W. Creutzfeldt (Ed.)

Acarbose for the Treatment of Diabetes Mellitus

With 61 Figures and 36 Tables

Springer-Verlag
Berlin Heidelberg New York
London Paris Tokyo

Contents

Introduction
W. CREUTZFELDT 1

Experimental Data on Acarbose I

Toxicology of Acarbose, with Special Reference to Long-Term Carcinogenicity Studies
G. SCHLÜTER 5

Discussion 15

The Disposition and Pharmacokinetics of Acarbose in Man
F. O. MÜLLER, H. K. L. HUNDT, H. G. LUUS, M. VAN DYK,
G. GROENEWOUD, and I. HILLEBRAND 17

Discussion 25

Experimental Data on Acarbose II

The Pharmacological Rationale of Diabetes Mellitus Therapy with Acarbose
W. PULS, and H. BISCHOFF 29

Discussion 39

Pharmacodynamics of Acarbose: Clinical Investigations
B. LEMBCKE 41

Discussion 53

Posters

Comparative Effects of Acarbose on Glycemia, Weight Gain, and Serum Lipids in Adult Male and Female Diabetic Wistar Fatty Rats O. L. TULP, C. STEVENS, O. BARBEE, M. L. APOSTOLOU, and O. E. MICHAELIS	57
Effects of Low-Dose Acarbose on Glycemia, Adiposity, and Cholesterolemia in Obese and Obese Non-Insulin-Dependent Diabetic Corpulent Rats O. E. TULP, S. P. DEBOLT, L. PIETRANGELO, R. SCHNITZER-POLOKOFF, A. ABDOLLAHI, M. E. HESS, and N. HAUGARD	58
A Preclinical Study on the Effects of Acarbose on Mice Rendered Obese with Gold Thioglucose I. MAROT, and Y. LE MARCHAND-BRUSTEL	59
Enhancement of Insulin Binding and Glucose Transport by Acarbose in Adipocytes of Zucker Rats J. R. VASSELLI, T. FLORY, and S. K. FRIED	60
Treatment of Streptozotocin-Diabetic Rats with Acarbose: Influence on Metabolism and Heart Function P. RÖSEN	61
Effects of Acarbose on Cardiac and Hepatic Metabolism in Diabetic Rats M. E. HESS, N. HAUGARD, A. TORBATI, A. RASTOGI, and O. L. TULP	62
Effects of Acarbose on Experimental Diabetic Nephropathy, Metabolic Control, and Intestinal Glycosidase Activity in Normal and Genetically Diabetic Mice S. M. LEE	63
The Effectiveness of Acarbose in the Reduction of Diabetic Symptoms and Neuropathic Complications in an NIDDM Animal Model R. G. PETERSON, M. A. NEEL, L. A. LITTLE, J. C. KINCAID, and N. S. FINEBERG	64
Effects of Acarbose on the Hormonal and Metabolic Response to the Simultaneous Ingestion of Sucrose and Ethanol B. JANDRAIN, J. GERARD, E. VERDIN, and P. J. LEFÈBVRE	66

Effects of Acarbose on Serum Lipids and Lipoproteins in Healthy Individuals During Prolonged Administration of a Fiber-Free Diet	
I. WALTER-SACK, P. KRANZ-RIES, G. WOLFRAM, and N. ZÖLLNER	67
Lower Triglyceride Production with Carbohydrate-Rich Diets During Treatment with Acarbose	
P. J. NESTEL	68
Long-Term Metabolic Effects of Acarbose in Healthy Young Men	
C. COUET, M. ULMER, M. HAMDAOUI, and G. DERBY	69
Mode of Action of the α -Glucosidase Inhibitor Acarbose in the Small Bowel: A Perfusion Study in Man	
H.-J. HAGEL, H. RUPPIN, J. PICHL, W. FEUERBACH, S. BLOOM, and W. DOMSCHKE	70
Effect of Acarbose in Fecal Short-Chain Fatty Acid Excretion in Man	
W. SCHEPPACH, C. FABIAN, M. SACHS, M. SPENGLER, and H. KASPER	71
Effect of Acarbose on Colonic Nitrogen Metabolism in Man	
C. FABIAN, W. SCHEPPACH, M. SPENGLER, and H. KASPER	73
The Influence of Acarbose Dosage Scheme on Intestinal Symptoms and Intestinal Transit Time in Healthy Volunteers	
H. J. WILDGRUBE, M. SPENGLER, and K. BOEHME	74
The Development of a Method for Measuring Starch Absorption and its Alteration by α -Glucosidase Inhibitors	
S. PYE, and J. RADZIUK	75

Acarbose in NIDDM

Acarbose in Non-Insulin-Dependent Diabetes Mellitus: Short-Term Studies in Combination with Oral Agents	
B. WILLMS	79
Acarbose in Non-Insulin-Dependent Diabetes – Long-Term Studies in Combination with Oral Agents	
G. SACHSE	92
Discussion	102

Acarbose Treatment and Sulfonylurea Secondary Failure

C. ROSAK	156
--------------------	-----

Discussion	162
----------------------	-----

Clinical Studies with Acarbose for the Control of Hyperglycemia which is the Major Pathogenetic Factor of the Complications of Diabetes Mellitus

H. E. ELIAHOU, P. SEGAL, I. HILLEBRAND, D. SACHS, B. HELLBERG, A. BLAU, and E. TOPPER	163
--	-----

Discussion	169
----------------------	-----

Posters

Inhibition of α -Glucosidase by Acarbose as an Additional tool for Glycemia Control in Insulin-Dependent Diabetics on Conventional Insulin Therapy

J. TATÓN	173
--------------------	-----

Acarbose in Insulin-Dependent Diabetes Mellitus: Efficacy and Tolerance

S. G. T. HULST, P. F. J. M. SPOOREN, P. A. SMITH, and T. HULK	174
---	-----

Nonrandomized Follow-up Study with Acarbose Treatment and Pre- and Post-treatment with Placebo in Type I Diabetic Children

M. DAMJANOVA	175
------------------------	-----

Effects of Acarbose on Glycemic Control in IDDM under Feedback Control with Artificial Endocrine Pancreas

K. ITOH, and Y. IKEDA	176
---------------------------------	-----

Effects of Sucrose Meal on Insulin Requirement in IDDM and its Modulation by Acarbose

J.-L. CHIASSON	177
--------------------------	-----

Effect of Acarbose on Insulin Sensitivity and Liver Uptake in Patients with Type I Diabetes

P. POZZILLI, V. FIGHI, V. FIORE, M. CASANICA, A. GIACCARI, P. SBRACCIA, and G. TAMBURRANO	178
--	-----

Comparative Metabolic Availability of Glucose and Sucrose and the Effect of Acarbose on Sucrose Utilization During Exercise in Type I Diabetic Patients P. JANDRAIN, F. PIRNAY, A. SCHEEN, M. LACROIX, F. MOSORA, and P. J. LEFÈBVRE	180
Acarbose Treatment in Insulin-Dependent Diabetics G. VIVIANI, L. CAMOGLIANO, M. G. BORGOGGIO, P. SALVINI, H. OHNMEISS, and L. ADEZATI	182
<i>Panel Discussion: Future Aspects of α-Glucosidase Inhibition</i>	183
<i>Subject Index</i>	195
<i>Author Index</i>	197
