

Contents

Part I: Physiology and Pharmacology

Chapter 1

Spasm of Cerebral and Coronary Vessels: Effects of Calcium Antagonists

K.-E. ANDERSSON, L. BRANDT, and B. LJUNGGREN 3

Chapter 2

Opioid Peptides and the Cardiovascular System with Especial Reference to Low Perfusion States

J. R. PARRATT. With 4 Figures 20

Chapter 3

Cardiac and Cerebral Effects of Local Anesthetics

R. HOTVEDT and H. REFSUM. With 10 Figures 37

Chapter 4

Neurotoxins as Tools in Studying Cardiac Excitation-Contraction Coupling

U. RAVENS and E. WETTWER. With 8 Figures 51

Chapter 5

Adenosine and ATP Interactions with Autonomic Neural Control of the Heart

A. PELLEG. With 1 Figure 62

Part II: Autonomic Nervous System and Arrhythmias

Chapter 6

Sympathetic Influences on Arrhythmogenesis in the Ischemic Heart

K. A. YAMADA, G. P. HEATHERS, S. M. POGWIZD, and P. B. CORR 79

Chapter 7

Sympathetic Nervous System and Malignant Arrhythmias: Evidence for Further Links

S. G. PRIORI and P. J. SCHWARTZ. With 6 Figures 98

Chapter 8**Modulation of Cardiac Arrhythmias by the Autonomic Nervous System**

R. F. GILMOUR JR., J. J. SALATA, and D. P. ZIPES. With 8 Figures . . . 108

Chapter 9**Supraventricular Tachycardia and the Autonomic Nervous System**

D. L. ROSS. With 8 Figures . . . 120

Chapter 10**Heart Rate Changes and ECG Rhythm Disturbances in the Cluster Headache Syndrome**

D. RUSSELL. With 10 Figures . . . 131

Chapter 11**Blood Pressure Assessment in a Broad Chronobiologic Perspective**

F. HALBERG, E. BAKKEN, G. CORNÉLISSEN, J. HALBERG, E. HALBERG, and P. DELMORE. With 8 Figures . . . 142

Part III: Syncope and Sudden Death**Chapter 12****Mechanisms of Syncope and of Sudden Death Due to Ventricular Tachyarrhythmias**

G. BREITHARDT, M. BORGGREFE, A. PODCZECK, and A. MARTINEZ-RUBIO. With 8 Figures . . . 165

Chapter 13**Possible Role of the Fear Paralysis Reflex in Sudden Cardiac Death**

B. KAADA. With 3 Figures . . . 185

Chapter 14**Some Clinical Neurological Aspects of Syncope**

O. JOAKIMSEN . . . 199

Chapter 15**Differential Diagnosis in Syncope and Epilepsy: Clinical Neurophysiological and Cardiological Aspects**

I. A. SULG. With 1 Figure . . . 202

Part IV: Thromboembolism and Ischemia**Chapter 16****Thromboembolic Complications in Atrial Fibrillation**

J. GODTFREDSEN and P. PETERSEN . . . 225

Chapter 17**Echocardiography and Embolic Sources in the Heart**

K.-A. JOHANNESSEN. With 3 Figures . . . 230

Chapter 18

³¹P Nuclear Magnetic Resonance Spectroscopy of Cerebral and Cardiac Ischemia

M. M. COHEN, S. J. KOPP, J. W. PETTEGREW, and T. GLONEK 239

Chapter 19

Oxygen Radicals in Heart and Brain Tissue Injury

K. YTREHUS and O. D. MJØS. With 8 Figures 244

Chapter 20

Prevention of Ischemic Brain Damage Following Cardiac Arrest

L. MOGENSEN 255

Part V: Sleep and Sleep Apnea

Chapter 21

Influence of Sleep, Activity and Circadian Rhythm on Heart Rate, QT Interval and Cardiac Arrhythmias

C. GUILLEMINAULT and A. M. GILLIS 263

Chapter 22

Pulmonary Hemodynamics in Obstructive Sleep Apnea Syndromes

J. KRIEGER, E. WEITZENBLUM, B. REITZER, and D. KURTZ. With 1 Figure 272

Chapter 23

Sleep Apnea Syndrome as an Occupational Disease

P. MONSTAD, I. A. SULG, A. K. ROM, T. NISSEN, and S. I. MELLGREN
With 2 Figures 280**Part VI: Disease in the Cardiovascular and Nervous System**

Chapter 24

Concomitant Manifestations of Disease in the Cardiovascular and Nervous System: An Overview

K. RASMUSSEN 287

Chapter 25

Cardiac Involvement in Kearns-Sayre Syndrome

B. SCHWARTZKOPFF, G. BREITHARDT, M. BORGGREFE, B. LÖSSE,
K.-V. TOYKA, and H. FRENZEL. With 6 Figures 293

Chapter 26

Some Neurological and Hereditary Aspects of Progressive External Ophthalmoplegia and Mitochondrial Encephalomyopathy

S. I. MELLGREN, T. TORBERGSEN, E. B. MATHIESEN, N. J. BRAUTASET,
and S. LINDAL. With 3 Figures 311

Chapter 27

Neurological and Cardiological Findings in Systemic Lupus Erythematosus

R. OMDAL, S. I. MELLGREN, and G. HUSBY 318

Part VII: Hypo- and Hyperbaric Environment**Chapter 28**

High Altitude Physiology and Pathophysiology: Medical
Observations During the Norwegian Mount Everest Expedition

K. T. STOKKE. With 3 Figures 327

Chapter 29

Heart and Brain Under Hyperbaric Conditions in Man

A. O. BRUBAKK. With 8 Figures 343

Chapter 30

Effects of Positive End-Expiratory Pressure Ventilation
on Intracranial Pressure and Cerebral Blood Flow

O. HEVRØY, N.-E. KLØW, Ø. NYGAARD, and J. H. TRUMPY

With 3 Figures 357

Chapter 31

Positive End-Expiratory Pressure and Cardiac Function:
The Role of Extraventricular Constraint

O. A. SMISETH, I. KINGMA, N. W. SCOTT-DOUGLAS, E. R. SMITH,

and J. V. TYBERG. With 6 Figures 364

Part VIII: Cerebral Function and Cardiac Surgery**Chapter 32**

Neuromonitoring in High Risk Surgery: Physiological Tolerance
Limits for Central Nervous System

I. A. SULG. With 10 Figures 375

Chapter 33

Monitoring Brain Function During Cardiovascular Surgery:
Hypoperfusion vs Microembolism as the Major Cause
of Neurological Damage During Cardiopulmonary Bypass

E. R. JOHN, L. S. PRICHEP, R. J. CHABOT, and W. O. ISOM. With 9 Figures 405

Chapter 34

Cerebral Blood Flow During Cardiopulmonary Bypass

L. HENRIKSEN. With 7 Figures 422

Chapter 35

Cerebral Hemodynamics During Nonpulsatile Cardiopulmonary
Bypass

T. LUNDAR. With 7 Figures 432

Chapter 36

Cerebral Outcome After Open Heart Surgery: A Long-term
Multidimensional Follow-up of Valvular Replacement Patients

K. SOTANIEMI. With 5 Figures 440

Chapter 37
Cerebral Protection During Open Heart Surgery:
Clinical, Psychometric, Enzymological, and Radiological Data
T. ÅBERG. With 3 Figures 452

Subject Index 459
