

<i>Chapter 1</i>	The Hip Joint	2
1.1	General Description	2
1.2	Functional Anatomy	2
	Figures 1–8	4
<i>Chapter 2</i>	The Knee Joint	20
2.1	General Structure	20
2.1.1	Peripheral Group	20
2.1.2	Central Group	21
2.2	Functional Anatomy	21
	Figures 9–26	22
<i>Chapter 3</i>	The Joints of the Foot	58
3.1	The Static Support System	58
3.1.1	Arches of the Foot	58
3.1.2	Structures of the Load Bearing System	58
3.2	The Dynamic Propulsion-Stabilization System	59
3.2.1	Antero-Posterior Stabilization	59
3.2.2	Transverse Stabilization	59
3.2.3	The Forefoot	59
	Figures 27–51	60
<i>Chapter 4</i>	The Shoulder Girdle and Shoulder Joints	108
4.1	Glenohumeral Joint	108
4.2	The Scapulothoracic Articulation	108
	Figures 52–66	110
<i>Chapter 5</i>	The Elbow Joint	140
5.1	Mechanism of Flexion-Extension	140
5.2	Mechanism of Pronation-Supination	140
	Figures 67–81	142
<i>Chapter 6</i>	The Wrist Joint	173
6.1	The Radiocarpal Joint	173
6.2	The Midcarpal Joint	173
	Figures 82–89	174

<i>Chapter 7</i>	The Joints of the Hand	190
7.1	The Architectural Concept of the Hand	190
7.2	Mechanism of Prehension	190
7.2.1	Pinch	190
7.2.2	Grasp	191
	Figures 90–116	192
