Preliminary Remarks	1
Test: How Much Is Your Everyday Life Determined by Pain?	5
Evaluation	6
0–7 Points	6
8–12 Points	7
13 –18 Points	7
19 –24 Points	7
Part I: What You Should Know About Pain	9
The Characteristic Path of the Pain Patient	10
Prerequisites for Pain Management	12
Goals of Psychological Pain Management	14
Understanding Pain	16
The Pain System	17
Pain that Has Become Chronic and Its Causes	18
Physical Causes of Chronic Pain	20
Medicinal Causes of Pain	22
Psychological Pain Amplifiers	23
Part II: Exercises and Techniques for Pain Management	27
Instructions for Use	29
The Pain Protocol	31
Change of Thinking, Evaluation and Attitude	34
Exercise 1: Decoupling Body and Emotions	35
Exercise 2: Thought Stopping Technique	36
Exercise 3: Redirecting Attention	39
Exercise 4: Pain as a Counterpart	41
Exercise 5: Change of Perspective	41
Exercise 6: Affirmations: Formulaic Resolutions	43
Exercise 7: Cognitive Reappraisal: The ABC Model of Emotions	44
Change of the Experiencing: Body Perception	49
Exercise 8: Training Mindfulness and Inner Perception	49
Exercise 9: Pleasure Training	51
Exercise 10: Mindful Focusing: Experiencing the Body's Knowledge	52
Exercise 11: Body Responses	55
Exercise 12: Feeling Behind the Pain	57
Rest and Relaxation Techniques	58
The Effects of Relaxation Techniques	59
What to Consider in Practical Application	60
Exercise: Initiation of Relaxation	61
Progressive Muscle Relaxation (PMR) according to E. Jacobson	63

Application Tips for PMR.....	64
Exercise 13: Progressive Muscle Relaxation: Long Form.....	64
Exercise 14: Progressive Muscle Relaxation: Short Form.....	68
Exercise 15: Concentrative Relaxation	71
Exercise 16: Relaxation through Tapping Acupressure.....	73
Exercise 17: Relaxation Through Eye Movements	75
Exercise 18: Relaxation Through Pain Tolerance.....	76
Relaxation Through Body Awareness and Sensory Perception	77
Exercise 19: Body Walk.....	77
Exercise 20: The Good Place.....	79
Exercise 21: Sensory Channels.....	79
Exercise 22: The Apple	81
Exercise 23: Points of Contact	82
Relaxation Through Breathing.....	83
Exercise 24: Breath Awareness.....	83
Exercise 25: Special Breathing Techniques.....	84
Relaxation Through Fantasy Journeys	88
Exercise 26: On the Beach.....	88
Exercise 27: Waterfall.....	89
Self-Hypnosis: Deep Relaxation.....	91
Exercise 28: Self-Hypnosis	92
Modules: Imaginations/Suggestions.....	96
Exercise 29: Pain Shape	96
Exercise 30: Modulation of the Shape of Pain	98
Exercise 31: Glove Anesthesia	99
Exercise 32: Pain Shift.....	101
Exercise 33: Pain Intensification	102
Pain Modulation Through Mental Control	103
Biofeedback: I Can See the Success	103
Exercise 34: Pain Feedback.....	104
Exercise 35: Mental Movement Training.....	104
Part III: Changes in Unfavourable Behaviour.....	107
How to Change Your Behavior Step by Step.....	108
Physical Exercise	110
(Re-)take Up Social Activities.....	113
Is a Change in Pain Behavior Necessary?	115
Which Clues Might the Pain Be Trying to Give?.....	116
Stress and Excessive Demands	117
Detecting and Changing External Stress Influences	119
Recognizing and Changing Inner Attitudes	120
Increasing Stress Resilience and Strengthening Regeneration	121
Unsolved Problems and Solution Strategies.....	122
First Step: Problem Perception and Identification.....	123

Step 2: Target Design and Find Solution 123

Step 3: Anticipation 124

Step 4: Application and Review..... 124

Successful Communication as a Component of Pain Management 125

Motivation: How Can the Good Results BE Maintained? 129
