

# Table of contents

<b>Diagnosis and management of metabolic disorders . . . . .</b>	<b>1</b>
<b>Essential basic laboratory tests . . . . .</b>	<b>1</b>
<b>General clinical situations . . . . .</b>	<b>3</b>
The metabolic emergency . . . . .	3
Hypoglycaemia . . . . .	5
Hyperammonaemia . . . . .	7
Metabolic acidosis and ketosis. . . . .	10
Elevated lactate . . . . .	12
Intellectual disability . . . . .	13
Metabolic (epileptic) encephalopathy . . . . .	14
The floppy infant. . . . .	16
Exercise intolerance . . . . .	16
Cardiomyopathy . . . . .	17
Dysmorphic features . . . . .	18
Liver disease . . . . .	19
Reye-like syndrome . . . . .	24
Sudden unexpected death (in infancy). . . . .	24
Post-mortem investigations . . . . .	25
Fetal hydrops. . . . .	26
Unusual clinical observations . . . . .	27
Unusual laboratory findings . . . . .	28
Special metabolic investigations are not required in . . . . .	29
<b>Special metabolic investigations . . . . .</b>	<b>30</b>
Simple metabolic urine tests. . . . .	30
Amino acids (AA) . . . . .	32
Organic acids (OA) . . . . .	33
Carnitine analyses . . . . .	34
Other special metabolic investigations. . . . .	35
Biopsies and enzyme studies . . . . .	38
Molecular genetic investigations. . . . .	39
<b>Function tests . . . . .</b>	<b>41</b>
Metabolic profiling. . . . .	41
Protein challenge. . . . .	42
Glucose challenge . . . . .	42
Prolonged fasting test . . . . .	43
Glucagon test . . . . .	45
Tetrahydrobiopterin (BH4) test . . . . .	46
Phenylalanine loading test . . . . .	47
Allopurinol test . . . . .	48

<b>Newborn screening</b> . . . . .	49
Newborn screening for inborn errors of metabolism . . . . .	49
Newborn screening for non-metabolic disorders . . . . .	53
<b>Metabolic pathways and their disorders</b> . . . . .	54
<b>Amino acid and peptide metabolism</b> . . . . .	54
Principles of treatment . . . . .	55
Urea cycle disorders and inherited hyperammonaemias . . . . .	57
Organic acidurias . . . . .	61
Disorders of the metabolism of branched-chain amino acids	
not classified as organic aciduria . . . . .	66
Disorders of phenylalanine and tyrosine metabolism . . . . .	67
Disorders of the metabolism of sulphur amino acids . . . . .	69
Disorders of histidine, tryptophan and lysine metabolism . . . . .	72
Disorders of serine, glycine and glycerate metabolism . . . . .	73
Disorders of ornithine, proline and hydroxyproline metabolism . . . . .	75
Disorders of amino acid transport . . . . .	76
Other disorders of amino acid metabolism . . . . .	77
Disorders of the gamma-glutamyl cycle . . . . .	77
Disorders of peptide metabolism . . . . .	79
<b>Carbohydrate metabolism</b> . . . . .	80
Disorders of galactose and fructose metabolism . . . . .	81
Disorders of gluconeogenesis . . . . .	82
Glycogen storage diseases (GSD, glycogenoses) . . . . .	83
Disorders of glycerol metabolism . . . . .	86
Disorders of pentose/polyol metabolism . . . . .	86
Disorders of glucose transport . . . . .	87
Congenital hyperinsulinism (CHI) . . . . .	88
<b>Fatty acid and ketone body metabolism</b> . . . . .	90
Disorders of fatty acid oxidation and ketogenesis . . . . .	91
Disorders of ketolysis . . . . .	95
<b>Energy metabolism</b> . . . . .	96
Disorders of pyruvate metabolism and the Krebs cycle . . . . .	96
Mitochondrial respiratory chain disorders . . . . .	99
Disorders of creatine biosynthesis . . . . .	111
<b>Purine and pyrimidine metabolism</b> . . . . .	112
Disorders of purine metabolism . . . . .	113
Disorders of pyrimidine metabolism . . . . .	115
Other disorders of nucleotide metabolism . . . . .	116
<b>Sterol metabolism</b> . . . . .	117
Disorders of sterol biosynthesis . . . . .	117
Disorders of bile acid synthesis . . . . .	120

<b>Porphyrin and haem metabolism</b> . . . . .	121
<b>Lipoprotein metabolism</b> . . . . .	124
Hypercholesterolaemias . . . . .	125
Hypertriglyceridaemias . . . . .	126
Mixed hyperlipidaemias . . . . .	126
Disorders of high density lipoprotein (HDL) metabolism . . . . .	127
Disorders with decreased LDL cholesterol and triglycerides . . . . .	128
<b>Lysosomal metabolism</b> . . . . .	129
Mucopolysaccharidoses (MPS) . . . . .	133
Oligosaccharidoses . . . . .	135
Sphingolipidoses . . . . .	136
Neuronal ceroid lipofuscinoses (NCL, CLN) . . . . .	140
Lysosomal export defects . . . . .	141
Other lysosomal disorders . . . . .	142
<b>Peroxisomal metabolism</b> . . . . .	143
<b>Protein glycosylation</b> . . . . .	146
Congenital disorders of glycosylation (CDG) . . . . .	146
<b>Neurotransmission</b> . . . . .	151
Disorders of biogenic amine metabolism . . . . .	151
Disorders of GABA metabolism . . . . .	154
Other neurometabolic disorders . . . . .	155
<b>Metabolism of vitamins and (non-protein) cofactors</b> . . . . .	156
Disorders of cobalamin absorption, transport and metabolism . . . . .	156
Disorders of folate metabolism and transport . . . . .	157
Disorders of biotin metabolism . . . . .	158
Disorders of pyridoxine metabolism . . . . .	159
Other disorders of vitamin metabolism . . . . .	161
<b>Metabolism of trace elements and metals</b> . . . . .	162
Disorders of copper metabolism . . . . .	162
Disorders of iron metabolism . . . . .	163
Disorders in the metabolism of other trace elements and metals . . . . .	164
<b>Other metabolic pathways</b> . . . . .	165
<b>Appendix</b> . . . . .	166
Helpful internet resources . . . . .	166
Free fatty acids and 3-hydroxybutyrate during fasting . . . . .	167
<b>Index</b> . . . . .	168
