Part I Role of Verification and Recent Experience

1. Transforming the East-West Conflict: The Crucial Role of Verification. By Harald Müller	2
1.1 Introduction	2
1.2 Arms Control and Verification: Some Conceptual Thoughts	3
1.3 Verification and the Political Debate	4
1.4 Towards Cooperative Security	5
1.5 The Role of Verification in the Process of Cooperative Security	6
1.6 Methods of Verification	9
1.7 Technology and Verification	12
1.8 Conclusions	14
1.9 Notes and References	14
2. Experience with INF Treaty Verification and Prospects for Effective Verification of Strategic Arms Reductions By Robert A. Summers	16
2.1 Introduction	16
2.2 The INF Verification Regime	17
2.2.1 The Overall Concept	17
2.2.2 The Details	18
2.2.3 Implementation	20
2.3 Status of Treaty Implementation	23
2.3.1 The On-Site Inspection Agency (OSIA)	23
2.3.2 The Inspection Process	24
2.3.3 The Special Verification Commission (SVC)	24
2.4 Verification Problems in Strategic Arms Reductions	25
2.5 Concluding Remarks	26
2.6 Notes	26
3. Experience with INF Treaty Verification and Prospects for the Future. By Viktor Koltunov	27
3.1 Verification and Arms Control	27

3.2	Verification of the INF Treaty	28
3.3	Future Prospects of Verification	29
4.	Mechanisms for Raising and Resolving Compliance Issues	
	By Gloria Duffy	31
4.1	Compliance Problems	31
4.2	Possible New Compliance Mechanisms	32
4.3	A Supranational Arbitration Agency	34
4.4	Notes and References	36
<hr/>		
Part II	Verification of Mobile Missiles, Nuclear Warheads and Fissile Material	
<hr/>		
5.	Verification of Sea-Launched Cruise Missiles	
	By Valerie Thomas	38
5.1	Introduction	38
5.2	SLCMs and Arms Control	38
5.3	SLCM Verification Problems	41
5.4	Verification Approaches	42
	5.4.1 Maximal Inspection	42
	5.4.2 Minimal Inspection	44
	5.4.3 Intermediate Inspection	44
5.5	Conclusion	45
5.6	Notes and References	46
6.	Passive Detection of Nuclear Warheads	
	By Steve Fetter, Oleg F. Prilutskii, and Stanislav N. Rodionov ..	48
6.1	Introduction	48
6.2	Weapon models	48
6.3	Passive Detection	49
	6.3.1 Neutrons	50
	6.3.2 Photons	52
6.4	Radiation Detection	53
6.5	Accuracy of Detection Analysis	55
6.6	Evading Passive Detection	58
6.7	Notes and References	59
7.	Disposal of Fissile Material from Nuclear Weapons	
	By Alfred Lecocq	60
7.1	Introduction	60
7.2	How to Achieve Nuclear Disarmament?	60
7.3	Recycling Plutonium in Nuclear Reactors	61
7.4	Molten Salt Reactors (MSR)	61
7.5	How to Burn Nuclear Weapons?	61
7.6	Proliferation Advantages of MSR	63
7.7	Cost of Destroying Nuclear Weapons	63

7.8	Conclusion	64
7.9	Notes and References	66
8.	The IAEA's Controls on Fissile Material: Limits and Successes	
	By David A. V. Fischer	68
8.1	The Aim of Safeguards: Verification, not Control	68
8.2	Inherent Constraints in a World of Nation States	69
8.3	Incomplete Coverage	69
8.4	Other Limitations	70
8.5	How Safeguards Work	70
8.6	The Size of the Operation	71
8.7	How Effective are IAEA Safeguards?	72
8.8	What Have IAEA Safeguards Achieved?	73
8.9	Risks and Opportunities for IAEA Safeguards	74
8.10	Notes and References	76
<hr/>		
Part III	Verification of a Nuclear Test Ban	
9.	Can Nuclear Weapons Be Developed Without Full Testing?	
	By Theodore B. Taylor	82
9.1	Pure Fission Weapons	82
9.2	Boosted Fission Weapons	83
9.3	Thermonuclear Weapons	84
9.4	"Third Generation" Nuclear Weapons	84
9.5	Notes and References	85
10.	Recent Developments and Outlook for the Verification of a Nuclear Test Ban.	
	By Jeremy Leggett	86
10.1	Introduction	86
10.2	Recent Developments	87
	10.2.1 The Joint Verification Experiment	87
	10.2.2 Controversy over CORTEX	88
	10.2.3 Non-Governmental Verification Developments ..	89
	10.2.4 The Ad-Hoc Group of Seismic Experts at the UN Conference on Disarmament	90
	10.2.5 Expenditure on Test-Ban Verification Research ..	91
10.3	The Office of Technology Assessment Report and its Implications	91
10.4	Prospects for Test Ban Verification	93
10.5	Summary and Conclusions	96
10.6	Notes and References	97
11.	UK-USSR and US-USSR Joint Research Programmes in Seismic Verification.	
	By Roger A. Clark	99
11.1	Introduction	99
11.2	USA-USSR Programmes	100

11.3	UK-USSR Programmes	101
11.4	Preliminary Analyses of BSVRP Data	102
11.5	Future Developments	106
11.6	Notes and References	110

Part IV Control of Space Weapons

12.	Recent Developments in Space Weapons. By John Pike	114
12.1	Introduction	114
12.2	Recent Changes in the SDI Program	115
12.3	A New Political Strategy for Star Wars	116
12.4	Star Wars and the ABM Treaty	118
12.5	Anti-Satellite Weapons	119
12.6	Future Prospects	120
13.	Verification of a Ban on Space Weapons	
	By Stanislav N. Rodionov	121
13.1	Introduction	121
13.2	Components to be Verified	121
13.3	Parameters	123
13.4	Ban on Nuclear Power in Orbits	123
13.5	Notes and References	124

Part V Conventional Stability in Europe

14.	Concepts of Conventional Stability and Reductions of Arms in Europe. By Alexei Arbatov	126
14.1	Principles of Conventional Stability	126
14.2	Objects and Difficulties of Negotiations	127
14.3	Stability-Oriented Reductions of Armed Forces in Europe	129
15.	Enhancing Conventional Stability in Europe	
	By Heinrich Siegmann	131
15.1	Introduction	131
15.2	Specific Features of a Conventional Stability Regime	133
15.3	Other Measures	136
15.4	Notes and References	137

Part VI Confidence and Security-Building Measures in Europe

16.	Verification of Confidence and Security Building Measures: Evolution and Future Prospects. By Bernd A. Goetze	140
16.1	Evolution of CSBMs	140

16.2	The Helsinki Regime	140
16.3	The Stockholm Regime	143
16.4	Future Prospects	148
16.5	Notes and References	150
17.	Observations of Military Exercises and On-Site Inspections in Europe. By Manfred Graczynski	151
17.1	Introduction	151
17.2	The Stockholm Document	152
17.3	NATO Exercises	153
17.4	Need for Extending of CSBMs	153
17.5	Notes and References	156
<hr/>		
Part VII	Verification of Conventional Force Reductions	
<hr/>		
18.	Conventional Arms Reduction in Europe: A Verification Model	
By F. Ronald Cleminson		158
18.1	Introduction	158
18.2	Verification and the European Scenario	159
18.3	Verification Methods	160
18.3.1	Space-Based Sensors	160
18.3.2	Airborne Sensors	161
18.4	Coverage Problem	162
18.4.1	Types of Areas	163
18.4.2	Complementary Verification Methods	163
18.4.3	Treaty Effectiveness	165
18.5	Conclusions	165
19.	Aspects of the Verification of Conventional Arms Control Measures in Europe. By Klaus Jacob	167
19.1	Introduction	167
19.2	What is the Real Problem of Verification?	167
19.3	The Envelope Scheme	168
19.4	Tags	170
19.5	Conclusion	171
19.6	Notes and References	171
20.	The Verification of Conventional Disarmament Treaties by Remote Sensing. By Roland Reimers	172
20.1	Introduction	172
20.2	Visible light- and near infrared imaging	172
20.2.1	Optics and field of view	172
20.2.2	Sensors	173
20.3	Sensing with Thermal Infrared	174
20.4	Synthetic Aperture Radar	176

20.5	Airborne or Space-Based Remote Sensing?	177
20.6	Possible Verification Tasks	179
20.7	Weather Conditions in Germany	179
20.8	Data Processing and Data Integration	181
20.9	Concluding Remarks	181
20.10	Notes and References	182
21.	Verification Techniques for Heavy Land Vehicles	
	Using Short-Range Sensors. By Jürgen Altmann	184
21.1	Context	184
	21.1.1 Geographical and Numerical Limits in Europe ..	184
	21.1.2 Verification Methods	185
21.2	Sensors for Very Short Distances	187
21.3	Sensors for Near Distances	189
21.4	General Problems	192
21.5	Conclusion	192
21.6	Notes and References	193
<hr/>		
Part VIII	Verification of a Chemical Weapons Ban	
<hr/>		
22.	Challenge Inspections in a Chemical Weapons Convention	
	By Nikita Smidovich	196
22.1	Introduction	196
22.2	Mandatory Character	196
22.3	Equal Rights, Equal Application	197
22.4	Avoiding the Use for Other Purposes	198
22.5	The Position of the USSR	199
22.6	Notes and References	200
23.	Verification Procedures for a Chemical Weapons Treaty	
	By Julian P. Perry Robinson	201
23.1	Introduction	201
23.2	The Likely Form of the Projected Chemical Weapons Treaty	201
23.3	The Verification System Now Envisaged	203
23.4	Notes and References	207
