Editor's Preface	V
Recollections of Robert S. Mulliken. By FRIEDRICH HUND	VII
Author's Foreword	XI
I Early Life in Newburyport	1
II Newburyport High School	12
III MIT: Chemistry and Chemical Engineering	19
IV World War I	22
V A Job with the New Jersey Zinc Company	24
VI The University of Chicago	26
VII NRC Postdoctoral Fellowship at Harvard, 1923-25	38
VIII England and Europe, 1925	50
IX Assistant Professor of Physics, New York University at Washington Square, 1926-28	55
X Europe Again, 1927	59
XI Interpretation of Atmospheric Oxygen Bands, 1928	64

Contents

XII	Associate Professor of Physics at Chicago, 1928	66
XIII	Mary Helen	69
XIV	Guggenheim Fellowship, Half 1930, Half 1932	71
XV	Back to the University of Chicago	76
XVI	Guggenheim II. Europe Again in 1932-33	82
XVII	Chicago Again, 1933	88
XVIII	World War II, 1942	106
XIX	After the War: The Laboratory of Molecular Structure and Spectra	117
XX	The Shelter Island Conference: A Watershed	136
XXI	Advances in Molecular Spectroscopy	140
XXII	Oxford, Frankfurt and Tokyo, 1952-53	144
XXIII	Population Analysis	148
XXIV	Science Attaché, London, 1955	151
XXV	The Diatomic Molecule Project at LMSS, 1956-66: Broken Bottlenecks	156
XXVI	Moscow and Leningrad, 1958	164
XXVII	Further Advances in Molecular Spectroscopy	167
XXVIII	India and Japan, 1962	176
XXIX	Quantum Chemistry in Florida. Germany Again	183
XXX	Tallahassee	187
XXXI	The Nobel Prize, 1966	190
XXXII	Post-Prize Activities	193
XXXIII	Some Family Matters	204
XXXIV	Selected Papers Volume. Further Theoretical Work	208
XXXV	Valerie's Death, 1983. The Academy of Achievement	211

Contents

Chronology	214
Bibliography of Robert S. Mulliken	219
Footnotes	237
Photographs	239
Name Index	251
