

Contents

SECTION I — EPIDEMIOLOGY AND VIROLOGY

Virology	3
Dr D.J. Jeffries	
The global patterns and prevalence of HIV infection in women	15
Dr J. Chin	
Prediction of trends in AIDS incidence	23
Mr G.F. Medley and Mr R.M. Anderson	
Discussion	35
Heterosexual transmission of HIV	39
Dr R. Ancelle-Park and Dr I. De Vincenzi	
Effects of human seminal plasma on the lymphocyte response to viral infection	49
Mr W.P. Soutter, Mr M.J. Turner and Dr J.O. White	
Discussion	59

SECTION II — NATURAL HISTORY

The impact of pregnancy on HIV-related disease	65
Dr E.E. Schoenbaum, Ms K. Davenny and Dr P.A. Selwyn	
Infants born to mothers seropositive for HIV: results from the ongoing European Collaborative Study	77
Professor C.S. Peckham, Dr Y.D. Senturia and Dr A.E. Ades	
Paediatric AIDS in Uganda from materno-fetal infection	83
Dr H. Lambert and Dr H. Friesen	
Discussion	89
HIV-1 infection in infants: practical laboratory diagnosis	95
Dr G.B. Scott, Dr C. Hutto and Professor W.P. Parks	
Subsequent care of infants of HIV positive mothers	101
Dr J. Mok	
Discussion	111

SECTION III — OBSTETRIC MANAGEMENT PROBLEMS

Methods and reliability of antenatal diagnosis (including the effect of passive immunisation)	125
Professor W.P. Parks	
Antenatal HIV screening—ethical considerations	127
Professor P.W. Howie	
Discussion	133

Counselling the HIV positive pregnant woman	141
Dr B. Hedge	
Termination of pregnancy	151
Dr F.D. Johnstone	
Discussion	157
Consumers' concerns about AIDS	159
Mrs A.M. Spiro and Dr. R.J.D. George	
 SECTION IV — OBSTETRIC CARE	
Changes in routine antenatal and postnatal inpatient practice	175
Miss J. Brierley and Miss C. Roth	
Safety of invasive procedures in diagnostic antenatal and intrapartum care	183
Dr J.B. Scrimgeour	
Special precautions in delivery suites and operating theatres for normal labour and delivery and operative delivery including episiotomy	189
Mr C.N. Hudson	
Discussion	193
Maternal resuscitation, haemorrhage and shock—the obstetrician's viewpoint	197
Professor W. Thompson	
Maternal resuscitation, haemorrhage and shock—the anaesthetist's viewpoint	203
Dr D.A. Zideman	
Discussion	205
 SECTION V — HIV AND HEALTH CARE WORKERS	
Risk of transmission to other patients and staff	209
Mr A.J.W. Sim	
HIV-infected health care workers	215
Dr D.J. Jeffries	
Discussion	221
Human immunodeficiency virus and blood transfusion	225
Professor J.G. Whitwam, Dr V. Chowdhury, and Dr J.M. Hows	
Discussion	235
 SECTION VI — NEONATAL PROBLEMS	
AIDS and neonatal resuscitation	241
Dr A. Whitelaw and Dr D.A. Zideman	
Care of the normal newborn of the HIV positive mother	245
Professor C.B.S. Wood	
Discussion	249
Implications of human immunodeficiency virus infection for neonatal intensive care	255
Dr D. Harvey	
Discussion	261

AIDS and human milk banking	271
Dr A. Lucas	
Breastfeeding and human milk banks—a midwife's viewpoint	283
Miss R.J. Wilday	
Discussion	289
SECTION VII — GYNAECOLOGY AND HANDLING OF SPECIMENS	
Gynaecological surgery	293
Miss E.M. Campbell	
AIDS and barriers	297
Dr A. Mills	
Infertility and AIDS	303
Dr J.P.P. Tyler and Dr J.A. Crittenden	
Discussion	309
Counselling on safer sex	315
Miss M. McElwee	
Preconceptional counselling	317
Mr S.J. Steele	
Discussion	321
CONCLUSIONS	325
APPENDIX	333
