Preface — V

Acknowledgment — VII

The Author — IX

Chapter 1

Introduction — 1

- 1.1 Overview — 1
- 1.2 Definitions — 1
 - 1.2.1 Chemical Laboratory Technician — 1
 - 1.2.2 Chemical Plant Operation Technician — 1
 - 1.2.3 Chemist — 2
 - 1.2.4 Scientist — 2
 - 1.2.5 Researcher — 2
 - 1.2.6 Responsibility — 2
 - 1.2.7 Skill — 3
 - 1.2.8 Duty — 3
 - 1.2.9 Good Laboratory Practice (GLP) — 3
 - 1.2.10 Laboratory Information Management System (LIMS) — 3
- 1.3 Questions — 5

Chapter 2

Chemical Laboratory Technician Skills — 6

- 2.1 Knowledge or Cognitive Skills — 6
- 2.2 Chemical Laboratory Technique Skills — 7
 - 2.2.1 Laboratory Safety Practices — 8
 - 2.2.2 Analytical Methods — 8
 - 2.2.3 Sample Preparation — 8
 - 2.2.4 Test Methods — 8
 - 2.2.5 Understand Laboratory Equipment — 8
 - 2.2.6 Documentation and Reporting — 8
- 2.3 Synthesis, Characterization, and Preparation Skills — 9
- 2.4 Analysis and Measurement Skills — 9
- 2.5 Laboratory and Personal Safety Skills — 9
- 2.6 Housekeeping Skills — 10
- 2.7 Computational Skills — 13
- 2.8 Computer Skills — 14
- 2.9 Communication Skills — 15
- 2.10 Questions — 15

Chapter 3

Chemical Plant Operation Technician Skills — 17

- 3.1 Knowledge Skills — 17
- 3.2 Technical Skills — 17
- 3.3 Personal Safety Skills — 17
- 3.4 Collaboration Skills — 18
- 3.5 Documentation Skills — 20
- 3.6 Questions — 21

Chapter 4

Technician Duties and Responsibilities — 22

- 4.1 Chemical Laboratory Technician — 22
 - 4.1.1 Duties and Responsibilities — 22
- 4.2 Environmental Laboratory Technician — 23
 - 4.2.1 Duties and Responsibilities — 24
- 4.3 Food Science Laboratory Technician — 25
 - 4.3.1 Duties and Responsibilities — 25
- 4.4 Wastewater Treatment Laboratory Technician — 26
 - 4.4.1 Duties and Responsibilities — 27
- 4.5 Pharmaceutical Laboratory Technician — 27
 - 4.5.1 Duties and Responsibilities — 28
- 4.6 Medical Laboratory Technician — 28
 - 4.6.1 Duties and Responsibilities — 29
- 4.7 Science Laboratory Technician — 30
 - 4.7.1 Duties and Responsibilities — 30
- 4.8 Polymer Laboratory Technician — 31
 - 4.8.1 Duties and Responsibilities — 32
- 4.9 Clinical Laboratory Technician — 32
 - 4.9.1 Duties and Responsibilities — 33
- 4.10 Quality Assurance and Quality Control Technician — 34
 - 4.10.1 Duties and Responsibilities — 34
- 4.11 Questions — 34

Chapter 5

Sampling Methods and Chemical Analysis — 36

- 5.1 Introduction — 36
- 5.2 Sampling Importance — 37
- 5.3 Sample Collection — 37
- 5.4 Sample Storage — 38
 - 5.4.1 Challenges in Using Cold Storage — 39
- 5.5 Sample Types — 40
 - 5.5.1 Grab Sample — 40

5.5.2	Composite Sample —	42
5.5.3	Duplicate Sample —	43
5.5.4	Split Sample —	44
5.6	General Sampling Rules —	45
5.7	Sample Handling —	45
5.8	Chain of Custody —	45
5.9	Laboratory Sampling Procedures —	46
5.10	Chemical Plant Sampling Procedures —	47
5.11	Classical Analysis Methods —	47
5.11.1	Qualitative Analysis —	47
5.11.2	Quantitative Analysis —	48
5.12	Instrumental Analysis Methods —	48
5.12.1	Nuclear Magnetic Resonance (NMR) —	49
5.12.2	Atomic Absorption Spectroscopy (AAS) —	50
5.12.3	Ultraviolet-Visible Spectrophotometry (UV-Vis) —	52
5.12.4	Infrared (IR) Spectroscopy —	53
5.12.5	Mass Spectrometry (MS) —	55
5.12.6	X-Ray Fluorescence (XRF) —	56
5.12.7	X-Ray Diffraction (XRD) —	57
5.12.8	Energy-Dispersive X-Ray Spectroscopy (EDX or EDS) —	58
5.13	Questions —	58

Chapter 6

Chemical Laboratory and Chemical Plant Safety Procedures — 60

6.1	Introduction —	60
6.2	Safe Usage of Hazardous Chemicals in the Laboratory and Plant —	61
6.2.1	Laboratory Use of Flammable Chemicals —	61
6.2.2	Laboratory Use of Corrosives —	62
6.2.3	Laboratory Use of Reactive Chemicals —	62
6.2.4	Laboratory Use of Compressed Gas Cylinders —	63
6.3	Personal Protective Equipment —	64
6.4	Permits and Regulations —	65
6.5	Global Regulations for Workplace Safety —	65
6.5.1	The Hazard Communications Standard —	65
6.5.2	The Hazardous Waste Operations and Emergency Response Standard (HAZWOPER) —	68
6.5.3	Title III of the Superfund Amendments and Reauthorization Act —	68
6.6	Questions —	69

Chapter 7

Good Laboratory Practice (GLP) — 70

- 7.1 Introduction — **70**
- 7.2 GLP Basic Elements — **71**
 - 7.2.1 Personnel — **71**
 - 7.2.2 Facility and Equipment — **72**
 - 7.2.3 Characterization — **72**
 - 7.2.4 Study Plan or Protocol — **72**
 - 7.2.5 Standard Operating Procedures — **72**
 - 7.2.6 Final Report — **73**
 - 7.2.7 Storage and Retention of Records — **73**
- 7.3 GLP Principles — **73**
- 7.4 GLP Implementation — **74**
- 7.5 Standard Operating Procedures (SOPs) — **75**
 - 7.5.1 SOP Essentials — **75**
 - 7.5.2 SOPs Successful Implementation Requirements — **76**
- 7.6 GLP QA Profession — **77**
- 7.7 Tips to Achieve GLP — **77**
- 7.8 The Eight Examples of Good Laboratory Practice — **78**
 - 7.8.1 Audits and Inspections — **78**
 - 7.8.2 Standard Operating Procedures (SOPs) — **78**
 - 7.8.3 Data Recording — **78**
 - 7.8.4 Proper Equipment Use — **79**
 - 7.8.5 Examined Items — **79**
 - 7.8.6 Personnel — **79**
 - 7.8.7 Proper Instruction — **79**
 - 7.8.8 Workplace Conditions — **79**
- 7.9 Questions — **80**

Chapter 8

Laboratory Information Management Systems (LIMS) — 81

- 8.1 Introduction — **81**
- 8.2 Basic Components of LIMS — **81**
 - 8.2.1 Tracking of Samples — **82**
 - 8.2.2 Carrying Out Protocols — **82**
 - 8.2.3 Storage Organization — **83**
- 8.3 Advantages of LIMS — **83**
 - 8.3.1 Productivity and Efficiency — **83**
 - 8.3.2 Automation — **83**
 - 8.3.3 Connectivity — **84**
 - 8.3.4 Cost-Cutting — **84**

8.4	Disadvantages of LIMS —	84
8.5	Functions of LIMS —	85
8.5.1	Sample Receipt and Sample Login —	85
8.5.2	Sample Scheduling —	85
8.5.3	Data Acquisition —	85
8.5.4	Data Processing and Data Approval —	85
8.5.5	Quality Control —	85
8.5.6	Final Reporting —	86
8.5.7	Quotes and Billing —	86
8.5.8	Equipment Calibration and Maintenance —	86
8.5.9	Testing Methods —	86
8.6	LIMS Accuracy and Security —	86
8.7	Benefits of LIMS —	87
8.8	Types of LIMS —	87
8.8.1	Clinical Evaluation and Diagnosis LIMS —	88
8.8.2	LIMS for the Environment —	88
8.8.3	LIMS for Academic Research —	88
8.8.4	Petrochemical and Chemical LIMS —	88
8.8.5	Food Industry LIMS —	88
8.8.6	LIMS for Forensics —	89
8.9	Applications of LIMS —	89
8.10	Implementation of LIMS —	89
8.10.1	Engage End Users —	89
8.10.2	Define Your Workflows —	90
8.10.3	Select the Vendor —	90
8.10.4	Design Your LIMS —	90
8.11	LIMS System Operation —	90
8.11.1	Audit Management —	90
8.11.2	Barcode Handling —	91
8.11.3	Chain of Custody —	91
8.11.4	Compliance —	91
8.11.5	Customer Relationship Management —	91
8.11.6	Document Management —	92
8.11.7	Instrument Calibration and Maintenance —	92
8.11.8	Inventory and Equipment Management —	92
8.11.9	Manual and Electronic Data Entry —	92
8.11.10	Method Management —	92
8.11.11	Personnel and Workload Management —	93
8.11.12	Training Management —	93
8.11.13	Quality Assurance and Control —	93
8.11.14	Reports —	93
8.11.15	Time Tracking —	93

- 8.11.16 Workflows — **94**
- 8.12 Types of LIMS Systems — **94**
- 8.12.1 Offline Lab Software — **94**
- 8.12.2 Standalone or Web-Based LIMS — **94**
- 8.12.3 Cloud-Based SaaS LIMS — **94**
- 8.13 Questions — **95**

Chapter 9

Working with Laboratory Glassware — 97

- 9.1 Glass Material Types — **97**
- 9.2 Hot Glassware Items — **97**
- 9.3 Preventing Cuts — **97**
- 9.4 Tubing Properties and Fittings — **98**
- 9.5 Pressure and Vacuum — **98**
- 9.6 Glassware Repair — **98**
- 9.7 Types of Glassware in the Laboratory — **99**
- 9.8 Glassware Cleaning — **99**
- 9.8.1 Chemically Contaminated Glassware — **100**
- 9.8.2 Biologically Contaminated Glassware — **100**
- 9.9 Laboratory Glassware Disposal Guidelines — **100**
- 9.9.1 Broken Glassware Disposal — **101**
- 9.9.2 Broken Glass Container Disposal — **101**
- 9.10 Questions — **102**

Chapter 10

Laboratory Emergency First Aid — 103

- 10.1 Lab-Related Emergencies — **103**
- 10.1.1 Inhalation of Gases and Vapors — **103**
- 10.1.2 Skin and Eye Exposure to Chemicals — **103**
- 10.1.3 Burns — **103**
- 10.1.4 Electric Shock — **104**
- 10.1.5 Cuts or Open Wounds — **104**
- 10.1.6 Exposure to Biological Agents — **104**
- 10.1.7 Exposure to Radiation — **104**
- 10.2 Essentials of Laboratory First Aid — **105**
- 10.2.1 Standard Operating Procedure on First Aid — **105**
- 10.2.2 First-Aid Kit — **106**
- 10.2.3 Specific First-Aid Tips — **106**

10.3	Preventing Lab Accidents at Workplace —	106
10.3.1	Preparation —	107
10.3.2	Prevent Contamination —	107
10.3.3	Care with Chemicals —	107
10.4	Laboratory Must Have Things —	108
10.5	Questions —	108

Chapter 11

Solvents Commonly Used by Chemical Technicians — 109

11.1	Common Solvents for Chromatography —	109
11.2	Common Solvents for Extraction —	109
11.3	Common Solvents for Chemical Reactions —	109
11.4	Common Solvents for Characterization —	110
11.5	Questions —	111

Essential Terms — 113

Abbreviations — 115

Resources and Further Readings — 117

Index — 119
