

1	Digital Controlling: Basics for the Successful Digital Transformation in Controlling	1
	Imke Keimer and Ulrich Egle	
1.1	Introduction	1
1.2	Controlling Digitalization	4
1.3	Digitalization in Controlling	5
1.3.1	Digital Controlling.	6
1.4	Conclusion	13
	References.	14
2	Current Trends in Digital Transformation in the Financial Sector	17
	Imke Keimer and Markus Zorn	
2.1	An Interview by Imke Keimer with Markus Zorn	17
3	Further Development of the Financial Forecast in the Context of the Digital Transformation Using the Example of SAP SE	23
	Simone Raschig and Mike Schulze	
3.1	Initial Situation.	24
3.2	The New Forecast Process.	25
3.2.1	Centralised and Decentralised Forecasting Processes Run in Parallel and Complement Each Other	25
3.2.2	SAP's Transformation Process.	26
3.3	Key Components in the Central Forecast Process	27
3.3.1	The Satellite Concept.	28
3.3.2	Predictive Analytics Models	28
3.3.3	Collaboration Model in the Central Forecast.	30
3.4	Success Factors and Challenges.	31
3.4.1	Process and Organisation.	31
3.4.2	Operational Work with Predictive Models.	33

3.5	Areas of Application Today and in the Future	34
3.5.1	Central Simulations of Outcome Scenarios	34
3.5.2	Integration of Predictive Components in Satellites	34
3.6	Conclusion	35
	References	36
4	From Success Assurance to Product Development: Data Analysis at Gebrüder Weiss in the Corporate Logistics Department	39
	Martin Selb	
4.1	Introduction to Controlling at Gebrüder Weiss	39
4.2	Logistics Controlling at Corporate Logistics	40
4.3	Current Development in Logistics Controlling at Gebrüder Weiss	43
4.3.1	Change in the Framework Conditions	43
4.3.2	Change in the Methods Used	47
4.4	The Path to Product Development	54
4.5	Conclusion	55
	References	58
5	The Digital Transformation of Reporting at Swiss Radio and Television (SRF)	59
	Kevin Wettstein and Renato Caderas	
5.1	Introduction	59
5.2	Initial Situation	60
5.3	Objective	61
5.3.1	Standardisation: Notation, Content, Platform	61
5.3.2	Provision of Information: Self Service	64
5.3.3	Transparency: Need to Know	64
5.4	Solution Approach for the Introduction of the New Reporting Landscape	65
5.4.1	Clustering Modules	65
5.4.2	Reporting Guideline	66
5.4.3	Definition of Module Contents	66
5.4.4	Development of Module Contents	68
5.4.5	Training	68
5.5	Learnings	69
5.5.1	Cultural Change on the Part of Users and Controllers	69
5.5.2	Enabling	69
5.5.3	Gamification/Discovering Connections	70
5.5.4	Development Use and Influence of Further Developments	70
5.6	Online Reporting: Culture Change	71

6 Benefits and Stumbling Blocks in the Introduction of a Business Intelligence Solution for SMEs Using the Example of SIGA 75
Nicole Hecht and Peter Scherrer

6.1 Introduction 76

6.2 Definition of Controlling and Business Intelligence 77

6.2.1 Controlling 77

6.2.2 Business Intelligence 77

6.3 IT Systems and Data Management of the BI Solution 78

6.4 Business Intelligence and Analytics in Controlling: Practical Examples . . 79

6.4.1 Standard Report Using the Example of a Sales Report 80

6.4.2 Drill-Down Report Using the Example of Sales Prices 81

6.4.3 Alerts Using the Example of a Real-Time Report in Production 82

6.4.4 Shopping Basket Analysis 83

6.4.5 Forecasting with Prophet 84

6.5 Stumbling Blocks and Lessons Learned 87

7 Digitalize Corporate Management with Business Intelligence 95
Romano Caviezel

7.1 Introduction 95

7.1.1 Business Intelligence 96

7.1.2 Business Analytics 96

7.1.3 From Strategy to Management Cockpit (Descriptive and Diagnostic Analysis) 97

7.1.4 From Control to Planning 97

7.1.5 Using Business Analytics to Recommend Action 97

7.1.6 From Selection to Implementation 97

7.2 Initial Situation 97

7.3 Objectives of the New BI Solution 98

7.4 Solution: Project Preparation as a Basis for the Successful Implementation of the BI Solution 99

7.4.1 From Big Data to Services 99

7.4.2 The Requirements Definition 100

7.5 Result: From the Requirements Specification to the BI Solution 101

7.5.1 Specifications 101

7.5.2 Why Is the Comment Function so Important? 102

7.6 Design: There Is No Second Chance for the First Impression 103

7.6.1 Design 103

7.7 Success Factors for Successful Implementation 107

7.7.1 Acceptance 107

7.7.2 Quality/Trust 108

7.7.3 Care 108
