syngeneic Mice in Immune Response to Alloantigens and Modified Self-MHC-Antigens	
<i>P. Ivanyi</i>	122

Immunology and Cytology in Bacterial, Viral and Tumor Diseases

Immunological Analysis of Mycobacterial Disease	
<i>J. Ivanyi</i>	137
Genetic Control of Susceptibility to Mycobacterial Infections	
<i>E. Skamene</i>	145
From Serology of the Chicken MHC to Polymorphism of Malaria Antigen Genes	
<i>J. S. McBride</i>	154
Virus-Induced Neutropenia	
<i>T. A. Rakusan</i>	160
Tumor Immunotherapy	
<i>P. Koldovsky</i>	168
Radiation-Enhanced Oncogene Expression	
<i>V. Klement</i>	180
Oncogenes: A Pathologist's View	
<i>L. R. Donner</i>	189
Natural Killer Cells:	
Odyssey from Laboratory Artifact to Clinical Reality	
<i>E. Lotzová</i>	195
Allergy to Drugs and Other Chemicals	
Diagnosed by the Presence of Specific Memory Cells in Human Blood	
<i>D. M. V. Stejskal</i>	213

Contribution of Cytogenetics to Cancer Research:
Endometrial Adenocarcinoma

<i>D. Simon</i>	226
Bibliography	239
Appendix A: FONDATION DE FRANCE	301
Appendix B: Memoranda	303
Name and Subject Index	307
